ANYONE CAN DRIVE AN OVERLAND

The electric control buttons on the dash start, stop and light it. Nothing could be simpler. No other arrangement could be as convenient. The long wheel base, large tires and underlung rear springs insure complete comfort on the road at all times. The high tension magneto means dependability under all conditions. The Overland is, in every sense, an all-around family car. It was designed to make driving and riding comfortable. In no other car can you get so many comforts and conveniences—unless you pay a much higher price which is absolutely unnecessary.

We Put It Up To You

DEAR MADAM:-

Ask yourself a question or two and answer them fairly and squarely. Then figure if you are getting what's coming to you in the way of dress. Do your dresses look as attractive as some of your friends and neighbors, who pay the same price? Does the material put in your dress have the quality that you pay for? If you get the right goods at the right prices you are bound to overcome a lot of difficulties. We are showing a beautiful line of Summer Dress Goods and Trimmings, and we are sure we can please you. Our time against yours—will you look?
