HUSKY TASKS THAT CONFRONT AMBITIOUS YOUNGSTERS.

George Gibson of Pittsburgh Worked In 140 Consecutive Games During Season of 1909-Other Interesting Figures.

Each season ball players individually and as a team start out with the determination of smashing some of the old records and establishing new ones for themselves. Here are a few of the records-taken from Spalding's 1914 Guide-which show the rather husky task that confronts the players of this era who have recordbreaking ambitions.

In 1909 George Gibson, the Pirate catcher, worked in 140 consecutive games. In July, 1908, Roger Bresnahan, then with the Giants, did not have an assist or put out in a ten-inning game. An average of .990 for the season was turned in in 1904 by Joe Sugden of the Browns, in 1906 by Jack O'Connor of the Browns, in 1907 by Frank Bowerman of New York, in 1909 by Forrest Cady of the Red Sox and also by George Gibson of Pittsburgh.

In the pitching line, Charles Radbourne, with Providence, in 1883 worked in 37 consecutive games and won 28. In 1884 he pitched 72 games in one season—a record that was du-plicated in 1889 by John Clarkson, then with Boston. Keefe, pitching for the Giants in 1889 and Marguard, pitching for the same team in 1912. are tied with 19 consecutive victories in one season.

"Ab, good morning, Brother Higgins," said the parson in pleasant greeting. "I hope I didn't interrupt a family conversation. Didn't I hear your wife talking?"

"That's all right, parson. Come right in," said Mr. Higgins, glad enough.

"I hope I didn't disturb her before she finished her subject," said the parson, taking a chair.

"I'm glad you did, parson," said Mr. Higgins, cheerfully.

"What was the subject?" laughed the parson. "Woman suffrage?"

"No, sir; it was me." Whereupon both of them began to laugh, but suddenly quit as Mrs. Higgins came out smiling.

The Secret.

Mrs. Stuyvesant Fish is known to give the most sumptuous and the most beautiful dinners in the world. She is also known as the possessor of a trenchant wit.

It is said of Mrs. Fish that the remarkable success of a rich but ill-favored New York girl's marriage with a spendthrift nobleman was recently discussed in her presence. No one could understand the happiness of this marriage, which had seemed to bode so ill. But Mrs. Fish shrugged and said:

"The girl won't let her husband touch a penny of her principal-and that, you see,' keeps up the interest."

Locating a Quarrel. "And when you were abroad on your honeymoon trip did you' visit the Palace of Peace at The Hague?" asked the girl friend of the bride just home from abroad. "Oh, yes," was the reply; "we had our first quarrel there."

Bought It for Cash. Marks-What did you gain in your deal with Brown? Parks-A great deal of respect for Brown's business ability.

Literal. "How did you happen to come to this prison, my poor fellow?" "In the Black Maria, ma'am."

Face the world and you won't be so apt to be talked about behind your back.

"California Syrup of Figs" can's harm tender stomach. liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and andigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic-remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50cent bottle of "California Syrup of Figs." which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Tidal Wave Submerges Island. Iniskeerach, a small island lying off Arranmore, on the Donegal coast, and having a population of about ninety persons, has been almost entirely submerged by a tidal wave.

Roused by the roar of the waters, the residents were able to escape with their lives, but suffered severe loss of property, chiefly in regard to their stocks of seaweed stacked ready for kelp-making. The tidal wave reached Arranmore also, but the conformation of the land there protected the neighborhood from the ravages of the way ters.

advancement was so rapid that when the 1913 season opened he was assigned a regular berth and McGraw revised his outfield almost entirely to make a place for him. Burns justified the confidence placed in him. He played in 150 games, hit for .286, stole 40 bases and scored 81 runs, some record for a lad in his first real season. Burns was born in 1892 and makes his home in St. Johnsville, N. Y. He is stockily built but fast on his feet, hits the ball hard and is possessed of a powerful arm, as indicated by the fact that only three outfielders in his league last year had more assists than he.

Cincinnati May Go Insane. Would Cincinnati know how to act if the Federals put a winning team in its midst? For years the Reds have been supplying their rivals with the best of material. At one time or another in the last decade Herrmann has sent Mathewson Huggins, Oakes, Mowrey, Mitchell, Paskert, Lobert, Brid-well, Phelan, Humphries, Overall, Bescher, Grant, Fromme, McLean, Crawford, Dubuc, Donlin, Seymour, Steinfeldt, Tinker and Brown-all good men and true-to fight for other teams. It has been the grandest recruiting station for stars in the land.

Field Meet for Women.

A field meet for women students, similar to the meets given by eastern colleges, was held at the University of California, February 14. Representatives of each of the four classes participated. The events were the 100, 220 and 50 yard dashes, 100-yard hurdle race, eight-pound shot-put, broad, standing and running jumps; hop, step and jump, high jump, three legged race and relay race.
