Corn planting time is here. A number of the farmers surrounding this city were in their fields planting the golden grain this week. The season is apparently backward but it may make up for lost time within a week. At any rate many farmers think that

the early corn is, one year with anoth-

er, the best.

A reduction has been made on electric light consumption for the residents. The rate for homes has been reduced to twelve cents a kilowatt and this will undoubtedly result in many more houses being lit up with electricity. There is no question but what this is the best light and at the present rate it is practically as cheap as any other. There are no chimneys to clean, no lamps to fill or tip over and the house has more light.

INAVALE

Roy Palmer and Haly Lawson went to Hastings, Monday.

Mable Koontz, of Red Cloud, spent Sunday with Maude Moranville.

Can You Afford Any but a Titan Kerosene Engine?

AT present average prices for kerosene and gasoline, Titan kerosene engines save their owners about 1.1c. per horse power per hour over gasoline engines.

Figure it this way. On an 8-horse engine the saving is 8.8c. an hour, 88c. in a 10-hour day, \$88 in 100 days of work. Say that is all your engine does in a

It would cost you \$88 more than you need to pay, to run an 8-horse gasoline engine one year. That is more than a third of the price of the engine. Can you afford to throw away \$88 a year? Can you afford even to think of buying a gasoline engine, when you can get a Titan that uses kerosene? See the Titan dealer and talk this over. He has some interesting figures to show you.
