THE most painful subject before the City Council is Captain Payne.

Let Omaha rejoice! Saint Patrick O'Bannon O'Hawes is at last in our midst, and the industrious political toilers will have a chance to make another convert.

People who listened to Councilman Lucas' brilliant curtain lecture at the Council Chamber last evening are at a loss to know whether the power to appoint policemen is vested, by the charter, in the Mayor or in Councilman Lucas.

THE mountan has labored and brought forth a mouse. The playedout band of political and social bummers, who are of late playing sham workingman, have after twenty-four hours of protracted labor succeeded in hatching out the characteristic production which appeared through the columns of the Ku-Klux morning organ. The chief burden of their story is that Rosewater is making war on the cooperative delusion because he failed to obtain admission into the charmed bummer circle.

This statement is herewith branded as an infamous libel, and we till 2p. m. dare the sneaking cowards who penned it to produce Rosewater's application, without which no member can be admitted.

Although Johnson, Dudley, and their cappers have, for months, employed every device at their command to draw Rosewater into their spider's net, he has steadily rejected all their overtures, including the offer to become a member of the Capitol removal pool. This fact we are ready to prove, and the bummers may put it in their pipes and smoke it,

Upon taking the chair, Mr. Gear said he thanked them for the honor. One week ago to-day a Convention was held in this hall, and its chairman telegraphed that old Repuli-canism was dead. I think November will prove that the party is not dead. Twenty years ago and over the party was founded, and we can point with pride to its record. To you, gentlemen, who are delegated the task of forming and organizing platform, and the nomination of candidates. I know you will per-form your duty well. Our majority will be sufficient to satisfy the State and to wain the nation that Republlcanism is not dead.

The regular committees were then named, and after several amendments the convention adjourned

That as the policy of the Republican party in relation to fir mee has afforded the people not only safe, sound and popular currency of equal and uniform worth in every portion of our com-mon country, but has likewise greatly improved the credit of the country at home and abroad, we point with pride to its record and accomplishments in this regard, and while reaffirming the policy announced by the party in the national conventions of 1868 and 1872, and triumphantly endorsed by the people at the polls, a polley which, while contributing to the public credit, has also enhanced individual and collective prosperity of the American people, we favor such legislation as shall make national banking free to all,

under just and equal laws, based upon the policy of specie resump-tion at such times as is consistent with material and industrial interests of the country, to the end that the volume of enrrency may be reg-ulated by the national laws of trade. 2d.
