There is an awakening at hand in the industrial world and good and prosperous days are near, says the Pittsburgh Catholic. The croaker is the worst scourge in the community, and the political croaker is a pernicious pest.

The abolition of the wool tariff didn't ruin the wool growing industry, says the Iowa Mineral Point Democrat. Those who are selling wool in the Mineral Point market are receiving 22 cents per pound. At this time last year the price was 18 cents.

Preparations are being carefully made to make this year's chautauqua the very best yet. The program has been selected from among the best talent in the country. The musical numbers will be especially good. Taking it altogether we can reasonably expect excellent entertainment.

Nearly 3,700 more American motor cars were shipped abroad during the ten months ended with last April than in the corresponding period in 1912-13. The total exports of automobiles, engines, tires and other parts for the ten months aggregated \$30,000,043, as compared with \$29,317,044 for the ten months ended with April 1913—a gain of more than \$1,800,000.

**JAS. HUBATKA**

Saturday is the best day for the filing of candidates and those who have been waiting till the last moment will have to get in by that date or forever after hold their peace. The county clerk says there is still a little more room in the filing book and when that is used up he can easily get another one so there is no reason why anyone should hesitate to get into the band wagon and ride.

Mr. Wm. Kirkpatrick of Guide Rock has filed for the nomination of sheriff on the Democratic ticket. He has been engaged in buying horses in this county for eighteen years or more and has an enviable reputation for fair dealing and honesty. Should he be elected to the important office of sheriff his friends are confident that he will be one of the best men ever called upon to keep the peace in this county.

Those who operate automobiles in the streets ought to be more considerate of other people's rights. It is the general practice when starting to throw the muffler wide open much to the annoyance of people on the street and in the stores and offices. It would not take thirty seconds longer to get started with the muffler on and this practice would be a welcome relief to all. Ever think of it?

Remember what a panic was thrown into the camp when our republican friends insisted a few months ago that the removal of the tariff on wool would ruin entirely the sheep industry in this country says the Smith County Journal. It was insisted that the wool would not pay for the clipping and that the industry would be passed from the stage of reality in this country at once. Well, wool is higher right now than at any time in the last many years and almost four cents

higher than the average for the last sixteen years.

"One of the old-time farmers of Gage county who was skeptical about the farm demonstrator proposition when it was first mentioned has been converted and is confessing his faith to all the world," says the Beatrice Sun. O. H. Liebers, the county demonstrator, upon a visit at his place told him that there was smut in his oats. The farmer laughed at the idea, but a little later he found his crop was cut short from this cause. The next season the demonstrator secured permission to treat part of the seed. The remainder was left untreated. A recent examination showed that the untreated portion was damaged 30 per cent.

It seems very illogical to this editor that men and parties should be clamoring for woman suffrage when the great majority of women themselves don't want to vote.—Chief.  
Did you ever see an election that was conducted in a logical manner, that is, when there was not some illogical issue up to hornsawoggle the voters, confuse the public and make the whole business a sort of burlesque? The Woman's Suffrage question is to be settled this fall is one of the greatest political burlesques ever pulled off in this state. You might as well try to pass a law making it lawful for a man to wear petticoats. The men would be about as much interested in that as most of the women are in Equal Suffrage.—Guide Rock Signal.

"Nebraska was a revelation to me. I was surprised at what I saw in the state. Nebraska offers opportunities that are far greater than I ever anticipated." This statement was made by E. W. Bodeil, of Chicago, a member of the party of foreign editors, who recently went through Omaha on their way to Colorado, where they were entertained by a promotion company. "The editors were entertained in Omaha during a stop of a few hours. At a luncheon they were told of Nebraska's opportunities and facts and figures were given which proved that Nebraska was far ahead of the state which they were going to visit. Mr. Bodeil's opinion is shared by many editors of the party who have written to the Bureau of Publicity, expressing a sentiment similar to that written by Mr. Bodeil. Nebraska is gradually being recognized in the east."
