THEY are offering their goods at grasshopper prices over in Codfell Bluffs.

OH for an iceberg to melt down the rear end of that scorching comet.

THE nephew of his uncle made another brave charge in the City Council upon Mayor Chase, last night.

A Gubernatorial candidate is now said to be undergoing severe training in the Grand Island land office. The receiver of the Norfolk land office will please take due notice and govern himself accordingly.

THE interest in the comet is growing more intense every day. Several hundred glasses will be levelled toward that mysterious luminary this evening, by our local astronomers. We mean beer glasses—of course.

WHEN rogues fall out honest men get their dues. The thirteen oppressed editors of the evening Ko-op luminary are growing desperate. For months they have been secretly in league with the morning monopoly organs, who furnished them the Associated Press dispatches in order to crush out the BEE. A change has suddenly come o'er the spirit of their dreams The *Herald* has decided to shut down on this underground arrangement, and the thirteen oppressed hypocrites are setting up a fearful howl of indignation.

When the memorable printers' strike was in progress, the thirteen self-confessed liars charged Rosewater with selling out the oppressed workingmen for the privilege of becoming a member of the Associated Press monopoly. Time has amply demonstrated that this accusation was a base and malicious invention. Rosewater never even mentioned the Associated Press in this connection, nor has the BEE ever received a line from the Associated Press monopoly.

Is it not about time for the thirteen contemptible sneaks to throw off their masks and let the working-men know who is really combined with monopolies?

An indiscriminate slaughter in clothing and gents' furnishing goods regardless of prices at 206 Farnham street. Fine linen and cheviot shirts of our own make at $2.00 and $2.50 each.

The Playful Peculiarities of the Noble Red Man. How He Amuses Himself in the West and North-West.

LONDON, July 8.

There was a collision on the Lancashire & Yorkshire Railroad this morning, by which five persons were killed and several hurt.

The amount of bullion withdrawn from the Bank of England on balance, to-day, was 447,000, and the rate for money at the stock exchange on government securities is 2½ per cent.

The weather throughout England is fair.

CHICAGO, July 8.

The C. & N. W. R. R. Co., has decided to conform to the Iowa law, acting, however, under the usual protest. President Keep has expressed himself on the question, saying that "it is useless to enter into continued litigation until the question of railroad rights reaches a decision in the Supreme Court of the United States, then there remain but two courses in case the decision is adverse to railroad interests, namely: to obey the statutes or quit the business."

The Chicago elevators, as per officials, contain 1,189,119 bushels of wheat, 2,053,770 bushels of corn, 296,838 bushels of oats, 11,029 bushels of rye, and 4,301 bushels of barley, making a grand total of 3,557,057 bushels against 3,832,244 bushels one week ago, and 5,586,011 bushels at this period last year.

WASHINGTON, July 8.

Commander Belknap, commanding U. S. steamer Tuscarora, who has been engaged for some time in the deep sea soundings in the Pacific ocean, reports from Yokohama, Japan, under date of June 5th, that he was about prepared to leave on return ship to San Francisco, and would complete a list of soundings from Yokohama, via Allentian Isles. He has been very successful in this work and his full official report will be prepared and submitted to the Secretary of the Navy shortly after his return to the United States.

It is stated to-day that the President will appoint a new minister to Russia at the next cabinet meeting

A new daily paper, to be called the Evening Mail, is to be published here on the 15th inst. It is going to try to be independent with Democratic leaning. The money to start it is furnished by Democratic Congressmen.

The special agent sent to the Pacific coast to investigate internal revenue matters reports that he has detected a large number of frauds on the government, suppressed a number of illicit distilleries, and secured the indictment of the principal offenders.

A dispatch just received from the Cheyenne Indian Agency states that one hundred Cheyennes, Arapahoes and Kiowas have left their reservations and gone on the warpath. They are well mounted, fully armed, and have committed a number of depredations on the settlements. The Indian Agency was threatened, but the Agent managed to escape and communicated with the Government Agent, who is a Quaker. There is no time to compromise with the Indians, and prompt action on the part of the military will alone prevent serious trouble and a general Indian war in that section, that may extend throughout the whole Indian country.

Reports to Headquarters of the army during the month have foreshadowed trouble in this section. It is believed here that the Indians, elated by frequent successful small raids, have concluded to attempt one on a larger scale, and the repported movement of the Kiowa and Arapahoe tribes is corroborated. A telegram received to-day at army headquarters from the assistant adjutant general Dyno, dated Chicago, July 7th, says:

Colonel Greene, in the absence of the General, telegraphs that about one hundred Sioux appeared at St. Joseph's settlement, twenty miles west of Pembina, and killed a family of six or eight persons and then burned several houses. The commanding officer at Pembina sent a company to pursue the Sioux. Col. Greene telegraphs for additional men for that vicinity, who want aid in their own protection to come in mounted and they will be armed and made useful. I deemed this course better than to lose arms and ammunition. I have cautioned Colonel Greene to be very careful how he involves the government by calling on citizens to organize.

The Secretary of the Treasury has issued, in circular form, for the information of collectors of customs, a bill of congress, in reference to the operations of drawback certificates. The bill provides that the owner of the merchandise on which the drawback is claimed, or the person entitled to receive the same, shall apply in writing for such drawback, and shall make oath that the merchandise for which drawback is claimed was entered for consumption, and that the duties thereon have been paid, and that the same has been exported directly to some foreign port or place, and has not been relanded within the limits of the United States, or sold for consumption therein, and that he has not received, nor has any other person by his order or to his knowledge, received any allowance or drawback for the same, and that the same is not intended to be relanded within the limits of the United States, or sold for consumption therein, and that he has not received, nor has any other person by his order or to his knowledge, received any allowance or drawback for the same, and that the same is not intended to be relanded within the limits of the United States, or sold for consumption therein.

SPRINGFIELD, July 8.

The international single scull race for four thousand dollars in gold and the championship of America, to come off to-day between Tom Bagnell of Pittsburg, America's champion, and Geo. Brown of Halifax, champion of the British provinces, is creating intense excitement. Both men are in splendid condition, and an exciting contest is expected. Average of pools sold here last night, sold 100 to 20 with Brown as first choice. Large crowds of sporting men are here from Cincinnati, Pittsburg, Philadelphia, New York and Boston. Brown will row a boat built by Jewett of England, and Scharff one built by Espy of Pittsburg.

ST. JOHNS, N. B., July 8.

Last night a serious riot occurred at Fredericktown between the attaches of a circus and a party of lumbermen, who became involved in a dispute at the ticket office. The circus men drew revolvers and fired into the crowd, wounding a number. The lot then assumed larger proportions, the circus people being overpowered, and their wagon run into the river. The fire bells were rung, special police sworn in, and thirteen circus men were arrested. This morning an injunction was obtained from the Supreme Court prohibiting the circus from leaving the town until a full investigation can be had.

LONG BRANCH, July 8.

The second race for a purse of $750, open to horses of all ages, the entrance money to go to the second and third horses; two mile heats. The first heat was won by Arizona; Fellowcraft, second, and Shylock, third; time, 3.41. The second heat was won by Dannybrook; Arizona, second; Fellowcraft, third; time, 3.46½. Dannybrook won the third heat and the race—Arizona being the only contestant—time, 4.01.

The third race was for the Monmouth cup, valued at $1,500; added to the sweepstakes of $50 each; the second to receive $300, and the third $250; distance, two and a-half miles. There were 24 entries. Tom Bowling won, with Whisper, second, and Ransom, third. At the start Tom Bowling took the lead, and gradually increased it to six lengths, but at the mile and a-half pole, Ransom, Whisper, and Village Blacksmith, shortened the distance, and a very pretty race for the second pole ensued; but on the home-stretch Village Blacksmith broke down and was passed. Tom Bowling won by eight lengths; Whisper, second, and three lengths ahead of Ransom; time, 4.32½.

Thursday is the next day of the meeting, and three races will be run.

NEW YORK, July 8.

The latest advices from Panama, contain the following news from Central America, and is generally of a pacific character. Nicaragua is threatened with a famine, owing to the partial failure of crops. Six hundred Chinese laborers have been imported at Costa Rica. It is proposed to establish a national bank at Gautamala.

South American advices are generally uninteresting. At Capioco, Chili, two shocks of earthquake occurred on May 14. Severe shocks attended by heavy rains occurred at Curacus, Constitution and Bogota, on the 21st of the same month.

At Columbia, Queen Victoria's birthday was celebrated with unusual eclat at the the British Embassy. The relations between the Argentine Republic with Brazil is becoming every day less amicable, and Uruguay has suspended all relations with the Argentine Republic.

The Yellow fever is prevailing to an alarming extent in Rio Janerio.

WASHINGTON, July 8.

A private letter dated Presidio Del Norte, Texas, June 20, contains the following: "We are having a lively time here with the Indians and Mexican thieves. I returned from Fort Davis a few days ago; a body of Indians crossed the road an hour or two ahead of me. They had passed through a ranche near where we stopped and killed the owner, burned his house and drove off his stock. They then attacked the messenger who had been sent with dispatches to the Fort and drove him back.

My own opinion is that they were not Indians, but Mexicans, from the fact that they allowed Mexican families to escape, and did not burn their houses or scalp their dead. The party whom they murdered was a very industrious, hard working man. He had been living in the place nearly three years, and had succeeded in making his little ranche look like an American farm. The day he left for the custom house, and were out herding. Governor Brown comes to me this morning from a large stock ranche near here, belonging to Miller, this Indians visited him in numbers large for him to cope with, drove off a lot of stock. The Mexicans and other governments are to go against the government and protect the station. Complications may result. The government sends ... trade via Vera Cruz and leave the Rio Grande to ...
