It Pays to Pray, and Advertise.

"Do you believe in the efficacy of prayer?" asked the new minister. "You bet!" triumphantly replied Sam Stinger, the enterprising real estate dealer. "Why, at the prayer meeting last Thursday night, I prayed loud and long for blessings on our progressive little city, incidentally mentioning a few of the advantages it possesses for profitable investments, and next morning I sold four lots in my new Sky High addition to a stranger who had happened to drop in at the services!"—Kansas City Star.

Fiction and Reality.

It is a simple truth to say that many things happen in fiction which would be quite impossible in fact, as any censor knows. It is in failing to distinguish between these two that many artists and most critics blunder and this error is in effect the same as that of the ambitious actor who, having once to play the part, for the first time, of an intoxicated ruffian in a certain melodrama, went to a neighboring tavern and intoxicated himself. He thought that this would storm the house, but on the contrary he was immediately fired by the management for a fool—and rightly.—F. H. Martin, in the Book Buyer.

CHILDREN SHOWED IT

Effect of Their Warm Drink in the Morning.

"A year ago I was a wreck from coffee drinking and was on the point of giving up my position in the school room because of nervousness.

"I was telling a friend about it and she said, 'We drink nothing at meal time but Postum, and it is such a comfort to have something we can enjoy drinking with the children.'

"I was astonished that she would allow the children to drink any kind of coffee, but she said Postum was not coffee, but a most healthful drink for children as well as for older ones, and that the condition of both the children and adults showed that to be a fact.

"I was in despair and determined to give Postum a trial, following the directions carefully. It was a decided success and I was completely won by its rich delicious flavor.

"In a short time I noticed a decided improvement in my condition and kept growing better month after month, until now I am healthy, and do my work in the school room with ease and pleasure. I would not return to nerve-destroying coffee for any money."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms: Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost per cup about the same.

AN AMERICAN KILLED

CHICAGO MAN SHOT DOWN IN CITY OF MEXICO.

NEUTRALITY SIDE OF CASE

Investigating the Status of Conditions in German Vessel Eitel—British Lose Sea Fighter.

Western Newspaper Union News Service. Washington.—Encouraging advices telling of the relief of the food famine in Mexico City through the evacuation of the capital by the forces of General Obregon, the Carranza commander, were clouded by the news that at the entry of the Zapata troops, John B. McManus, an American citizen, was murdered—shot down in his home, the door of which had been sealed with the coat of arms of the United States and over which flew the stars and stripes. Instant demand was made by the Brazilian minister on behalf of the United States government, for the punishment of those guilty of the crime. After a conference between President Wilson and his cabinet, Secretary Bryan telegraphed the Brazilian minister approving of the action he had taken and adding a demand for reparation to the family of the victim.

British Cruiser Torpedoed.

London.—The admiralty announces the loss of the auxiliary cruiser Bayano while the vessel was engaged in patrol duty. In its statement of the disaster the admiralty says: "On the 11th of March wreckage of the Bayano and bodies were discovered and circumstances point to her having been sunk by an enemy torpedo. Eight officers and eighteen men were rescued, but it is feared that the remainder of the crew, numbering 216, were lost."

NEUTRALITY SIDE OF CASE.

Length of Time Eitel Can Remain Not Decided.

Washington.—Navy and state department officials still have under consideration the length of time to be allowed the Prinz Eitel Friedrich to make repairs at Newport News and the disposition to be made of the prisoners. The first point will be decided after an American naval constructor makes an investigation of the repairs needed to render the vessel seaworthy. The release of the prisoners will depend somewhat on the representations which may be made to the United States by the various embassies or legations who have nationals aboard. As yet no communications have been received the state department from any of the foreign governments concerned.

Germans Abandon Polish Town.

London.—The Germans have abandoned Augustow, in Russian Poland, 140 miles northwest of Warsaw, and the Russians are already on the outskirts of the town, according to a Petrograd dispatch to the Daily Mail. Przemysl is said to be hard pressed and an officer who has arrived at Petrograd from Przemysl says that part of the outer works are already in Russian hands and that those works still held by the Austrians have been much damaged.

Wage Arbitration Nearing End.

Chicago.—A compilation asserting that the railroads have been prosperous in the last few years; that the prospect for them and for other industries in 1915 is good, and noting a change of sentiment in favor of the railroads was introduced at the arbitration of the wage demands of the engineers of western railroads. It was the last of the many statistical exhibits analyzed, and was the final word of the brotherhood on the ability of the railroads to pay the increases requested.

Killed by Political Enemies.

Paris.—The British agency has received the following dispatch from Sofia, Bulgaria: "Advices received here from Constantinople say that Mehemed Burhan-Eddin Effendi favorite son of the former Sultan Abdul Hamid, has been found strangled in his bedroom. Despite the reserve of the Turkish police, it has been confirmed that the prince was killed by political enemies." Prince Burhan-Eddin was twenty-nine years old and the fourth son of Abdul Hamid. He held the rank of lieutenant in the Turkish navy.

TIDE TURNING TO EUROPE

CARRANZA'S REPLY RELIEVES SITUATION IN MEXICO.

More Aliens Leaving United States than Are Arriving—Tying Up of Eitel Removes Menace to England.

Western Newspaper Union News Service. Washington.—Another note has been sent by the United States government to General Carranza in reply to his response to the notice that Carranza and Obregon would be held personally responsible for the safety of Americans and other foreigners in Mexico City. It is understood to have emphasized the importance of keeping railway communication between the capital and Vera Cruz open. The second communication was dispatched so quickly after the receipt of Carranza's reply that the impression prevailed in diplomatic quarters that the United States had determined in advance to make representations for the unrestricted passage of Americans and other foreigners from Mexico City to Vera Cruz.

Removes Shipping Menace.

London.—The arrival of the German auxiliary cruiser Prinz Eitel Friedrich at Newport News, removing for a time at least another menace to British shipping, and the success of the British troops in the region of Le Bassee, are for the moment the most interesting topics of discussion in the British Isles. Whether the Prinz Eitel Friedrich will be interned or will again set out for the high seas, it is considered here that her career as an armed cruiser must come to an end, for should she be allowed to sail after repairs it is believed that cruisers of the allies, on watch, will account for her.

TIDE TURNING TO EUROPE.

More Aliens Leaving United States than Are Coming Here.

Washington.—For the first time in the history of the United States the flow of immigration has been turned back toward Europe by the war and more aliens are leaving the United States than are coming here to make their homes. Statistics published by Immigration Commissioner Caminetti show that the change came in December last, when the number of emigrant aliens leaving this country was greater by 2,240 than the total of immigrants entering. In January, 1,157 more departed than entered. The departures for six months from August, 1914, to January last, totaled 15,545 more than the arrivals, including both emigrant and non-emigrant aliens.

Thinks He is Christ.

Elders Training with Young Recruits.

Copenhagen.—Germans up to the age of 55 years, who two months ago were declared unfit for military service, it is reported here, now have been called upon to undergo training with younger recruits. Reports received here from Schleswig are that the supply of petroleum in Germany has become so small that persons who formerly were permitted to purchase one bottle a week now have been deprived of that privilege. The stock in Schleswig has been virtually exhausted.

Greece Buying American Wheat.

Washington, D. C.—With the Russian wheat supply cut off by the closing of the Dardanelles to merchant ships, Greece has now turned to the United States and is now buying from this country from 25,000 to 40,000 tons of wheat a month, according to American Consul Henry Alexander Weddel, at Athens. The Hellenic government has taken this step with a view to keeping down food prices and checking speculation in foodstuffs.

EXPECT REPARATION

CAPTAIN OF EITEL WENT BEYOND AUTHORITY.

British Order Strikes United States Exporters—Beachey, the Aviator, Meets Death in Drop.

Western Newspaper Union News Service. Washington.—Germany probably will repudiate the action of the captain of the Prinz Eitel Friedrich in sinking the American ship William P. Frye and make reparation for the loss of the vessel and cargo, in the opinion of German officials here. Inasmuch as the United States and Germany are in accord on the question of shipping foodstuffs from a neutral country to civilians in belligerent territory, no issue is expected to be raised by Germany over the right of the cargo to be sent to its destination without interruption. Count Bernstorff, the German ambassador, after a visit to the state department, indicated that he believed the case would be settled without much difficulty.

Lincoln Beachey Drops to Death.

San Francisco.—The spectacular career of Lincoln Beachey, one of the most daring of American aviators, who thrilled big crowds at the state fair at Lincoln last fall, ended Sunday when he fell to his death at the Panama-Pacific exposition in sight of thousands of spectators.

Beachey was completing his second flight of the day when the accident occurred. Having previously electrified the crowd with a series of aerial somersaults, the aviator sought to add an additional thrill by making one of the sensational perpendicular drops which usually featured his flights. The fatal fall was attributed to the fact that Beachey entrusted his life for the first time to a new monoplane.

CONTRABAND LIST IS ADDED TO.

United States Exporters Hit by British Order.

London.—The British government has added the following articles to the absolute contraband list: Wool, woolen and worsted yarns, wool tops and nolls, tin, chloride of tin, tin ore, castor oil, paraffine wax, copper, lubricants, iodine, hides and all kinds of leather suitable for military equipment, ammonia and its salts, urea, asiline and its compounds. Foodstuffs for animals, heretofore on the conditional contraband list, are broadened to include "oleaginous seeds, nuts and kernels and animal and vegetable oils and fats, other than lincseed oil, suitable for the manufacture of margarine cakes and meals. This apparently makes cottonseed and all cottonseed oil products conditional contraband.

Lincoln Wins State Championship.

Lincoln, Neb.—Lincoln high school won the interscholastic basketball championship for the second consecutive time by defeating Omaha in the final contest of class A at the auditorium Saturday night, 17 to 10. Among the class B teams, Hebron proved her right to the championship by taking the final from Minden, 18 to 7. Nebraska City won the consolation tournament by eliminating her one remaining opponent, Oakdale, winning 12 to 6. Lincoln and Omaha staged a pretty battle for the championship. The contest was exceedingly fast, with both teams displaying the most versatile basketball seen on a Lincoln floor for years.

Condition of Dope Victims Pitiful.

Chicago.—Thirty thousand persons in Chicago are addicted to habit-forming drugs, which, under a new federal statute, they probably cannot get, a gathering of physicians was told here by Dr. W. A. Evans, former city commissioner of health. The doctors, representing state, county and city government and medical societies, met to determine what could be done for the drug users, whose condition has been depicted as pitiful.

Compulsory Education for Texas.

Austin, Tex.—A compulsory education law for Texas has been signed by Governor James E. Ferguson. It becomes effective in September, 1916.

Farmer to Consumer.

Lincoln, Neb.—The farmer to consumer movement proposed by the United States government through the agency of certain first-class postoffices, is racing along at a merry clip. The Lincoln office is compiling a list of farmers who will be in a position to sell butter, eggs, strawberries and the like direct to the consumer and through the medium of the parcel post. The Lincoln office is the farmers' agency for the first and second parcel post zones and includes a radius of 150 miles from here in all directions.

Sugar Embargo to Be Raised.

London.—The prohibition against the importation of sugar into the United Kingdom from America and other neutral countries probably will be removed within the next two or three months. Reginald McKenna, the home secretary, intimated as much in the house of commons. Mr. McKenna expressed the view that the measures to be taken by Great Britain and her allies against German trade would prevent further shipments of sugar to neutral countries.
