MIDNIGHT. 4 O'CLOCK P. M. THE EAST.

NEW YORK, July 7. Many of the most distinguished physicians and dentists assembled at a meeting of the Neurological Society last evening, to discuss a question connected with hydrophobia.

Dr. William A. Hammond occupied the chair and spoke of the peculiar features of the case of Wm. McCormick, that convinced the physicians that the man had true hydrophobia. The inability to swallow either fluids or solids was very marked. It was absolutely impossible for him to swallow water or ice, and when attempts were made the substance was thrown from the mouth with violence.

Dr. Hammond admitted that while the disease might be blood poison, and changes in the organs of life, it might have been caused by the assimilation of that poison, yet it was more than possible. It was true that a nervous disease like tetanus, that while no treatment had effected a cure in a well authenticated case, yet the application of a galvanic current had in the only case in which it had been tried, prolonged the patient's life several days.

After speaking of cauteries, and other methods of destroying nerves, Dr. Hammond advised by all means the exertion of the parts involved.

Resolutions were adopted, and commissioners appointed to investigate further, and report at a future meeting.

Freight agents who have met to decide on the route for the west by the Erie, New York Central and Pennsylvania Central Railroads have resolved to increase freights on live stock to about double its former rates, the basis of the increased rates was fixed at 55 cents per one hundred pounds from Chicago to New York. Its managers intend to increase, and not decrease all other rates.

The first of the free pines for poor children took place yesterday, under the direction of George F. Williams, their manager, and their management in former years. About two thousand children were taken to the country to-day.

Gen. Williams, formerly an officer in the confederate army and residing at Rutherford Park, New Jersey, for the past six years committed suicide yesterday.

Thomas Kemp, of New Brunswick, N. J., took his three children to a canal yesterday and pitched them in, and jumped in himself. The oldest child, a girl, was drowned, but the father and other children were rescued.

A party of gentlemen will leave this city for Albany to-night, to lay before the governor their reasons for desiring the removal of the mayor and police commissioners. It is understood that some of the strong points made by the counsel against the mayor are that on three occasions he has refused to investigate charges against the commissioners, when it was plainly his duty to do so. These occasions were first, when the committee on the election law, second, when the Board of Aldermen, acting on the report presented by the committee, requesting the Mayor to investigate the charges against the Police Commissioners; and thirdly, when the legislative committee presented a report on the charges that the Board had acted improperly in the working of the street cleaning bureau.

The Mayor seems impressed with the gravity of the occasion, but declares he acted under the legal advice of counsel. He denies that the Assistant Attorney General has advised him to discontinue his duties, calling his attention to the gravity of the charges against the Mayor and Police Commissioners Gardner and Charles, and asking him to send his resignation to the Mayor.

Thomas Kemp, of New Brunswick, N. J., pitched his three children into a canal on Monday, drowning one of them, and then attempted to drown himself, died to-day.

It is rumored to-night that Commissioners Charles and Gardner have resigned, in order to prevent Mayor Havemeyer's embarrassment. G. W. Maxwell, Superintendent of Police, is mentioned as one of the successors, and John R. Voorhees as the other.

General Hillhouse has been re-appointed Assistant Treasurer at New York.

The Erie railway has filed an answer to the Angelo's suit in which it denied every allegation thereat. The Erie company have commenced suit for \$1,250,000 against Jay Gould to cover the amount expended by him from the proceeds in transactions with U. S. express stock, and the return of reimbursement claimed for money expended in treating him from insurances of the property conveyed by Gould to the Erie railway in the famous restitution transaction in November, 1873. He had agreed to convey this property free of incumbrance, but failed to do so.

The following is the Erie railway directory to be voted for on the 14th instant, which will probably be elected: Messrs. Roberts, Stebbins, Smith, Johnson, Babcock, Duncan, Mayo, Randall, Robinson, Balfour, Morgan, Balster, Gray, Baker, and Schuchardt. It is reported that Jewett will not become connected with the Erie.

ST. JOHN'S, N. B., July 7. Last night a serious riot occurred at Fredricktown between the attaches of the circus and a party of lumbermen, who became involved in a dispute at the ticket office. The circus men drew revolvers and fired into the crowd, wounding a number. The riot then assumed larger proportions, the circus people being overpowered, and their wagon run into the river. The fire bells were rung, special police sworn in, and thirteen circus men were arrested. This morning an injunction was obtained from the Supreme Court prohibiting the circus from leaving the town until a full investigation can be had.

It is estimated that more than 100 houses in this city were unroofed by the tornado on Saturday. Fears are entertained that several persons who were down on the Potomac in small boats on an excursion have lost their lives, as no tidings have been received as to their safety.

CABLEGRAMS.

NEW YORK, July 7. A special to the Times from Augusta, Maine, says that a letter from Speaker Blaine, accepting the nomination to Congress, will be published to-day.

WASHINGTON, July 7. The Attorney General has decided that the 20th section of the act of June 30th, 1864, provides only for refunding the duties collected under the joint resolution, of April 29th, 1874, upon importations made upon the 29th and 30th days of April, of that year.

NEW YORK, July 7. The Montreal Rifle Club challenged the National Rifle Association to shoot simultaneous matches, the Canadians to shoot at Montreal and the National Association at Creedmoor. The challenge has been accepted, and the match comes off one week from Saturday next, at short range.

NEW YORK, July 6. The steamer arrived from Europe yesterday and brought three thousand one hundred and two emigrants, including six hundred Mormons who started for Utah this morning. The company was that a large proportion of them were good looking young women, who seemed somewhat ashamed of their position as emigrant glances from strangers as much as possible. The different steamship lines are taking back many more steerage passengers than usual this time of year, some of them say more than ever before. This they attribute to two causes, cheapness of passage and scarcity of work throughout the country.

NEW YORK, July 6. At a meeting of the medical faculty held last evening in the College of Physicians and Surgeons, on the call of Professor Hammond to consider the hydrophobia question and to suggest treatment, various opinions were submitted and discussed, and resolutions were passed censuring the muzzling of dogs and recommending the position of the general dog tax, recommending that the canine teeth of dogs be blunted invariably, and recommending the destruction, scientifically, by authorized persons, of all dogs not so licensed or whose fangs are blunted. They also recommended a pound for stray dogs. Several persons were injured, some severely, by the premature explosion of a bomb during a public display on Washington square last night.

Wall street yesterday was generally weak with a heavy decline and limited sales, the decline being attributed to the Wisconsin railroad decision.

LONG BRANCH, July 7. The attendance at the Monmouth Park races to-day was almost as big as on Thursday, and includes many of the leading turf men and distinguished visitors resident at the Branch. The weather is open, hot and heavy pools are selling on the first race.

The first race was for the hopeful stakes, value \$500 added to the stake; fifty each to two year olds; second to receive one hundred and fifty; third horse fifty. There were twenty-four entries.

St. Paul, Minn., July 2. To the Assistant Adjutant General of the Department of the Missouri, Chicago—Custar's expedition got off this morning for the country, escorted by the regulars. The Indians received and everybody well pleased with them. He says it is the best equipped, armed and organized force that has ever been sent to the plains. We shall probably hear from him in eight or ten days.

(Signed) O. D. GREENE, Assistant Adjutant General.

ST. PAUL, Minn., July 2. To the Assistant Adjutant General of the Department of the Missouri, Chicago—Stanley reports from Fort Sully, this morning, that the Indians at the Cheyenne Agency are sane and are killing their domestic cattle. They probably think that Custer is off beyond recall, as Stanley says if he has gotten off.

(Signed) O. D. GREENE, Assistant Adjutant General.

The object of the expedition to learn the topography of the Black Hill country. Every expedition heretofore going there, has been driven back. The movement of such a body of troops, it is thought, will dispel the rumors of the warlike Indians. Major General Forsyth, and Lieut. Col. Fred Grant, accompany the expedition.

Gen. Jeff C. Davis, commanding the Department of Columbia, will proceed to join his regiment, the 23d Infantry, now moving from Arizona to relieve the 1st Infantry in Utah and Wyoming territories, with headquarters at Fort Russell.

Messrs. Cresswell and Leopold, of Washington, and Dr. Purvis, of Philadelphia, who have been honored by the Secretary of the Treasury, as trustees, to settle up the affairs of the freedmen's bank, have not yet signed the bill of deposit for the stock of the bank.

Gen. Purvis will decide one way or the other, at a meeting soon to be held. Mr. Purvis has been telegraphed for, Messrs. Cresswell and Leopold say the depositors will suffer very little, as possible into the situation of the affairs. They are of the opinion that the affairs of the bank look more promising than at first, and express the opinion that the depositors will suffer very little, if any loss. They think it will take about three years to wind up the concern.

Yesterday afternoon Gen. Cresswell turned over to J. W. Marshall, who has been commissioned to act as Postmaster General until Jewett arrives.

Our government has no official information that Admiral Polo has been recalled. He has returned to Spain on a leave of absence granted some months ago, and will endeavor while there to be placed on active duty in the Spanish navy, preferring to be relieved from diplomatic affairs, which are very distasteful to him.

There is a report to-day, which appears to be well authenticated, that if Mr. Moran accepts the Assistant Secretaryship of the State Department, Nicholas Fish, the Secretary of the Legation at Berlin, will be transferred to London.

Representative Orth, of Indiana, is mentioned in connection with the vacant mission to Russia. He has several times sought a foreign appointment, but other combinations were too strong for him to overcome. It is very probable, however, that the appointment will not be given to a western man. The names of Gen. Butler and ex-Postmaster General Cresswell are suggested, but it is certain that the latter will not accept, and it is probable the former will.

It is estimated that more than 100 houses in this city were unroofed by the tornado on Saturday. Fears are entertained that several persons who were down on the Potomac in small boats on an excursion have lost their lives, as no tidings have been received as to their safety.

Captain-General Concha has ordered that municipal taxes be paid one-half in paper and one-half in gold, or its equivalent in paper at the rate of 140 per cent. premium, the government reserving the right to alter the premium in the future as occasion may require. The war subsidy is to be paid in the same way as the municipal taxes. The merchants have begun to sell exchange for gold.

Excitement runs high at Versailles. The Legitimist Deputies, to the number of one hundred, have decided to vote against the ministry to-morrow. They have drawn up an order of the day censuring the government for abuse of powers conferred during the state of siege, but avoiding any mention of the manifesto of Count de Chambord.

The position of the ministry is critical, and it is thought that some changes will be unavoidable. If the evident collision in favor of Puri's bill should succeed, the sitting of the Assembly to-morrow will result in a dissolution, unless the fear of such a step should restrain the opponents of the government.

The funeral of M. De Gaulle took place to-day.

Hon. George Bancroft has arrived here and will leave for London Wednesday. He visited ex-president Thiers to-day.

HALIFAX, July 7. Capt. Colby of the steamer Falmonth which arrived this forenoon from Portland reports that at half past one p.m. yesterday about six miles off north-west of Seal Island, he passed a large rigged steamer with cable laying gear attached to her bow.

It is supposed to be the missing steamer Faraday. The steamer Ancher of the Faraday, arrived here at five o'clock this morning.
