

WYOMING LANDS

On The Burlington's New Through Line

The Burlington's new mainline through Central Wyoming brings a new country within close touch with the East and South.

The homemaker with a few hundred dollars has here the chance of a life time. The soil is broad, not of years; crops as certain as soil, sunshine, and moisture can make them. Make a trip over this great railroad. See Douglas, that noted stock center—Casper, famous for her sheep, oil fields and refineries—The supplies, her gas, her Hot Springs, sanctuaries and the great Owl Creek Country to which she is the gateway.

See a horse or a pair of oxen of the Big Horn Basin as you traverse their for the valleys of Wind, Washita, Bighorn, Grosventre, Platte, Ogallala and Ogallala. You can make this journey on our new trains between Casper, Cheyenne and Billings, every five or ten days and in so doing you can enjoy the most beautiful valley in Wyoming.

Ask for folders telling about the climate, crops, irrigation, Government irrigated homesteads under no interest 20-year payment plan. Also, see the map of the lands.

FIRE

THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you today.

Right!

Get up right in the morning. Go to bed right at night. Start with joy in your heart, hope in the future, kindness in your purpose.

If it is a dark day, never mind; you will lighten it up. If it is a bright day, you will add to the brightness. Give a word of cheer, a kindly greeting and a warm handshake to your friends.

If you have enemies, look up, pass them by, forget and try to forgive.

If all of us would only think how much of human happiness is made by ourselves, there would be less of human misery.

If all of us would bear in mind that happiness is from within and not from without, there would be a wellspring of joy in every heart and the sun would shine forever.

Try it!—Leslie's Weekly.

Really Baby's Fault!

The young mother had left the six-months-old baby only a few minutes, but upon going back to it discovered quite a large lump over one eye. Discovering three-year-old Henry in the vicinity, she surmised the cause and questioned him.

"Henry, did you hurt the baby's eye?"

"No."

"Now, I know better than that. If you do not tell me how you hurt the baby's eye I shall spank you."

"Well," said Henry, "I did throw a block at him, but I told him to look the other way."

Plan Memorial to "Mad Anthony."

The Chester County (Pa.) Historical society is planning to place a marker upon the old homestead of Gen. Anthony Wayne of Paoli, and hold commemorative exercises there sometime in early fall.

The Chester County society will seek the aid of the Pennsylvania state historical commission, recently appointed, to suitably mark many pieces of historic interest in Chester county and the state commission will be asked to take care of the old Friends meeting house at Birmingham, near the Brandywine battlefield.

It is proposed to erect a tablet near that old Goshen meeting house, near which there came near being a battle between the American army and the British troops in the fall of 1777. There came a heavy rainstorm as the firing began, and the forces withdrew from the neighborhood.

Patience Necessary.

There is no perseverance without patience. The man who must see results or who else will not work, is sure not to accomplish the most that is possible for him in life. The spirit of persistency that can keep plugging when nothing seems to move is the spirit that at length inherits the promise. The battle is not to the strong, nor the race to the swift, but the persistent win out in the long run. Many lose out because they let up just a little before the dawn of victory. If they had patience to endure they would soon have the joy of achievement.—The Way

ria Privilege.

It was during the rush hours and the car was crowded to its full capacity and then some.

A rather gaudily dressed young man was standing next to a German, each holding on to the overhanging strap. The car gave a sudden lurch, which resulted in the young man's stepping on the German's toes. This irritated the German, who addressed the other angrily.

"Mine friend," he said, "I know nine feet was meant to be walked on, but dot privilege belongs to me."—Lippincott's.
