Western Newspaper Union News Service. Washington, D. C.—Unofficial reports are current in Washington that General Carranza, chief of the revolutionary forces in Mexico, was willing to participate in the mediation conference at Niagara Falls on condition that there should be no armistice between his forces and the Huerta government and that Mexican internal questions to be considered should concern only such affairs as had been developed by the American occupation of Vera Cruz.

NO STRINGS TO HUERTA'S PROMISE

SUGGESTIONS FOR ICE TRUST

Just a Few Reasons Why There Should Be an Advance in Price of Summer Necessity.

The ice trust having offered a silver loving-cup for the best excuse which might be invented for raising the price of ice after the cold winter, we hopefully submit the following:

- 1. The ice being so thick and heavy, it costs more to handle it.
2. The blocks are so large that there is great waste in cutting them up for the retail trade.
3. The ice is so cold it freezes solid in the storage houses and is very difficult to get out.
4. As the winter has been so cold, the summer will necessarily be very hot, and the demand for ice very great, so that it is doubtful if there will be enough to go around.
5. The ice being extra thick, extra cold, and extra quality all through, it is only proper that an extra price should be demanded.
6. The price of ice never had any relation to the cost of production, anyhow.—Life.

Anticipation. "One summer I chanced to be back in the ridges of Tennessee," said United States Senator Blair Lee of Maryland, "and a couple of mountaineers got into an argument. High words led to blows, and one of the men was killed. One of the party volunteered to ride on ahead to the dead man's cabin and break the news to the widow."

"She was seated at a table eating apple-dumplings when the man rode up. He broke the news as gently as possible. The woman listened quietly with a dumpling poised in the air half way to her mouth. When the man had finished, she stuffed the dumpling into her mouth and said: 'You-all jest wait till I finish this hyer dumplin' an' then you-all'll hear some hollerin'.'"
Taking No Chances. "Well, well," said Dr. Bigbill as he met a former patient on the street, "I'm glad to see you again, Mr. Brown. How are you this morning?"
"First, doctor," said Mr. Brown cautiously, "does it cost anything to tell you?"

The biggest fool mistake a couple can make is to imagine they have to quit their love-making just because they are man and wife. Some men are born rich, some acquire riches, and the rest of us thrust riches upon them. If you would make a toll of a man, select a dull one.
