**BUY** an International Harvester engine, take care of it as any machine should be cared for and a dozen years or more from now it will still be working for you.

It will save you and your family endless hours of hard labor in pumping, sawing, grinding, spraying, running separator, etc.

Buy an IHC engine. They last longer, burn less fuel, are simpler, and give you most power. Here are a few of the reasons: Offset cylinder heads, large valves, accurately ground piston and rings, heavy drop forged crank shafts and connecting rods, etc. Best material and construction mean the best engine. IHC engines are built in all styles, and in all sizes from 1 to 50-H.P. They operate on low and high grade fuels.

Not every local dealer handles IHC engines. The one who does is a good man to know. If you do not know who he is, we will tell you when you write us for catalogues.

### PETITION

In the Case of William Galbraith }  
From Webster County.

To His Excellency, John H. Morehead, Governor of the State of Nebraska.

We, your petitioners respectfully pray that a pardon may be granted to William Galbraith, undergoing sentence for burglary, at the October 1913 term of the District Court, within and for Webster County, Nebraska, for the following reasons:

The said William Galbraith does not belong to the criminal class, but, when not under the influence of his appetite for liquor, is an industrious citizen and devoted to his family.

He was not, in the opinion of the majority of the people of Red Cloud, guilty of the crime charged against him. At the most, his offense is believed by us to be petty larceny from the railroad company, while he was intoxicated.

His friends here, knowing his weakness for liquor, thought his arrest a good opportunity to reform him in the matter of drink.

They persuaded him to plead guilty, assuring him that the sentence would be suspended under the provisions of 20641 Cobbey's A Statute 1911. He acted under their advice. Judge Dungan suspended sentence, and at the suggestion of his friends, threatened him with the full penalties of the law if he again indulged in drink. Galbraith kept his parole with fidelity until just before his year expired when having yielded to his appetite for drink he failed to appear at court.

There seemed to be no alternative for the court except to sentence him to the penitentiary; and we, who sign this petition, either recommend this procedure to the court, or approve it, believing that a few months enforced abstinence from liquor would enable him to conquer his appetite. He has now been confined in jail and the penitentiary for six months, and we believe that he can be safely trusted at liberty.

He has a wife and seven children, who are now largely supported by the public, and whom he supported previous to his incarceration.

His sentence and imprisonment were really the result of his friends' advice and action as a measure to reform him in the matter of temperance, rather than to punish him as a criminal. We believe that he can now be restored to his family and the community as a useful citizen.

We expect that the letters of J. S. Gilham, who appeared as his attorney, of Fred Maurer, the prosecuting attorney, of E. J. Overing Jr., and of his Honor Judge Dungan will acquaint you more fully with the details of this case.

Attorney L. H. Blackledge was attending to legal business in Blue Hill on Wednesday.

## The Standard Bred and Registered Trotting Stallion

### Allercyone McGregor

RECORD 2:00 1/4

ALLERCYONE MCGREGOR, No. 2880, the subject of this sketch, has a record of 2:00 1/4 on a half mile track in 1910. He is one of the stoutest, rugged made game race horses, and is hearted. He was bred by E. Knoll, Carthage, Mo., from a race horse family on both sides of the house, being sired by Allercyone, he by the great Allerton 209 1/4, his dam being the great brood mare, Allercyone, by Ben McGregor. His second dam is Maud McGregor, dam of Nut McGregor, 2:17 3/4, also the dam of Miss Deimarch, the greatest race mare that ever raced over a half mile track. Also the dam of many others with standard records. His third dam is the dam of six from 2:11 to 2:21 1/4, and with the fourth dam is a producer on his sire's side. Allercyone McGregor comes from the great Allerton family, being by Allercyone the best son of the great Allerton, who in his time held the world's stallion record, 2:09 1/4, to high wheel sulky, and was the leading sire of the world's dam's side the first three dams were McGregor mares, which family gave us the mighty Allercyone McGregor, having started 21 times and being first of second every time but twice. He was bred by E. Knoll, Carthage, Mo. In a race at Toledo, Ohio, Sept. 14, 1910, he beat as high class a field of 212 peers as ever started over a half-mile track, that he could have paced the heat in 2:08 or better. His record is no limit to his speed, as he has been paced a half mile on a half mile track in 1:02 1/4, a quarter in 28, and an eighth in 13 1/4. While Allercyone McGregor is a pacer himself, he is strictly trotting bred, and sire as his grand sire if given an opportunity.

Will stand for season 1914, Mondays and Tuesdays at F. E. Payne's barn on Sec. 24-3-12. Thursdays, Fridays and Saturdays at Red Cloud Tie Barn, Red Cloud, Nebraska.

TERMS:—\$12.50 for the season. \$15.00 to insure colt to stand and suck.

## MR. FARMER

You can make money raising alfalfa in the Big Horn Basin or the North Platte Valley. If you will go with me to either of these localities, I will show you many farms where a alfalfa will amaze you. You do not have to sow and reap for each crop. You seed the ground to alfalfa once and then cut three times each year for succeeding years.

You can homestead forty or eighty acres of this land under the Government Canal, repaying the Government the actual cost of water, the payments spreading over many years, without interest.

The Burlington's new main line through Central Wyoming will traverse these localities and connect them with an immediate and perpetual market at profitable prices. There are, also, deeded lands and Carey Act Lands available in both of these regions.

Let me put you in touch with North Platte Valley land agents. Send for the new Big Horn Basin folder, now on the press.
