

FEAR A MILK FAMINE

DAIRYMEN IN BERLIN CLAIM MARKET IN DANGER.

PROSPECTS OF RECORD CROP

Nation's Wheat Yield This Year May Reach 900,000,000 Bushels—Locate Missing Submarine.

Western Newspaper Union News Service. Berlin.—Berlin milk dealers, who are fearful that there may be a milk famine, have appealed to the board of trade of the capital to induce the authorities to start action against farmers who, it is claimed, have failed to live up to price agreements.

Held Out No Hope.

Washington.—Rear Admiral Moore at Honolulu has cabled the navy department that the missing submarine F-4, which sank in the harbor at that port Thursday, had been located in fifty fathoms of water.

PROSPECT OF RECORD CROP.

Wheat Fields of Nation May Yield 900,000,000 Bushels.

Chicago.—Every present indication points to every wheat crop record in the history of the country being broken for 1915. However, according to B. W. Snow, chief statistical expert for Bartlett Frazier and company, it would be mere guess work now to attempt to estimate the 1915 grain crop in bushels.

May Be Many in Bread Line.

London.—Before the next harvest 1,500,000 Belgians probably will be in the bread line, in the opinion of Emile Francqui, president of the national relief committee of Brussels.

Doubt Regarding Japanese Election.

Washington.—Scrutiny of the result of the Japanese elections affords little satisfaction to officials here. The administration hoped the peace party would win decisively.

Disaster to American Submarine.

NO PRESIDENTIAL PRIMARY.

Senator Pomerene Finds Congress Cannot Enact Law. Washington.—Senator Pomerene of Ohio, who has been one of the active advocates of prompt passage of a presidential primary bill in order that the candidates in 1916 might be chosen under it, announces that he has reached the conclusion, "with very great regret," that congress has no power to provide for a presidential primary and that the constitution must be amended or the subject left entirely to the states.

One of Chief Causes of Surrender of Przemysl—British Air Raid on German Submarine Works.

Western Newspaper Union News Service. Washington.—Reports to the state department and to the Mexican agencies here tell of an impending battle for possession of Matamoros, the port across the Rio Grande from Brownsville, Tex., which apparently is to be the scene of the first real fight of the Villa campaign against the east coast of Mexico.

Attack German Submarine Works.

London.—A British air raid on Hoboken, near Antwerp, where the Germans are constructing submarines; another threatened effort by the Germans in Flanders, and heavy fighting in the Carpathians are the outstanding features of the latest war news.

STARVATION WAS IMPENDING.

Petrograd.—The lack of official details from Przemysl is said to be due to the heavy snow storm that prevailed and which broke down the telegraph lines. It is reported, however, that nearly a quarter of the garrison had suffered with typhoid and scurvy. Although the rations were growing more and more limited, none but a few of the higher officers, up to the end of January, knew that actual starvation was impending.

To Utilize Wood Waste.

Merrill, Wis.—The Northern Wood Products company has been organized, with Clinton R. Lee of Lincoln, Neb., as president, to make extensive use of the former waste products of the northern woods sawmills by converting the slabs into broom handles and other such articles.

To Look Into Conditions.

Chicago.—Working conditions of sleeping car porters and conductors will be the first of several subjects to be considered by the United States commission on industrial relations at a hearing to begin in Chicago April 5. Western Newspaper Union News Service. Rome.—All the Alpine troops of the first category, born in 1883, have been called to the colors by the Italian war department for forty-five days. The official military journal also calls to the colors all artillery and engineer reserve officers for sixty days from April 16.

To Attack Matamoros.

Brownsville, Tex.—Grave apprehensions were aroused among officials here by the report that Villa officers have decided the defenses of Matamoros, opposite here, must be reduced presumably by artillery. The probability of artillery shells falling in Brownsville was indicated by the wounding of two persons in the residence section here Saturday by stray rifle bullets.

COST OF FEEDING BELGIANS.

London.—A financial report issued by the American commission for relief in Belgium shows that foodstuffs of a total value of twenty million dollars have been delivered in Belgium since the inception of the commission's work. Nineteen million dollars' worth of food is now on the way to the stricken country or is stored for future shipment.

Must Put to Sea or Be Interned.

Washington.—The German commerce destroyer Prinz Eitel Friedrich will be interned at Newport News by order of the Washington government within a few days, according to opinions expressed here in official quarters. No one in authority, however, would discuss the ship's status. There is little doubt that a time limit for the making of repairs to the Eitel has been set by the government, and that the time limit is close to exhaustion.

Appropriations Will Be Lower.

Lincoln, Neb.—It is reasonably certain that the appropriations at this session of the legislature will be less than the total of \$8,100,000 two years ago. How much the 1915 aggregate will fall below that figure is only guesswork.

Lincoln, Neb.—The twenty-second annual meeting of the Southeastern Nebraska Educational association came to a close Friday with the election of officers, which resulted as follows: President, Superintendent R. R. McGee of Syracuse; vice president, Superintendent W. L. Doremus of Auburn and Superintendent S. E. Clark of Hebron.

Dope Law Not Enforced.

Omaha.—"The dope law is in effect but not in force. If you want dope right bad and have the price, you can get it. These drugs are being peddled on the streets, and the amount that used to cost 15 cents now costs 60 cents. The amount that formerly cost \$1.25 at the drug stores now costs \$3.50 from the peddlers." That is the statement of Captain H. H. Kline, in charge of the Salvation Army industrial department, who is in constant touch with dope addicts.
