It is intimated by certain officials who have the ear of the President

on the financial question, that he

was so anxious for some measure

looking to the resumption of specie within his term of office, and so

disgusted with the obstacles thrown in the way of inflationists, that he

was seriously considering the pro-priety of sending a message to Con-gress and making an earnest appeal

embodied in a letter to Senator

Jones, instead of a message to Congress, are very distasteful to west-

complimentary. They even go so far as to declare that the President

Sunday Night's Dispatches.

Specially Reported for the Omaha Daily Bee, by the Atlantic Pacific Telegraph Co.

NEW YORK, June 7. A special dispatch to the World says the interference of the President in the pending financial legis-lation is known in support of the reciprocity treaty, and his opposi-tion to the civil rights bill is confirmed, as the former is by his letter to Senator Jones. It has caused a demoralizing feeling among Repub-licans, and nothing else is talked of. The President has been accused of

intending to break up the Republican party for the purpose of forming a new one on the currency ques-tion, and with divers other political movements, in order to see where the party is going to stand in its re-lation to him. It has been decided to call a caucus of all the Republican Senators and members in the Hall of the House on Monday or Tuesday next to discuss the situation. In the conference committee yesterday (Saturday) it was decided to go as far as possible to accommo-date the President's views, and prepare a bill that will probably pass both Houses. The President will then be placed in the opposition to give his position an official shape or another veto. Some of the Republicans are in favor of making the

issue with him on this question as prompt and decisive as possible. Another special from Washing-ton says: The President's financial memorandum has produced more excitement and comment than any act of his administration, for many months. The western inflationists are greatly exasperated, and con-demn the President in unmeasured terms. They say they will never agree to any such stringent proposi-

tions, and they say the country may as well recognize this first as last. Some of the anti-inflationists regard promulgation of paper at this juncture as an act which will only tend to create discord in the ranks of the party, and prevent any finan-cial measure from becoming a law. This session's talk among Republican congressmen is that, in a party sense, the President has made a mistake, although the majority sub-scribe to the discipline and sentiments enunciated in the memorandum. The feeling is almost universal that the conference committee on the finance bill will not be able to come to any understanding, or

agree on any bill which will approach the President's petition. An Evening Post special from Washington says: It is understood that there is to be a thorough over- | Senate amendments to the deficienhauling of all papers in the Treas- cy bill. ury Department relating to the Syndicate business with the view of ascertaining into the truth of some serious charges which have It is also understood that suit has

been begun by silent partners of Henry Clews & Co. in the syndicate of foreign fiscal agency business, to compel them to account for profits of same, and persons who claim to be familiar with the history of the matter, say that there will be disclosures of the most startling character as to the means employed to effect the bankruptcy of the Baring Bros. and appointment of Jay Cooke & Co. and Henry Clews & Co. as U. S. fiscal agents abroad. Some very high officials are said to be implicated, and if an exposure is made, it will be another national scandal which may lead to congressional in-

WASHINGTON, June 7. The Board of Indian Commissjoners, comprising Nathan Bishop, Wm. E. Dodge, John V. Farwell, Geo. H. Stewart, Felix R. Brunat and Robert Campbell, have ad-dressed a letter to the President resigning their office. They take occasion to warmly commend the Indian policy pursued by the government, although some reforms are yet needed. They regret the Secretary of the Interior does not favor the legislation making the Indian Bureau independent of the Interior Department. Department. They consider this change necessary to perfect and per-petuate the present Indian policy. They cannot continue in office because under existing laws the over-ruling of decisions of the board by the Interior Department would render their work useless and second because none of them can remove to Washington to perform the duty. Experience has shown that the board can hardly maintain a harmonjous relation with the Interior Department, but when under its control such a board is useless,

About 4:30 this morning a wind and rain storm struck the new bridge across the Hudson and blew down the eastern span; in its de-scent it struck four boats lying under it in the river, and sunk them all. NEW YORK, June 6. Jas. D. Pattee, an ex-colonel who has been committed without bail under indictment for a diamond robbery, makes the tenth prisoner confined in the Tombs to answer for the great forgeries of the New York Central and Buffalo & Erie Railroad bonds, by which Wall street was swindled out of \$1,000,tion, dated September 27, 1830. work to prevent any report which will prohibit any of the members of the present local government

from being eligible to the new one such a censure as that would reflect directly on the President. The omnibus or miscellaneous bill was completed in committee yesterday. The military deficiency and civil service salary bills are in com-mittees of conference with every

prospect of agreement. There is every reason to believe that a tariff bill, and possibly the steamboat bill will pass; and that the Geneva award bill will end as it did last year-by referring it to the next session of Congress; that some kind of a bankrupt bill will be wrought; that the Mormon bill which passed the House will be greatly modified in the Senate; that a change will be made in the form of government of the District of Columbia; that the molety system will be abolished, and that all grants, subsidies, etc., will be voted down. The omnibus bill aggre-gates thirty millions, two less than last year. It is more than probable that the Chactaw award, over two millions, will be stricken out, and that the reduction will, in all, be near five millions.
