Lecture on Christian Science

THE SCIENCE OF MIND

The Science of Mind which Mrs. Eddy taught in Science and Health is the science of knowing Truth. It is the Science Jesus meant when he said, "ye shall know the truth, and the truth shall make you free." How can we know the truth except through thought? If we can know truth only through thought then truth itself must have its source in Mind. The Scriptures teach us to know God, to love Him and to obey Him. "Hoy can we follow these commands except through consciousness? The Scriptures teach that man was born of God, that all the marvels of the universe were created by Him. How are these marvels possible except we grant that God is Supreme Mind? Mind is the source, the origin of all intelligence, all law, all order. Mind is Life, the creator of all the manifestations of life, and these manifestations are the ideas of God. Therefore, God and His creation dwell in the heaven of Mind.

When we remember that science, even as humanly defined, is the orderly and systematic classification of ideas "made available in life or the search for truth," we can at once see the fitness of applying the term science to Christianity. "Order," said Pope, "is Heaven's first law." God manifests Himself to men through order, through law, through science. We should attempt to imagine that He who, through all eternity, upholds the universe by His wisdom would do less than reveal Himself to men in an orderly, scientific, perfect way. This God does, and this Mrs. Eddy discovered, and this—the Science of Mind,—she gave to the world in her great textbook, "Science and Health with Key to the Scriptures."

BELIEF VERSUS UNDERSTANDING

The student of Christian Science learns to know and rely upon spiritual law, the law of good. By repeated tests he proves this law and makes it applicable to all the affairs of his daily life. He discovers that back of spiritual law is the omnipotence of God which renders this law irresistible in operation. One of his first discoveries is to distinguish between the operation of spiritual law and the false action of human beliefs. Following the leadings of spir-

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

ROYAL BAKING POWDER CO.

itual law, he continually rises in conscious knowledge of God and His ways, and constantly adds to his enduring riches of gladness, peace, meekness and love. Human beliefs have no enduring basis. They are merely the merchandise of unstable human opinions. Mortals assent to them because they have been taught to accept appearance for reality. Their number is legion, but through knowing spiritual law they can be detected and their erroneous conclusions reversed. When Paul raised Eutychus from the dead he proved that the human belief called "accident" cannot deprive a man of life. When Mrs. Eddy healed the man of hip disease, as described on p. 132 and 133 of Science and Health, she proved that the man had been suffering from a false belief which spiritual law destroyed. THE JOY OF SPIRITUAL LIVING

If God is a never failing refuge from the ills of mortal existence it would not be a difficult matter to love God and our fellow-men, and to "Rejoice, and be exceeding glad," as the Master taught us to do. An analysis of our thought will show us that the reason we have failed to attain this joyousness described in the Bible, is because we have not distinguished between right thoughts and wrong thoughts, and consequently we have often become the victims of the latter—even when striving to gain the good. Christian Science furnishes the key to the truths of the Bible. When thought is uplifted and purified, through the study of the Bible and Science and Health, the student detects the difference between spiritual ideas and sensuous concepts just as readily as the musician discerns the difference between tones that are false and tones that are true. When our thought is conscious of its oneness with divine Love it is impregnable to every assault of discord or fear.

JEWELRY

Jewelry is the Thing to Give for Christmas

It has *More Love In It*—'Tis "Sentiment" that makes life sweet. Give Christmas presents to those you cherish. Their appreciation will be the dearest thing in life to you. And they will enjoy and esteem their presents when they come from our store; Our NAME INSURES THE QUALITY.
