The brand of weather which we have been having the past six or eight weeks ought to draw tourists from all parts of the country. The "sunny south," of the "golden gate," cannot be more inspiring than the genial sky of Nebraska with the glow of the noon day sun enlarging the mental horizon and stimulating the physical activities to greater efforts and crowning the days work with pleasure and satisfaction.

On a short distance away and already the spirit of Christ-

mas, spreading good cheer and fellowship, is abroad in the land. This is the one time of the year when we cast the trials and difficulties of life aside and begin to think what we can do to lighten the burden of the other fellow. The little ones, of course, are always delighted with this season of the year and freely confess their pleasure. The older ones catch the inspiration and the whole world is the gainer. So here's a welcome to the spirit of Christmas, Santa Claus, neighbors, friends and everybody.
