

ANNOUNCEMENT

Having purchased the B. E. McFarland grocery store, and taken possession of the same, I wish to announce that I intend to carry a full line of Staple and Fancy Groceries, as well as all kinds of fresh vegetables in season.

Trusting to merit the patronage of all the old patrons of the store, I invite the public to

A. B. McARTHUR PUBLISHER
THE ONLY DEMOCRATIC PAPER IN WEBSTER COUNTY

Our readers will notice that we are wearing green this issue. This is because the editor has a birthday today and he is glad to celebrate with good old St. Patrick. We rather fancy the color at all times but just now it especially looks good to us. "May you all live long and prosper."

The roads of this county are in the worst condition they have ever been since the white man arrived. Chuck holes hub deep are very frequent a condition thought impossible in this country. This makes hauling very difficult and traveling is very slow. There will be work for all the road overseers just as soon as the weather clears. The sooner these roads are fixed the better it will be for us all.

Someone very thoughtlessly smeared grease the other night on the cart belonging to Clarence Lewis. It might have been done in the spirit of mischief but it is mighty poor mischief. The property is his and his right to it should be respected. And this reminds us that there are too many gibes and thrusts indulged in on our city streets. Most of this is thoughtless but it hurts just the same. No gentleman will join a crowd that picks on one of his fellow townsmen.

We trust none of our citizens on whom Cecil Matthews, editor of the Riverton Review, has heaped his "mud" feel in the least hurt thereby. His insults are, in reality, compliments. He abuses anyone, whether acquainted with him or not, if by so doing he can further his own selfish ends. His "mud" is for anyone who wishes to use it for political purposes or otherwise, and it has been so used on several occasions, to the discredit of those who employed it.

It is impossible to estimate the value of this vast blanket of snow that fell over the Dakotas, Nebraska, Kansas, and Iowa. All ready it has given thousands of men employment in the cities just at the time when they needed it most. The ground is wet down a distance of five or more feet which will make the first crop of alfalfa, boost the wheat so that it will not need more than one rain to mature it and the soil is in splendid condition for spring work. The outlook at this time is certainly bright.

In our account of the business men's dinner given by the domestic science class last week we omitted making mention of the hand sewing which was on display. This was due to lack of space. Since that time we have heard this work highly praised. There was garment after garment hung around the room which showed infinite pains and great skill and these called forth the admiration of all the men. Miss Thornton who has charge of this department is a most competent and efficient instructor as anyone could see by examining the display.

Now that the ice is broken, we trust that the board of education will each year in the future call an annual meeting of the patrons of the schools. That there was not as large an attendance as was expected may be explained in part by the condition of the roads and in part because not everyone knew what the nature of the meeting was to be. However, a meeting of this kind would give the board a means of finding out what the public sentiment is, and we are sure that all boards desire to carry out the wishes of the district if they had any means of ascertaining what those wishes are. The idea is all right, but will our people use it?

Eastern observers state that the reason cattle are selling low on the market at the present time is because the laboring man in the cities is eating no meat. The reason for this is because the mills are nearly all running on light shifts and he has no money with which to purchase meat. The remedy has been pointed out and it will work if utilized and that is for the farmers who know what machinery

The Store That Sells Wooltex

If dollars count with you-- you will surely have a Wooltex coat or suit

Women who are economical are among the greatest admirers of Wooltex garments.

They know by experience that Wooltex gives more pleasurable wear than ordinary garments made in the ordinary way.

They can tell you how much this label means.

It will be found inside the collars and waist bands of garments designed by America's most skillful style artists.

Never extreme or freakish, Wooltex garments appeal to the woman who appreciates apparel that conforms to the season's correct style tendencies and may be worn for at least a full season with the assurance that it is always in good taste.

And then, Wooltex clothes are so carefully made that they will retain their handsome trimness, their smart individuality and their freshness much longer than garments less skillfully tailored.

1711

Copyright 1915 The H. Black Co.

Suit No. 1711—A choice spring model for misses and young women. Jacket has straight box-like effect; is 22 inches long in front with partial belt; has 27-inch panel back trimmed across bottom with closely set buttons; detachable white over collar; full penon de cygne lined. Skirt is new circular model gathered to yoke at sides.

Judge them by your own standards of garment making and you will see why Wooltex garments are for women who make dollars count.

Wooltex garments are sold in Webster county only at The Miner Bros. Co. of Red Cloud

WOOLTEX SUITS

Dr. Price's CREAM BAKING POWDER

Dr. Price's Cream Baking Powder contains no alum or lime phosphate.

Chemists have shown that a large percentage of the chemicals of which alum baking powders are made remains in the food in the form of Glauber's salt, hydrate of aluminum and other impurities.

Read the label on the can. Reject a baking powder unless the label shows cream of tartar.
