Plant Shrubs and Trees Now
 It is a mistaken idea with some persons that shrubs and trees cannot be planted successfully in the fall in central and eastern Nebraska. The following shrubs may be planted successfully if care is taken: Bush honey-suckle, privet, snowball, mock orange, snow and coral berry, barberries, and lilac. For fall planting, the landscape gardener at the University Farm would have the soil in good shape—not too wet or too dry—and soil firmly worked about the roots and thoroughly watered. After cold weather begins he would have the surface protected by mulching with straw manure. Shrubs treated this way start earlier and make a better growth in summer than the spring planted shrubbery. Shrubbery borders should be mulched with partially decayed straw hay or manure applied after the first hard frost in order to go thru the winter in good shape. To prevent the killing back of roses, the bushes that are not too stiff should be laid down and covered with dirt, cornstalks, evergreen boughs or straw manure.
 The trees that may be successfully planted at this time are the elm, ash, hackberry, and maple.

 There's all of pleasure and all of peace
 With a friend or two,
 And all our troubles will surely cease
 With a friend or two,
 'Tis in the grip of the clasping hand,
 Whether on alien soil or native land
 And the world is made, do you understand,
 With a friend or two.

There's no time like the present

You wouldn't buy a straw hat in September. Why wait until Xmas to buy your Fall and Winter clothes.

If you buy them now you benefit in three ways

First, you have a wider variety of styles and patterns to select from—a chance to be more individual.

Second, you get more wear out of every dollar because they have to be laid aside when Spring comes.

Third, "you slip one over" on the other fellows by being among the first to be well dressed for winter, and comfortable while they shiver in summer clothes.

Right now is the best time to purchase your shirts, underwear, neckties, hose, gloves, and a new suit and hat. We have a most complete stock, smart styles, new patterns and colors—and everything that appeals to the discriminating buyer.

The new Kuppenheimer Clothcraft suits and over coats are better than ever. Everyone of them is guaranteed all-wool, shape-retaining and serviceable. That's why we handle the line—we don't have to take a chance, neither do you. There's a wide variety of styles and patterns, and the price is always right—\$10 to \$25.00.
