**Seed Potatoes**

Nebraska potato growers do not give sufficient attention to the selection of their seed potatoes. The usual plan of planting whatever happens to be left in the spring cannot be too strongly condemned. A very few of our best informed potato growers are already making hill selections. This is a wise practice and will pay for itself in the increased yields.  
 The department of agricultural botany of the Nebraska College of Agriculture has already shown the advantage of fumigating or otherwise disinfecting the potatoes and the cellar. Dry rot can be prevented by proper treatment of the cellar and potatoes. The work of this department has already demonstrated that the dreaded leaf roll may be eliminated thru the development of resistant varieties.

**Koertner Farm Brings \$38,400.00**

One of the most important real estate transfers for some time took place Monday when the farm belonging to H. A. Koertner was sold to F. Vavricka of Red Cloud. The half section brought \$120 per acre. This farm is one of the choicest in Webster County and lies five miles south and one mile east of Bladen. Mr. Koertner came out from Illinois some twelve years ago and bought the farm, paying \$9,000 for it. He has since made it his home and has built a splendid house and substantial barns and out buildings. While the farm has been self supporting all this time it has doubled and tripled in value with the rise of farm land in this vicinity.—Bladen Enterprise.

Don't miss the foot ball and basket ball game today

According to the estimates of the state board of agriculture there are 128,451 men over 21 years of age on Nebraska farms. The women number 103,018. In 1913 the assessors reported that there were 130,199 men and 101,850 women.

**SAN FRANCISCO AND SAN DIEGO**

Indications point to a very large volume of Winter Tourist travel to Southern California the season of 1914-15 because of the opening of their exposition.  
 It would be well to think of the advantage of a winter in California and the comfort in seeing these expositions during this season, when we consider the crowds that will tax the resources of the hotels and railroads next summer. Arrange to join one of the Burlington's Personality Conducted Tourist Sleeping Car Parties to Los Angeles via Denver and scenic Colorado, planning to include the San Diego Exposition during the winter, returning via San Francisco, after March 1st, 1915.

**Armies Of Peace And War**

When a general wants to tear down a city in time of war he sends an army of men to do it. When somebody wants to build up a town in time of peace it takes an army of workers to accomplish results.  
 You can't make this town better, by wishing it were better. You have got to work to make it better and you have got to work along with somebody else. It requires a plan of battle and concerted effort. You would enlist quickly to prevent an army of enemies from destroying this community. Why don't you enlist in some of the movements that are being made to build it up?  
 The Red Cloud High school basket ball team will play the Franklin team here today. Root for the home girls.
