

WIFE TOO ILL TO WORK IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy."

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy. If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

New Fish Bait Declared Good. The United States bureau of fisheries reports that on the last cruise of the Fish Hawk in Chesapeake bay samples of grayfish meat, put up in brine, were distributed among crab fishermen and dealers, to test its value and the possibility of introducing it as a substitute for some of the baits now on the market.

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of Dr. J. C. Fletchler in Use for Over 30 Years. Children Cry for Fletcher's Castoria

Aeroplanes for Explorers. Aeroplanes are to be included in the equipment of an exploring expedition that is setting out from Buenos Aires to study a little-known region which includes Mar Chiquita, a lake having an area of some 1,000 square miles, located about 350 miles northwest of Buenos Aires. It is the belief of the explorer that with aeroplanes it will be possible to secure panoramic photographs which will prove invaluable in showing the topography and geography of the country.

HOW TO REMOVE DANDRUFF Itching and Irritation of the Scalp With Cuticura. Trial Free.

On retiring lightly touch spots of dandruff, itching and burning with Cuticura Ointment. Next morning shampoo thoroughly with Cuticura Soap and hot water. These super-creamy emollients do much to keep the scalp clean and healthy and to promote hair growth.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Hinges of true friendship never grow rusty.

Is Work Too Hard?

Many kinds of work wear out the kidneys, and kidney trouble makes any kind of work hard. It brings morning lameness, backache, headache, nervousness, rheumatism and urinary troubles. If your work is confining, strains the back, or exposes you to extreme heat or cold or damp, it's well to keep the kidneys active. Doan's Kidney Pills are reliable and safe. Thousands recommend them.

A Nebraska Case

G. W. Ault, prop. City feed store, St. Paul, Neb., says: "Since I have been in the produce business I have been broken down with backache. At times I couldn't lift the lightest weight and went around in misery. I often got dizzy and felt generally run down. Doan's Kidney Pills fixed me up in good shape and I am very grateful."

IN A STATE OF WAR

TECHNICALLY AT PRESENT IN HOSTILITIES WITH MEXICO.

PEACE MOVE AFTER ELECTION

Will Ask President to Take Initiative in Neutral Conference—Meat Profits Are 8 to 38 Per Cent.

Western Newspaper Union News Service. New York—Judge Advocate General Crowder, United States army, has rendered a formal decision holding that the United States is at war with Mexico. A decision was made necessary in order to cover the legal procedure dealing with numerous incidents connected with the punitive expedition of United States troops into Mexico, the nature of these incidents being various offenses committed by United States soldiers, demanding that the judge advocate general's office should define the status of the Mexican campaign.

Washington.—Retailers' profits in sales ranged from 8 to 33 per cent on meats prepared at the great centralized markets of the country, and from 15 to 38 per cent on sales of farm-prepared meats. Those gross profits were disclosed in a report by a committee appointed by the secretary of agriculture to consider economics of the meat situation. The report concluded a series of five on various phases of the situation and relates to methods and cost of marketing live stock and meats. The farmer's share of the gross returns from centralized market meats ranged from 54 to 85 per cent while from 2 to 5 per cent went to pay market expenses and 2 to 9 per cent was received by the packers. On locally prepared meats from 62 to 85 per cent of the gross returns was received by the farmer and from 15 to 38 per cent by the retailer.

PEACE MOVE AFTER ELECTION

President Will be Asked to Take the Initiative.

New York.—A petition to President Wilson asking that the United States take the initiative in calling a neutral conference of nations, with a view to terminating the European war, will be sent to the president after election day, it was announced here by the American neutral conference committee, of which Hamilton Holt of this city is president and of which four governors are members.

Copies of the peace petition, which it is declared already has been signed by 150,000 persons in England, are being circulated throughout the country by Miss Rebecca Shelly of Detroit, secretary of the organization. The document quotes statements of belligerent countries in an effort to show direct or implied approval of peace moves by neutrals. It is stated that the leading American peace societies approve the object of the committee which is made up of 100 prominent American citizens.

Cornhuskers Win 17 to 7.

Portland, Ore.—After traveling 1,800 miles from the middle of the continent to the western rim, the Nebraska Cornhuskers Saturday gave a decisive demonstration of the fact that Missouri Valley football is superior to the article in the Pacific northwest. Facing the Oregon Aggies in the stadium of the Multnomah Athletic club and in the presence of the greatest gathering of gridiron devotees in the annals of Portland football, the Huskers fairly smothered the Oregon Aggies, achieving a triumph of 17 to 7. Nebraska's victory was based solely on merit.

Orders for 200 Aeroplanes.

Washington.—Orders for more than 200 aeroplanes have been placed by the war department as a first step in expansion of the aviation service under the army reorganization bill, and contracts for about 100 additional machines of various types probably will be awarded in the near future.

Deny Women Equal Rights

St. Louis, Mo.—Women were denied equal rights with men in actions taken by the house of bishops in the Protestant Episcopal general convention in session here. A proposal to permit women to sit as delegates in the general convention was rejected, while a request from the Right Rev. Logan H. Roots, bishop of Hankow, to allow women membership in his advisory council was denied. The house suggested to the bishop of Hankow, it was stated, that he might create an auxiliary council of women.

London.—Parliament after a set debate in the house of commons, decided that it was undesirable at present to discuss Irish controversial domestic policies. The Irish question was brought up by John Redmond, the nationalist leader, who introduced a motion declaring that the present system of government in Ireland is inconsistent with the principles for which the allies are fighting. The debate brought out that the government does not intend at present to change its policy toward Ireland or that conscription is to be applied here.

CLOCK TO BE DEPENDED ON

Cleveland Claims the Record of Having the Most Accurate of World's Timekeepers.

In the Case School of Applied Science in Cleveland there is a clock that holds the world's record for accurate timekeeping. Over a period of several months it showed a variation of only eight-thousandths of a second a day, which, in a year's time, would be less than three seconds.

Ship chronometers, which are the most accurate time measuring instruments in general use, cannot keep true time within less than three to five seconds a month. Marine observations are absolutely dependent on accurate timepieces, but ship's officers have to be satisfied if they can adjust their chronometers so that they will either gain or lose a certain amount each day. Then they add or subtract and get absolutely correct time.

This Case clock, says the Youth's Companion, stands on a stone pier, independent of the building, that extends sixteen feet to a natural shale foundation. It is in a small room surrounded by two other rooms, all built with brick walls. Gas stoves heat the outer rooms, and electric contact thermometers regulate the temperature. The gas stove flame automatically rises or falls with the variation in the outside air temperature. Thus on warm days in August the flame in the gas stove is very low, while in below-zero January it burns at its brightest. In the clock room itself the temperature is adjusted by an ordinary sixteen-candle power incandescent lamp that is flashed on and off by another electric contact thermometer. The school strictly enforces the rule that there must never be more than two persons in this inner room at one time.

The clock, which stands five feet high, has three separate dials that register the hours, minutes and seconds. It is inclosed in an airtight glass jar, inside of which are delicate instruments for measuring temperature, atmospheric pressure and moisture. A small amount of chloride of lime, which is an efficient desiccating material, is kept always in the jar to absorb the moisture.

By the aid of a set of dry batteries the clock automatically winds itself every seven minutes. The movement is adjusted slow or fast by pumping air in or out of the glass container. Observations are made from the outside through double glass windows through the separating walls and by means of a small electric lamp placed over the dials.

Not only can this wonderful piece of clock mechanism be adjusted to show less than a three second annual variation, but it is also possible to make electric connections with other similar clocks elsewhere. With this as a master clock the others can be made to keep the same accurate time.

Cripple Who Made Good.

An interesting case that came before the federal employment agency of the United States was that of a cripple who applied at the New York office for a position as barnman on a dairy farm. The government's labor agent sent him to a dairy farmer who had applied for help. When the cripple arrived at the dairy farm, the farmer, greatly incensed at the man's infirmity, refused to let him go to work, and immediately communicated to the agent his indignation at being supplied with "a poor excuse for a man." The agent insisted that the farmer give the cripple a chance to show his ability. Also, he made the proposition that instead of the \$25 a month named as wages in the former agreement, the cripple should be allowed to work at the rate of a dollar a cow per month, he to milk all the cows he could handle. The farmer took the agent up on this offer, with the result that the cripple has been getting \$30 a month for his work.—World's Work.

External and Internal Use.

"Yes," he said, "we must cut down and economize. I've brought home a sample bottle of very cheap claret, which I think I shall have to drink in the future."

"Good!" she responded. "And I have made a pint of furniture polish from an old recipe, ever so cheaply."

It was a few days afterward that the breeze arose.

"How was I to know," he stormed, "that you'd put your furniture polish into a wine bottle? Great wonder I'm not poisoned!"

"And how was I to know I was polishing the table with your old claret?" she fired back. "Anyhow, it answered very well, and when you drank the furniture polish you said it was a very good wine for the price!"—Pittsburgh Chronicle-Telegram.

Turkish Food Supply.

A Wolff telegram from Constantinople published in the German press states that a special committee has been appointed to work out the details of a central scheme for the organization of the Turkish food supply, and especially of the grain harvest, the government having recently set aside a sum of £30,000,000 for the establishment of the department. Municipal authorities have already received instructions to buy up stocks and to have them distributed to the population in certain quantities at moderate prices.

After It.

Jo Coze—Is Mr. Downham in? Ina Stenog—No, he went out to lunch.

Jo Coze—Will he be in after lunch? Ina Stenog—No, that's what he went out after.—Chaparral.

INTERNATIONAL SUNDAY SCHOOL LESSON

By E. O. SELLERS, Acting Director of Sunday School Course, Moody Bible Institute, Chicago.

LESSON FOR OCTOBER 29

THE VOYAGE.

LESSON TEXT.—Acts 27:1-38. GOLDEN TEXT.—Commit thy way unto Jehovah; trust also in him, and he will bring it to pass.—Ps. 37:6.

Paul sailed from Caesarea August, A. D. 59 (Ramsey), a few days after his address before Agrippa. He reached Malta about November 15. Paul knew how to meet mobs, but none of his adventures are more outstanding than the one we are studying today. Luke, his physician, was a companion, and the historian, Josephus, states that on board the ship there were more than 600 people traveling with Paul. Paul was a man of distinction, a Roman citizen. He had his own hired house in Rome. Aristarchus may possibly have been his servant to furnish comfort for the journey. Ramsey believes Paul had received hereditary property, thus making him a Roman citizen of rank, of learning and of standing financially.

I. Fair Weather and Contrary Winds (vv. 1-12). Sidon was about 70 miles north of Caesarea on the coast of Palestine. Here Paul received liberty to go ashore and visit his Christian friends. Myra is in Asia Minor. It requires 14 days to reach this point from Sidon, a distance of about 400 miles. Here, instead of going up the Aegean sea route, often used in going to Rome, the centurion found a grain ship bound from Alexandria to Italy, and put his prisoners on board. September 1 they started for Italy. The direct course would have been westward, but the wind was contrary, and the progress was slow. On the 23d they were opposite Cnidus, the southwest point of Asia Minor, 130 miles from Myra. September 25 they entered the harbor of Fair Haven, near the middle of the south shore of the island of Crete. The fast day, October 5, the day of the great atonement, was observed in this place. The question of going farther was a debatable one, yet the commander persisted, and about the 10th of October they sailed for Fair Haven.

II. The Hurricane (vv. 13-20). Taking advantage of a gentle wind they put out of Fair Haven, and almost immediately encountered the hurricane. It was perhaps hard for Paul during those 14 days to discern the wise, gentle hand of God. (Jonah 1-4). God's most faithful servants do not always find smooth sailing. (Phil. 4:6, 7; Isaiah 26:3; John 16:33), but they may, no matter how fiercely tempest tossed, know that God has not ceased to look upon them with favor. Sometimes the best thing for us to do, when thus tempest tossed, is "to lighten the ship" (v. 18).

III. The Message of Cheer: "I Believe God" (vv. 20-26). Neither sun nor stars having shone for many days, and all hope that any should be saved seemingly taken away, yet God is able to save in the darkness as well as in the sunshine, in the tempest as well as in the calm, and there was in that boat one man at least whose hope was not gone, for God had said to him, "Thou must bear witness at Rome also" (23:11). Paul's message of cheer in the midst of this despair and after they had been so long without food, immediately stamped him as a leader of wisdom and power.

Paul could make this promise because "an angel of God whose I am and whom I serve" had come to him and assured him that God would redeem the promise made two years before. This implies that Paul had given himself to prayer. Observe how one godly man can save many ungodly men (Gen. 18:22-33). God's vision came to Paul, but Paul used it for the comfort and cheer of the whole ship's company (II Cor. 1-4). A modern illustration of a similar experience was that of Mr. Moody and General Howard, returning from Europe on the steamship Spree in 1892.

General Howard relates that Mr. Moody did a great deal to cheer the passengers, by both his words and his actions, during those days of stress and storm. The darker and stormier the night, the more likely are the angels of God to appear if we are indeed his (v. 23; Cf. Ch. 18:9-23:11). Sometimes these angels stand beside us and we do not see them, we are taken up with the darkness and the howling of the storm. It is a great thing to be able to look up to the infinite God and say, "I am his." To make this statement intelligently, and with a deep realization of its meaning will give significance and solemnity to all.

IV. Paul, the Life Saver (vv. 27-37). Paul did not stop with simply saying that God was his, but went on to say, "Whom also I serve." Many say they are God's but do not prove it by their lives of service. Paul loved to think and speak of himself as the servant of God (Rom. 1:9; II Tim. 1:3; Titus 1:1). Some of the sailors thought to launch the boat, leaving the passengers to their fate.

All the hurricanes that ever struck the sea or the ships of the sea could not prevent the fulfillment of God's promises, and Paul fully accepted the significance of God's word "fear not."

W. L. DOUGLAS "THE SHOE THAT HOLDS ITS SHAPE" \$3.00 \$3.50 \$4.00 \$4.50 & \$5.00 FOR MEN AND WOMEN. Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World. W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wearer protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them. The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy. Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free. LOOK FOR W. L. Douglas name and the retail price stamped on the bottom. W. L. Douglas Shoe Co., Brockton, Mass.

WOMAN HAD TRUE CHARITY

Refusal to Judge Others Harshly Proves Possession of the Highest Christian Character.

There died a short time ago a woman who never occupied, or aspired to occupy, a conspicuous position in the world but who was beloved by all who knew her. The secret of her charm lay in her charity—not the charity of almsgiving, although she was always openhanded to those in need—but the broader charity that consists in leniency toward the frailties of others. When gossip, even gossip not unduly harsh, assailed man or woman she invariably met it with the one response: "Well, now, maybe if you knew all about the case you'd find the poor man (or woman) wasn't so much to blame after all."

What an insight into a Christian character that remark conveys. And what a lesson in Christian charity it teaches. It is the Ten Commandments in a single sentence. Philosopher or theologian never uttered a more beautiful thought for mankind to ponder over. Epigram maker never directed a more perfect shaft.

What a different world it would be if everyone judged the world's people that way.—Youngstown Telegram.

Cardui Wins Suit.

After a trial in the United States District Court of Chicago, before Judge Carpenter and a federal jury, the jury found the American Medical Association guilty of libeling Cardui, the woman's tonic, which they had denounced as a "nostrum."

This is a vindication of the medicine and a proof that it has merit, which was recognized by a jury after a trial of three months, one of the longest civil cases on record.

Many doctors and chemists testified on both sides and the evidence totaled nearly four million words.

Then She Called Him a Brute.

"Oh, Jack, I expect I shall be awfully stupid now," said the young wife, when she returned from the dentist's. "How's that?" asked her husband, in surprise.

"I've just had my wisdom teeth pulled," she mourned.

"Oh, dear one, the idea that wisdom teeth have anything to do with wisdom is quite absurd!" hubby reassured her. "If you had every tooth in your head pulled, it couldn't make you a bit stupider than you are now, you know."

A dog's tail is a great wag.

Astonishing Power of Iron to Give Strength to Broken Down Nervous People

Physician Says Ordinary Nuxated Iron Will Increase Strength of Delicate Folk 200 Per Cent in Two Weeks' Time in Many Instances.

NEW YORK, N. Y.—In a recent discourse Dr. E. Sauer, Specialist, of this city, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down, and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fading vital powers for the moment, maybe at the expense of your life later on. No matter what anyone tells you, if you are not strong and well you owe it to yourself to make the following test: See how long you can work or how far

LINCOLN SANITARIUM SULPHO SALINE SPRINGS. Surgical Department. Entirely new and isolated from other departments. Obstetrical Department. Furnishing an unexcelled service for the care of mother and child. SULPHO SALINE SPRINGS. Located on our premises and used in the Natural Mineral Water Baths. DR. O. W. EVERETT, Mgr. 14th and M Sts. Lincoln, Neb.

Nebraska Directory THE PAXTON HOTEL Omaha, Nebraska EUROPEAN PLAN Rooms from \$1.00 up single, 75 cents up double. CAFE PRICES REASONABLE.

Astonishing Power of Iron to Give Strength to Broken Down Nervous People

you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the time double and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good, sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed by most druggists. If your druggist or general store is without a supply, ask them to get it for you.—Adv.
