

WINCHESTER

THE W BRAND

REVOLVER AND PISTOL CARTRIDGES.

Winchester Revolver and Pistol cartridges in all calibers prove their superiority by the targets they make. Shoot them and you'll find they are ACCURATE, CLEAN, SURE

160 ACRES FARMS IN WESTERN CANADA FREE

WAITING FOR YOU

Yes, waiting for every farmer or farmer's son — any industrious American who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is higher but her farm land just as cheap and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are Actually Free to Settlers and Other Land at From \$15 to \$20 per Acre

The people of European countries as well as the American continent must be fed — thus an even greater demand for Canadian Wheat will keep up the price. Any farmer who can buy land at \$15.00 to \$30.00 per acre — get a dollar for wheat and raise 20 to 45 bushels to the acre is bound to make money — that's what you can expect in Western Canada. Wonderful yields also of Oats, Barley and Flax. Mixed Farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada, but there is an unusual demand for farm labor to replace the many young men who have volunteered for service in the war. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada; or to

W. V. Bennett, 220 17th St., Room 4, Bee Building, Omaha, Nebr.

Canadian Government Agent.

Too Good.
Reggy—Sweet Arline, will you be mine?
Sweet Arline—Before I answer your question let me ask you one. Do you swear when you lose your collar stud?
Reggy—Never!
Sweet Arline—Then it cannot be. I cannot marry a man who has no spirit.

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcher* in Use For Over 30 Years.
Children Cry for Fletcher's Castoria

In the Suffrage States.
"The candidates are having a club held over them."
"Is it a woman's club?"

A mouse scares a woman almost as badly as a milliner's bill scares a man.

SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

Don't Persecute Your Bowels

Cut out cathartics and purgatives. They are brutal, harsh, unnecessary. Try CARTER'S LITTLE LIVER PILLS

Purely vegetable. Act gently on the liver, stimulate bile, and soothe the delicate membrane of the bowels. Cure Constipation, Biliousness, Sick Headache and indigestion, as millions know.

SMALL PILL, SMALL DOSE, SMALL PRICE.
Genuine must bear Signature

ABSORBINE

Will reduce. Inflamed, Strained, Swollen Tendons, Ligaments, Muscles or Bruises. Stops the lameness and pain from a Splint, Side Bone or Bone Spavin. No blister, no hair gone. Horse can be used. \$2 a bottle delivered. Describe your case for special instructions and Book 2 K Free.

ABSORBINE, JR., the antiseptic liniment for manking. Reduces Strained, Torn Ligaments, Enlarged Glands, Veins or Muscles, Heals Cuts, Sores, Ulcers, Allays Pain. Price \$1.00 a bottle at dealers or delivered. Book "Evidence" free. W. F. YOUNG, P. O. F., 310 Temple Street, Springfield, Mass.

TAKING NO CHANCES

GOSSIP FROM STATE CAPITAL

Items of Interest Gathered from Reliable Sources and Presented in Condensed Form to Our Readers.

Western Newspaper Union News Service. Chances of Infection Remote. Chances of the foot and mouth disease striking Nebraska are remote according to State Veterinarian Kigin. He makes this statement not only on his own responsibility, but also on authority of Chief Inspector Ferguson of the United States Live Stock Association, who wrote here from Chicago to that effect. Rules of the present state live stock sanitary board can be thanked for this, according to the official. This board has set up such a barrier that it is believed no stock affected with the disease can get by

Dorothy Grace Field, who scored 99.5 per cent at the state fair better babies contest, is the little daughter of Mr. and Mrs. Otis Field, R. F. D. No. 5, Lincoln, 21 months old, and the rural champion girl of Nebraska. She was given a bronze medal and a cash prize of \$25.

The inspection points into the state. In this one step the board is proving its worth and incidentally refuting by its activity the statements of politicians that it has not done its full duty in times past.

How Do You Feed Yours?

Here are some stock rations that are approved by the animal husbandry department of the Nebraska college of agriculture. How do they compare with those you are using?

- For Work Horses—Corn one part, oats one part, prairie hay.
- For Colts Under Two Years—Oats two parts, corn one part; alfalfa, liberal feed.
- For Fattening Steers—(1) corn, 16 pounds; alfalfa, all they want. (2) Corn, 16 pounds; alfalfa, all they want; silage, 10 pounds. (3) Corn, 16 pounds; cottonseed cake, 3 pounds; silage, all they want. (4) Corn, 16 pounds; alfalfa, all they want.
- For Fattening Pigs—(1) Corn 19 parts, tankage one part. (2) Corn and alfalfa.
- For Fattening Lambs—Corn, one part; short, two parts; alfalfa, liberal feed; silage, medium feed.
- For Fattening Ewes—Alfalfa; silage, two or three pounds.

Warned to Be on Guard.

A warning to Nebraska live stock men to be on guard against the dreaded foot and mouth disease in cattle, which has made its appearance in several of the eastern and central western states, has been issued by State Veterinarian L. C. Kigin. He describes the symptoms of the disease so that stockmen may tell it in their stock and take steps to prevent the spread of the malady. He also states that dourine, a disease that spreads among horses, used for breeding purposes, has appeared in northwestern Nebraska, and that the railroads have been notified by him not to ship horses out of Grant, Hooker, Thomas, Blaine or Cherry counties without a special permit from the state veterinarian's office.

Dr. Booth, of the school for the deaf at Omaha, asks the state board for \$5,250 for equipment for the manual training department and the printing office now operated. He asks for a \$3,000 linotype machine for the latter.

Its lots of fun for the boys and girls to put printed labels on the things they raise or can, providing the labels are colored like those seen in our home stores. And that is just what the boys or girls in our community can do if they will write to the Agricultural Extension Service, University Farm, Lincoln, asking to join one of the several different boys' and girls' clubs. If a boy raises corn or potatoes for seed, he may have all the labels he wants to put on his boxes or crates, and the girls may have the same for their canned goods.

The North Platte experimental farm, where about three carloads of hogs are raised each year for the market, has shown a greater profit upon the investment in growing pork than in any other farm operation. Grain purchased at the market price has frequently shown a profit of 100 per cent by feeding to hogs, either upon alfalfa pasture or with alfalfa hay fed in the racks to supplement the corn ration. Wheat and rye used as a winter pasture with alfalfa hay and a very small grain ration has proved a most economical method of wintering brood sows, and approaches

The Popular Redingote Dress

THERE are so many varieties in the development of the redingote dress that the idea prevails in gowns for all sorts of wear. Here is a clever new adaptation for the street that is a sort of compromise between the one-piece garment and a coat suit. It is an excellent design for between-seasons' wear, without an outside coat, and fortified with a heavy outer garment, is all that is desirable for the coming winter.

It consists of a semifitting basque finished with scallops at the bottom. The scallops are bound with braid and the basque as long as the average coat in a coat suit. A box-plaited tunic is set into the basque, stitched by machine along the line of the scallops. The tunic is finished with a plain hem less than two inches in width, and is very long. It is worn over a plain, straight-line undershirt of either the same material as the dress or of satin. This undershirt, which is short, is not much in evidence. It is narrow, and when made of the same goods as the tunic is often slashed in three or four places to admit of a free stride. When slashed in this way it has the effect of trousers worn under a long skirt, and we must concede that it looks attractive and would seem a startling innovation except that we are already accustomed to slashes in walking skirts.

Redingote models, like or similar to the one pictured here, are often worn over straight undershirts faced up with Roman-striped satin. In this case the collar and vestee and separate cuffs are made of the same satin. This makes a showier and dressier costume, and one may manage this dress by having two undershirts (one of the goods and one of the satin) and two sets of collar and vestee with separate cuffs. One of them is to be of white cotton or linen and the other of satin like that in the undershirt facing. In this way the same dress will furnish a costume for many occasions and a refreshing variety, at least.

With the oncoming of cold weather and the high military collars of outer garments, new vestee and collar combinations have been designed with closed throat and high turnover collars.

The sleeves in this particular gown are the plain coat-sleeve type finished with a soft, flaring cuff. When separate cuffs are to be adjusted an entirely plain sleeve is preferable. Either of the hats pictured is appropriate with this gown, and it is a wise thing to own both a small and a large hat. But if only one is to be chosen let it be the larger one. For brims are widening and the large hat is more effective for occasions where one wishes to look somewhat "dressed up."

Oliver Twist Suit and Slip-Over Dress

FOR small boys, the Oliver Twist suits seem to suit the little ones and to appeal to the mothers who are always looking about for something new and practical for their restless youngsters. These are two-piece suits combining plain and striped materials or plain material in contrasting colors. In a blouse and pants. They are made up in several different models, the simplest of them consisting of a plain blouse like that shown in the picture, to which a pair of straight pants is buttoned.

The blouses are made of striped percale or in plaid ginghams or of equally durable plain materials of other kinds. When the blouse is plain the pants often are made of a narrow stripe, or if the blouse is striped the pants are plain. Plain pants, with striped blouse having round collar and turnback cuffs of the plain material, make the best looking of the Oliver Twist suits. In the better grades of these suits the blouses are box plaited, made with round collars and turnback cuffs. The plaits make the waist a little more dressy and add to its strength. In the cheaper suits the blouse is cut without plaits and the sleeves finished with narrow band of contrasting material like that in the collar. A small patch pocket on the blouse is finished with a narrow band at the top also. In all the suits the pants are straight.

These suits are made for very tiny boys; little fellows of two years only are put into them, much to their own delight. But they are worn by boys up to ten years, and are thoroughly practical. Clever designers have adapted the Oliver Twist suits to girls, substituting a skirt for pants. Very pretty ones are made with plaid skirts buttoned to plain blouses, the latter having cuffs and collars of the plaid material. These dresses are provided with patch pockets on each side of the skirt, and are made up in serge and other woven goods for school wear, as well as in wash goods.

A little slip-over dress for a tiny girl is shown in the picture. It is of plain blue gingham with a straight narrow box plait down the middle of the front and back. It is decorated with short bands of white embroidery placed on the plait near the top and bottom and with small pearl buttons and simulated buttonholes. The sleeves are long with turn-back cuffs. The neck is plain and bound with a bias strip of the material. A small separate round collar is to be worn when the little dress needs to do other duty than to provide an easily laundered romping outfit for the littlest girl.

Both these garments are cut with reference to the fact that they must be washed and ironed often, and with that in view they are made easy to iron.

JULIA BOTTOMLEY

BRIEF NEWS OF NEBRASKA

Alliance will have a council of the boy scouts.
Lincoln's Belgian relief fund has reached over \$1,000.
A Belgian relief fund has been started at Tecumseh and amount sum raised.
The company of national guards at Holdrege may be placed on the cavalry list.
Nebraska has ten million dollars in its permanent school fund, and owes no public debt.
Broken Bow will establish a city sewerage system, the contract for which has been let.
Burglars have been busy in the residential part of Fremont, several homes having been entered.
Fire starting from a defective fuse destroyed a big portion of the business district of Oconto.
Wilford Haines, a Broken Bow young man, was accidentally shot while out hunting rabbits.
Nebraska City has organized a booster club, the chief aim of which is to further a movement for a county fair.
Curtis is enjoying a substantial building boom, a \$10,000 home for the local telephone company being among the improvements.
A commercial club with 107 charter members, about half of which number are farmers about there, has been organized at Dorchester.
F. H. Hein, 22 years old, of Lincoln, may die as a result of a mistake in taking bichloride of mercury tablets for headache medicine.
The wanderlust has again seized Frank Harrison of Lincoln, and he will start on his eighth trip to Central America the middle of December.
Over 100 delegates attended the district convention of the Woman's Relief Corps at Plattsmouth. Omaha was chosen as next meeting place.
Amos Kline, an aged blind man living near Virginia, walked off a porch and fell a distance of ten feet, receiving injuries that caused his death.
Chicken fanciers in the vicinity of Wymore have organized a poultry association and will have a chicken show during the farmers' institute at that place.
Dr. Karl Connell, son of Mr. and Mrs. W. J. Connell of Omaha, will assume charge of the American hospital ambulance corps that is to be organized in Europe.
A burglar at the home of Harvey Beeson at Lincoln fired several shots at his reflection in a mirror, evidently under the impression that it was the head of the house.
After three years of life with a broken neck, Harry Snover of Hooper is dead. He has never been able to move a muscle in his body since the accident three years ago in June.
Falling thirty-five feet when a steel book holding a suspended scaffold broke at Hastings, Peter Hemple and Philip Hahn, brick masons, sustained serious injuries. They were picked up unconscious.
Not in years, say railroad men and others in touch with conditions, has there been such a demand for labor on Nebraska farms as at the present time. The demand, according to these people, far exceeds the supply.
Albert Kilgore, a farmer near Ewing, a few months ago started a modest pork packing house on his farm. It is yet in an experimental stage, but he is swamped with local orders, and has been compelled to enlarge his plant.
The state Christian Endeavor union will hold its annual convention at Lincoln, November 12-15. An unusually strong program has been prepared, and many noted individuals in Christian Endeavor circles will address the convention.
At a meeting of Omaha stock yards officials and live stock dealers it was decided that every precaution would be taken to prevent the spread of the foot and mouth disease to the South Omaha yards. A strict quarantine was placed on all live stock.
The floral building at the fair grounds at Auburn was damaged by fire, the flames being extinguished only after a big portion of the roof had been destroyed.
The Touzalin hotel at Wymore, erected several years ago at a cost of over \$50,000, was sold at sheriff's sale for \$12,500 to satisfy a judgment held against it by an Illinois bank.
Albert Noble of Valparaiso, aged 23, was almost instantly killed when his brother fell down an embankment while they were hunting, accidentally discharging a shotgun he was carrying.
Harry Meredith, twenty-one years old, was killed and three other occupants of an automobile were seriously injured when their car turned turtle near Holdrege.
The cement factory at Superior, which was constructed at a cost of about \$1,000,000, and which opened for business a few weeks ago, has temporarily shut down.
An explosion in the basement of the Cotting drug store at Red Cloud caused a fire that totally destroyed the building and stock, and gave the fire department a hard fight before it was subdued.
A sealed bottle containing the school records of the year 1898, and which was buried April 22 of that year, was unearthed by some boys digging in the school yard at David City a few days ago.
Dr. B. M. Long, for fifteen years pastor of the Second Presbyterian church at Lincoln, has tendered his resignation to accept the position of state evangelist.
Members of the Lincoln Christian Endeavor union are making elaborate plans to entertain the state convention of that body when it meets in that city, November 12 to 16.
