Seed Corn Pointers.

When corn reaches the glazed, dented, or stiff dough stage, it may be safely picked. Seed Corn Selection Week this year begins September 23. Choose mature ears from plants in the field that have grown under average rather than favored conditions, even tho the ears may not be large.

Select ears growing at a convenient height on upright stalks that are sturdy and of moderate size. Spindly ears with excessive size and leafiness do not do well with drouth re-

such as protect-
mold, and con-

sequently are liable to have low germinating powers.

As soon as the seed is picked it must be stored away immediately in a dry and airy place as possible. The attic of a kitchen or granary or above the driveway in a double corner, the university farmers have found is better than a hay mow.

Seed if left in a pile may mold in a few hours. One device for separating the ears is the corn post, or corn tree. This consists of a post erected on a standard, with flushing nails (preferably with the heads off) driven in the sides. This may hold enough to plant 10 to 25 acres of ground. The sawsaw method with the use of tris is also efficient.

Strong Effort Being Made For Up-Town Express Office

The efforts of the Chamber of Commerce to secure an up-town telegraph and express office have so far resulted in failure. Both the Adams Express Company and the Western Union Telegraph Company have turned the proposition down. It now remains to be seen what the Railway Commission will do.

It seems to us that we are asking only what is fair and just in this matter owing to the fact that our depot is one mile away from the center of town and it is difficult to transact business at such a long range.

Governor's Proclamation

SEED CORN SELECTION WEEK

In view of the fact that our successful farmers and experiment stations find that early selection of seed corn is advisable, it seems, in a matter of such great economic importance, that a time should be set aside for its early selection.

The following reasons for early selection are apparent:

1. Early selected seed is less liable to be injured by freezing.
2. Seed selected in the field enables the farmer to obtain ears from plants of the proper type and from plants growing under normal conditions.
3. From various reports received, the present crop has ripened early, and seed may be safely selected at the end of the month. It appears essential, however, that such corn once selected should be stored immediately in as dry a place as possible.

A special reason why our farmers should select their own seed will appear from data of the Nebraska Experiment Station showing that native seed produced 6.2 bushels more per acre than excellent seed brought in from other districts.

With these facts in mind, I designate the week beginning September 28 as Seed Corn Selection Week and urge its general observance as the proper time for this important task.

Given under my hand and the Great Seal of the State of Nebraska, this the twenty third day of September, 1914.

JOHN H. MOREHEAD, Governor.

City Streets To Be Oiled

Councilman Perry recently advocated oiling our city streets and as a result this will be tried out in a small way at once to see if it is a practical thing here. On ordinary dirt roads it is the practice to open up the dirt to a depth of eight inches, work in the oil and then roll the road with a heavy steam roller. The council are of the opinion that this will not need to be done in this city owing to the fact that our streets are already very solid and need no foundation. An application of oil will be placed directly on top of the streets as they are and the results noted. If this should prove to be a success it will cut the cost about three fourths.

The Methodist Conference Appoints New Ministers

At a meeting of a Methodist Conference held at Fremont this week the following men were appointed to fill the pulpits in the various towns in Webster county:

Bladen—W. B. Alexander.
Blue Hill—To be Supplied.
Cowles—J. W. Davis.
Guide Rock—A. L. Umpleby.
Inavale—Scott Blunt.
Red Cloud—C. L. Myers.

My Auto 'Tis Of Thee.

My auto 'tis of thee, short cut to poverty—of thee I chant. I blew a pile of dough on you two years ago, and you do refuse to go, or won't or can't. Through town and countryside, you were my joy and pride; a happy day I loved thy gaudy hue, thy nice white tires so new, but now you're down and out for true, in every way. To thee, old rattlebox, came many bumps and knocks; for thee I grieve. Badly thy top is torn, frayed are thy seats and worn; the whooping cough effects thy horn, I do believe. Thy perfume swells the breeze, while good folks choke and weeze while we pass by. I paid for thee a price, 'twould buy a mansion twice, now everybody's yelling 'tee'—I wonder why? Thy motor has the grip, thy spark has the pip, and woe is thine. I too have suffered chills, ague and kindred ills, endeavoring to pay my bills, since thou wert mine. Gas is my bank roll now, no more 'twould choke a cow, as once before. Yet if I had the mon, so help me John—amen, I'd buy myself a car again, and speed some more.—EX.

Farewell

This coming Sunday will close my pastorate of the Congregational church of Red Cloud.

I expect to preach my farewell sermon and we shall have special music by the choir both morning and evening. I take this opportunity to extend a cordial invitation to my friends to attend these services. JOHN J. BAYNE

Will Speak At Bladen Fair

Hon. A. C. Shallenberger of Alma, who is a candidate for Congress from the Fifth District on the Democratic ticket, will speak at the County Fair at Bladen, October 1st. Go up and hear him as he will discuss the important subjects of the day.

Your Watch Ideal

Many people have learned to consider such, and such a watch as an ideal time piece.

When they buy they want that particular watch.

We don't blame them because we have watch ideals too—and ideal watches.

They are the South Bend and the Hamilton and the Howard and one or two others. These we have learned to depend upon—these we buy and sell each year in greater quantities. And before you make a watch purchase we would like to talk to you about these movements. May we?
