 Councilman 1st Ward.....H. Neuberger  
 Councilman 2nd Ward.....W. A. Maynard  
 Members of School Board.....  
 .....Clark Stevens and Cliff Pope

The Chief believes that Dr. Damerell should be re-elected mayor of this city for another year. He has made an excellent official and has looked after the city's interests at all times. At the same time he has been fair to all citizens. The city has prospered in a financial way and has been kept orderly at all times. The Doctor has made good and should be returned for another term.

The musical given the other night under the auspices of the Red Cloud band again demonstrates the fact that we are capable of furnishing our own entertainments. The talent is here in our own town and we do not need to import outsiders. If the other towns in this county would join with us we could furnish all the winter "lecture courses" that would be needed in the county and at a far less expense. Each one of the other towns have someone who can do something well and by combining all the towns we would have a first-class program to offer ourselves. We believe that the talent would average higher than the ordinary and there would be no one called upon to face a big deficit at the end of the season. Why not?

The Equity Union of Grange, Ill., Illinois, has started the organization of the farmers in the Republican valley the object of which is to carry on an extended business in flour, meat, cream and all mercantile goods. The plan is to organize in seventy towns and have them all under one management. The preliminary meeting was held in Orleans and a part of the stock was subscribed at that meeting. The promoters desire to form an organization with a million dollars capital so that they can carry on the work on a big scale. They have asked McCook, Oxford, Orleans, Alma, Republican City, Bloomington and Franklin to bid for the home office, the town offering the most money will get the prize.

One of the main contests at the coming election will be over the policy of our public schools. This is an unfortunate condition of affairs for agitation always interferes with the efficiency of the school work. It is unfortunate because there are statements made which are untrue and misleading and which do not state the conditions as they are. We believe in progressive schools and progressive methods. We believe that the newer courses comprising commercial arithmetic, manual training, domestic science and agriculture will come more nearly fitting our pupils for living in this community than the classical course could possibly do. We believe that it would be a very grievous mistake to take a backward step at this time.

The vital importance of a good road has been very clearly shown during the past three weeks. When it takes

A trio of happy thoughts for women:

**Spring--Easter--New Clothes**

YOU'LL not want to be without a new coat or suit Easter Sunday. You wouldn't feel that Spring had really come unless you had new apparel.

There's something about wearing a new garment on Easter that gives new zest to life--that opens the mind and heart to the spirit of blossoming Springtime and budding life in nature.

Easter Sunday and many others will be days of real pleasure and satisfaction to women who wear

**Wooltex coats, suits, skirts**

Wooltex styles are so pre-eminently the authoritative styles of the season. They are unhesitatingly approved by the women of this city who are well known for their good taste and knowledge of what is best in clothes.

Wooltex styles are marked for their refined elegance. They are preferred by many women because of the absence of extreme features and freakish fancies.

There's a coat, a suit, a skirt in this assortment for every type of figure. And the variety of colors and materials makes choosing a real pleasure.

**WOOLTEX COATS  
WOOLTEX SUITS  
WOOLTEX SKIRTS**

For the woman of regular figure there are many plain tailored, semi-press and dressy models in all the choice materials and colors.

Nor have the Wooltex designers neglected the small figure, the large woman, the elderly woman and the young miss. We have special models for each of them.

You will approve these new Wooltex coats and suits as garments of good taste. They will meet your ideas of refined, stylish apparel. They will enable you to be stylishly and

pleasing dressed at very moderate cost.

Wooltex quality stands in a class by itself. The outer materials are pure wool. They are carefully shrunk before cutting. The linings are pure silk.

They are carefully made--so well made, that they will retain their fresh, new appearance for a much longer time than ordinary garments, made in the ordinary way.

Our salesladies will gladly show you the Wooltex way of tailoring the collar and lapels to insure their permanent shapeliness.

**Coat No. 1300**--A stylish new Spring model in mistral cloth, serge, sponge and other materials; all the choice colors. New godet effect give modish rippled flare; faille silk collar; new tucked belt effect. Length 42 inches; full silk lined in matching or contrasting colors.

**Style Tendencies For Spring, 1915**

Timely paragraphs on the new Spring fashions in outer garments and accessories. Suggestions that you can depend upon for they are direct from the leading fashion centers.

Designers have drawn from the fashions of the past hundred years for many of this season's ideas. The almost forgotten full skirt is a notable feature for Spring. Suit jackets and coats that ripple below the waist line and skirts that ripple above the ankles are quite the style.

**The Waist Line**--Both the normal and high waist line will be in favor. Most tailored skirts will be worn three to seven inches from the ground.

**Suit Coat Lengths**--Generally, they barely reach the hips. With the variation of ripples and the irregular bottom line, the length varies from 22 to 30 inches.

**Military Features**--The military tendencies are apparent in collars, colorings, trimmings, cuts and other details. Many collars are high with the graceful back-roll and trimmed with silk.

**Colors**--Blue is good as ever, in all shades from light to dark navy. Putty and sand colors are prominent in street and traveling suits, coats or waists. Black and checks are very fashionable.

**Waists**--One of the distinguishing features of waist styles for Spring is the return of washable lingerie waists to special favor. Fine hand embroideries are again very fashionable. Many are very appropriate for wear with tailored suits, having some of the same military effects in collars and long, set-in-sleeves.

**Gloves**--With full length coat sleeves, gloves will necessarily be short; silk gloves will be in special favor, owing to the unsettled condition in the kid glove market. However, we are able to show you a complete line of handsome kid gloves in all colors.

**Corsets**--The new corsets show slightly higher bust, and hips not quite so long. Waist lines are slightly curved at the sides. Corsets not intended for sport wear are sufficiently boned to conserve the lines of the figure.

You'll be better dressed and more satisfactorily dressed on Easter Sunday and throughout the season if you choose a coat or suit from this display. And as the weeks pass you will more and more appreciate the economy in wearing Wooltex garments.

must get to a railway station. With the present of feet lesson before us we ought to think of our roads more than ever and determine to make them the very best we can. The better the roads the more money the farmer makes and the more valuable his farm becomes. Every dollar intelligently spent on the roads will return two and add greatly to the comfort of the people.
