in a most standard manner. The writes the following is one of the victims, and wishes to present a very plaintense.

Betieving that by cleansing the b'ood was the only true way of banishing disease, and being a gre t sufficient from week is ago and a scrofulous affect! a, and after trying many kinds of Patent scalicines and the most eminent Physichars, f commenced doctoring myself, and at last d scovered a Blood Searcher, or Root Bitters, which not only gave me immediate releft, but after a few weeks effected a radical cure. The cough left me, my lungs became strong and sound, my a, patrix good, and the scrofulous disease had disappeared. Feeling confident that my Discovery possessed wonderful healing virtues, I gave it to others efflicied, and found it effected the most miraculous cares in thousands of cases, not alone curing Gough. Consumption, Asthma, Catarrh, Scrofula and Week Longs, but all diseases caused from humors in the bood. The demand from my friends and others bearing about these Bitters becoming very great, I commenced puting them up for an entirely or medicine to the presenting either myself or medicine to the how it all went on, but I know bet-ter than to do that. Such a matter never comes off as smoothly as we read about them in novels, and the reality causes a fellow to sweat as much as if he were doing his hard-est work in life. Among an hundred, ninety-nine are apt to commi the biggest blunders on an errand of this kind, and even if these hundred should come home the happiest fellows in the world, still ninetynine will say: "May God forbid that we should get into a similar fix again; but should we have to do it a second time, we'll surely be much smarter about it " presenting either myself or medicine to public-not being a Patent Med-cine Man,

After an hour and a half I came back again, happy to the top of my hat, and possibly may have looked it; and as in my bachelorhood life, I had got into the habit of talking The grand principle that operates in these Root Ritters is the power they possess in cleansing the turgid blood and banishing the vile humors from the system. Boot Bitters are strictly a Medicinal Preparation, compounded from roots combined with herbs and plasts, many of which were used in the good oid days of our forefathers when people were cured by to myself, I cannot, when I think back to it now, find much fault with people when they got out of my road rather quickly and looked very sharp at my feet to see if they were as steady as my hand. When I was half a block from home yet, of our forefathers, when people were cured by some simple root or herb, and when Calomei and other pois as or the mineral kingdom were unknown.

They open all the na ural passages of the body, cast out disease, take away all sickness my uncle came running to me and commenced to hug me on the open street and said: "Hold your d build up the system with pure blood, not they must reach all diseases by purificatongue, hold your tongue; I know

For Consumption, estuma, Sereful, Serofulous E-ruptions, Catarrh, Weak Lungs, i ost Vitality and Broken-down Constitutions, these Root Bitters are universally admitted to be the most wonde ful Medical Inscovery known to the world. Their pectural healing properties pene-trate every polition of the human frame, soothand caught hold of his arm and took him home; but when we got there and met Frau Butown setting the table, then his heart fairly jumped on to his tongue, and his eyes sparkled like diamonds, and, pointing with the thumb over his Kidneys and Liver, cleansing the blood from every kind of amor. No other medicine will cure Chronic Rhamatem, Reuralgia, Heart Disease, Fits, Dizzlases, Headache, Dyapepsis, Fover and ague, Costiveness, Piles, Urinary Diseases, Kidney Disease, and Liver Complaint, so quickly as this Boot Bitters. All such diseases are caused from a bad stomach and a poisonous condition of the blood. For weakly, nervous young men, suffering from loss of memory, loss of energy, etc., caused from abuses in early life, and to Joilcate females, these strengthening Root Bitters are especially recommended. Large accordions to our geographical knowledge have been made by the industriable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, where names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important aleges maintained, of which the details are as yet preserved only in this newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history. In preparing the present edition for the press, thas accordingly bean the aim of the editors to bring down the information to the latest position dates, and is luminate to the latest position dates, and is luminate to the latest position dates, and is luminate in the pressure account of the most recent discoveries in science, and the newest intention in literature, and of the newest intention in the pressure area of the progress of political and historial event.

Well, when I came there, then they commenced to whisper and a nudging in the side and a writhing of the eyes, and then they commenced to tell stories, what this one had said before the wedding, and what he said after-wards, and similar things; and when at last I got wind and asked if these were broad hints at me

they unanimously said: "Oh no we only mean." And when at last I stopped going to the club for these very reasons, and staid at home, then Frau Butown commenced at me; if I wanted to have this fixed so, or if she should fix that so. She did not know how I wanted everything arranged now. And she was an old woman and had waited on many a gentleman, but none who was engaged to be married; I therefore must have patience with her, for certainly it would not last much longer. Then as to cleaning my clothes; I was quite right, that was not good enough for my future wife, for as she had understood that young lady was brought up like a princess, and had never put her finger in a drop were already getting too old to de-fect every little down on the coat. and if my girl should shortly hap-pen to come and see me, of course she could do that, and as far as she herself was concerned, she had no objections. And when I wanted her to make a fire in the evening, why did I not say so, and how could she know, I had always gone to the club; why did I not go now?

of the distinguished people who are said to live deep under us in a place which is said to be dreadfully hot? And why do I think that there are possibly one or two there who are blowing into the coals to just warm up my married state a little? Here you may see, that all my apprehensions were not really gone, and they were destined to be still

greater, when one afternoon I came ome from my lady. Now I could tell you a long story For as I came along the street, heard a big noise. People were looking out of the windows, and before one of the houses, quite a num-ber were standing looking into the door. And when I was just trying to pass the door, out flies Groser Obst, and lays in the gutter.

"I do not know," says he, "but from her looks I do not think that he would like to sit outside." "The deuce," said I. "Well," says uncl: Mathias, "do not be alarmed, for I do not think she will be quite as bad as that; but I think she will have a nice, amiable government over you. You will be tied firmly and securely to her apron string, and I guess she will find ways and means to drive all
