FRANK HOFFER.

The robins, blackbirds and a host of songsters say that spring has arrived but have you quit using coal? When is spring anyway?

The American reporters along the Mexican border seem to be taking lessons from the Turks. One day Villa is surrounded, the next day he is not surrounded, he has lost a leg, he has not lost a leg, he will be captured in a very few hours, he has escaped and so on and so forth. These enterprising reporters seem to think that the American people like to have something to thrill over, at any rate they are doing their level best to keep on the front page of all dailies. When the Turks resort to misrepresentation we say that they are very subtle and sly and that they perform that was because "it is their nature to" but when our own citizens use the same methods it brings to mind a snappy word sometimes used by one of our ex-Presidents.

The board of education has a hard nut to crack. The bids for the new high school building are about fifty per cent in excess of available funds and it looks like everything would have to be done over again. It has been suggested by a number of persons that to duplicate the Lincoln building would be an excellent solution of the problem. That building was erected at a cost of \$20,000 and it would seem that it would be large enough for the high school. The interior would need different arrangements but that ought not to be very expensive. Allowing fifty percent increase to the cost of materials the Lincoln building could be duplicated and still remain within the \$35,000 voted. We understand that the board already has the plans and specifications for that building. This suggestion is worthy of careful consideration and it might meet all the needs of the district.

Plan to witness Sarah Bernhardt's last and greatest achievement, a five act tragedy, which will be shown at the Orpheum on next Tuesday evening.

FOR STATE TREASURER

HARRY ADAMS

Democratic Candidate

Present Treasurer of Dawes County

A vote for him means, placing the State Treasury on a proper footing and the elimination of the present method of public office for personal and family benefit.

Vote for Harry Adams, a real democrat, for State Treasurer.

MAYOR CHAS. W. BRYAN

Democratic Candidate For Governor

Mayor Bryan favors the re-election of President Wilson.

Endorses business administration of Governor Morehead.

Mayor Bryan is urging a reduction of telephone rates. He defeated the fire insurance combine bill in last legislature, saving fire policy-holders probably \$800,000.00 annually, and will continue to favor competition in rates. Favors scientific good roads building under supervision of state and county engineers. Favors rural credits system for farmers. Favors state hail insurance. Urges public development of water power to furnish cheap electric current to light homes and operate machines on farms and in factories, to supply heat and to operate interurban railways.

These practical and constructive measures are in operation in other parts of the country but impossible in Nebraska on account of interference of special interests under leadership of boozie interests and their lobbyists. Help drive them out and legislate for Nebraska people the same as has been done for Lincoln people. Free the party and party machinery from interference of the special interests, and elect all county and state officers under the leadership of Mayor Bryan as candidate for governor, who has had experience in executive affairs and who has a record of achievement in Lincoln Primaries April 18.

Are You Wasting The Price Of a Titan Engine?

TITAN engines run on kerosene.
Average cost of gasoline so far this year, 16.9 cents per gallon.
Average cost of kerosene 7.7 cents per gallon.
Gasoline costs over 100 per cent more than kerosene. Gasoline is going up steadily. Kerosene is not.
At present fuel prices Titan engines, using kerosene, save their owners about 1.1 cents per horse power per hour.

Are you running a gasoline engine? What horse power is it? Figure what you'd be saving if you had a Titan kerosene engine. Rather surprising, isn't it? How long would it take that saving to pay for a Titan engine of the same size?
