CALIFORNIA EXPOSITIONS
 SEASON OF 1915
 Commencing March 1st, a \$50 round trip rate will be made to San Francisco, Los Angeles or San Diego, over direct routes, with \$17.50 additional one way via Portland or Seattle. Approximately these rates from Central and Eastern Nebraska and Kansas.
 The Pacific Coast tour is the World's greatest rail journey. These excursions will bring before you the romance, and the modern civilization of California. When you go, make the tour more complete by including the ocean voyage between San Francisco and Portland in the new Steamers, "Great Northern" or "Northern Pacific,"—palaces of the Pacific, with the speed of express trains and the protection of ocean steamers; the \$17.50 additional includes berths and meals on these steamers. Our publications will tell you about this grand tour, our through service, the ocean coast voyage, etc., or write either of us

We believe that the council should pass an ordinance against raffling and raffling boards if that body has not already done so. If there is an ordinance to that effect it should be enforced. The practice is wrong in principle and often starts a boy or young man along the road of greater evils.

Representatives Naylor and Palmer have introduced a bill in the state legislature for an appropriation of \$80,000 for a swine barn on the state fair grounds. This measure, House Roll 183, has been endorsed by the Nebraska Swine Breeders and a number of other farmers' organization and is now before the house committee on Finance, Ways and Means.

The jitney service idea is sweeping the country from coast to coast. It seems for the time being at least that the autos are putting the street cars out of business and the service is not yet organized on anything like a broad scale. In one of the cities the new idea costs the street car companies more than one dollar per minute. Who will be first to start the new system in Red Cloud?

For once the ground hog did not see his shadow and now we are assured of an early spring. He came out and looked diligently all day but to no avail there was not a ghost of a shadow anywhere. There is no doubt about the correctness of the predictions of the ground hog for we have it on what we consider excellent authority that this weather animal has not made a single mistake in the past fifty years.

In view of the fact that eggs are slowly but surely rising in price the wise poultry man will set his hens and incubators early this year. The countries of Europe have about exhausted our supply of cold storage eggs and when these are gone the price of fresh eggs is bound to soar upwards. The one who has the pullets laying first is sure to be well paid for the extra trouble.

The railroads of Nebraska have wisely, we believe, changed their methods of conducting their business. Many of our readers no doubt have read carefully the articles appearing in the Chief marked paid advertising. This space was sold to the railroads of Nebraska at our regular figures. Surely times have changed and with the change of the times comes the change in management. The old arrogance has been laid aside and the railroad companies seem disposed to state their case fairly and leave it to the people. This is but just. The people of Nebraska do not want the carrying companies to reduce their service, go into the hands of the receiver or go to the poor house. We are willing that they should have a fair profit at the end of the year and we cannot expect efficient service unless they can show a profit. Now as to whether they should be allowed to increase their passenger and freight rates at this time we are unable to say but they certainly have taken the right method by coming out in the open and working above board. We are sure that our people would not want any corporation to work without remuneration and if this increase is necessary at this time and is so shown before the proper authorities the people may be depended upon to give their approval. We need the railroads and the railroads need us so let us share and share alike.

The worst storm of the winter visited this section last Sunday and Monday. The wind blew at the rate of thirty miles an hour but fortunately there was not a very heavy fall of snow and traffic was not delayed to speak of. The roads and sidewalks were covered with ice which made it difficult for fat passengers to get about. Nearly every one in the city confesses to having had at least one good fall but no serious accidents occurred. The blacksmiths have abandoned all other work and have given their entire attention to the shoeing of horses.

Wolf Hunt
 A wolf hunt will be held Tuesday, February 9th, and will take in the following territory: Northwest corner of Red Cloud precinct, Southeast corner of Catherton precinct, Southwest corner of Batin precinct, Northeast corner of Inavale precinct, taking in 3 square miles of each precinct.
 The roundup will be held in the center of the four corners of the precincts. The corners will start at 10 o'clock sharp. A blue rock shoot will be held after the roundup.

FIRE

THE ALARM OF FIRE is a dreadful thing for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.
THE COST OF INSURANCE need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.

What Preachers Do For Us
 (By Artemus Ward)

"Show me a place where there isn't any meetin' houses and where preachers is never seen, and I'll show you a place where old hats air stuffed into broken winders, where the children air dirty and ragged, where gates have no hinges, where the wimmen air slipshod, and where maps of the devil's wild land air painted upon men's shirt bosoms with tobacco jooce! That's what I'll show you. Let us consider what the preachers do for us before we aboose 'em."
