A New Anecdote.
Queer requests are often received for prescriptions, which might puzzle either doctor or chemist, far more skilled than the proprietor of the ordinary drug store. Here is one recently reported by Morris Wade: It is a note from an eccentric mother, whose nerves were apparently as much in need of treatment as the digestion of her infant:

"My little baby has set up its father's paris plaster. Please to send an anecdote by the inclosed little girl."—Youth's Companion.

Find Live Duck in Fish.
A strange specimen of the angel fish was caught by Captain Palmer at Sound Beach, who removed from it two ducks. The wicked fish had stolen the ducks from J. Kennedy Tod's Innis Arden estate. One was alive.

The fish was struggling in the water when seen by Captain Palmer, and was landed with a pair of ice tongs.

The fish is a yard long, and its mouth is 6 by 8 inches. It was frozen in a cake of ice at the Maher ice plant and is exhibited in the window of a market here.—Greenwich (Conn.) Dispatch to New York World.

KNOW NOW

And Why Never Forget the Experience.
The coffee drinker who has suffered and then been completely relieved by changing from coffee to Postum knows something valuable. There's no doubt about it.

"I learned the truth about coffee in a peculiar way," says a California woman. "My husband who has, for years, been of a bilious temperament decided to leave off coffee and give Postum a trial, and as I did not want the trouble of making two beverages for meals I concluded to try Postum, too. The results have been that while my husband has been greatly benefited, I have myself received even greater benefit."

"When I began to drink Postum I was thin in flesh and very nervous. Now I actually weigh 16 pounds more than I did at that time and I am stronger physically and in my nerves, while husband is free from all his ailments."

"We have learned our little lesson about coffee and we know something about Postum, too, for we have used Postum now steadily for the last three years and we shall continue to do so."

"We have no more use for coffee—the drug drink. We prefer Postum and health."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Well-being," in pkgs.

Postum comes in two forms: Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—Is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 35c and 50c tins.

The cost per cup of both kinds is about the same.

England Votes Blank Check for Pay of Officers and Men—Trying to Head Off Determined Filibuster

Western Newspaper Union News Service. Washington.—Publication by the state department of the texts of the notes sent Wednesday to Great Britain and Germany, respectively, revealed that both countries had been warned in most emphatic terms against menacing the vessels or lives of American citizens traversing the recently proclaimed sea zones of war. Germany was advised that the United States "would be constrained to hold the imperial government to a strict accountability" for such acts of its naval authorities as might result in the destruction of American vessels, or the loss of American lives, and that if "such a deplorable situation should arise," the American government would "take steps it might be necessary to take to safeguard American lives and property."

Western Newspaper Union News Service. Longest Continuous Session in History

Washington.—Republican and democratic senators who oppose the government ship purchase bill, aided by Senator Norris and Kenyon, progressive republicans, who have stood by the bill, forced an adjournment Wednesday night of the longest continuous session in the history of the senate, and made more uncertain than ever the fate of the measure which the administration has so urgently pressed upon congress. Upon the adjournment, after fifty-four hours and eleven minutes of continuous debate, leading members of both houses of congress conceded that an extra session to be called soon after March 4 seemed inevitable.

DEMANDS FOR BETTER WAGES.

Increased Prices Make Advance Necessary in London.

MONEY TO PUSH THE WAR.

England Votes Blank Check for Pay of Officers and Men.

London.—After two days' debate, during which many matters in connection with the war were discussed, the house of commons passed without division the army estimates for 3,000,000 men, exclusive of Indians, and also by "a token" vote provided for the pay of the officers and men. By this vote the government will receive a blank check for this purpose. Replying to points raised by members of the house Harold J. War Reduces Belgian Population by 600,000—Recommends Immediate Embargo on Wheat Exportation.

Western Newspaper Union News Service. Washington.—Gen. Venustiano Carranza, as first chief of the constitutional army, has notified the world that all communications to his government from outside sources must pass through him. If directed to any general, he said, they must be referred to him anyhow. Carranza's decree reached Washington through Rafael Zubaran Capmany, his minister of the interior, who telegraphed it to Eliseo Arredondo, Carranza's local representative.

The order apparently will make it impossible for diplomatic representatives of foreign governments to deal with the Carranza government except by going to Vera Cruz, which they have been unwilling to do lest such action be construed as formal recognition.

Recommends Embargo on Wheat.

New York.—An immediate embargo on the exportation of wheat, as a preventive of further increase in the price of bread, is recommended for consideration by the federal government in the report of Mayor Mitchell's food committee, submitted by George W. Perkins, the chairman. The opinion is expressed in the report that if wheat continues to be exported at the present abnormal rate the price of bread will go much higher.

NO PARALLEL IN HISTORY.

Enforced Inactivity of Belgium's Seven Million People Makes Case Remarkable.

New York.—Belgium's population has been reduced by about 600,000 as a result of the war and her condition presents a situation without parallel in history, says a report issued by the Rockefeller foundation from its war relief commission, sent to investigate the effects of the war upon non-combatants. It is the first report from this commission, which went to Belgium last November.

Germany Recognizes Protest.

Berlin, via London.—The German foreign office, after studying the American note respecting the declaration of Germany of a war zone in the waters around Great Britain and Ireland, states that the terms are much friendlier than previously had been expected by reason of the incomplete newspaper dispatches published here. The foreign office had not anticipated that the United States would accept the German position without objections, and it even recognizes that from the American standpoint certain of the points raised are quite justified.

Their Pleasant Chat.
Weary, and smelling of smoke, little Mr. Trimmer arrived home to find an unusually tasty dinner waiting for him. To add to his joy his better and larger half was in the best of good spirits.

They did not speak much during the meal, merely beaming pleasantly on each other. Afterward Trimmer rose and took his accustomed easy chair and the evening paper, feeling thoroughly contented with life and the world at large.

To his surprise, his wife drew a hassock up and sat down on the floor beside him.

"John, dear," she said softly, "I've got a whole lot of things I want to talk to you about before bedtime."

"Have you really, old girl?" he answered, laying down his paper. "Now that is nice—that's really very nice!"

"How good you are to me, John," she murmured. "Why do you think it is nice?"

"Why, my dear, you generally want to talk about a lot of things you haven't got."—London Answers.

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

When Women Made Laws.

At a recent banquet of the Ancient Order of Hibernians in Mobile, Ala., Mrs. E. Henry Ruffin said that equal suffrage was an ancient right given to the women of Ireland, who had full suffrage in the time of St. Patrick. At each meeting of parliament it was left to the women to decide upon the laws affecting the life of the family, and some of these laws are our inheritance today, she says. Under the direction of St. Bridget and a thousand nuns the ancient Brehon laws of Ireland were gathered together, amended and codified.

A man may boast of his ancestors because he has nothing to look forward to.
