SEARCHLIGHT SHOWS "HOME" TO NIGHT FLYER

This extraordinary photograph shows the return of a French Bourget plane after a night trip over the enemy's lines. It is not a simple matter, making a landing or finding "home" in the darkness of the night. The searchlight is powerful enough to illuminate the surrounding territory and show the way to the air pilot. The plane is shown making a landing in the full glare of the searchlight.

LAND OF BORROWED DELIGHTS

Italy's Oranges, Lemons and Chestnuts Imported From Other Countries.

A large part of the beauty of the verdure and forest of Italy that attracts the visitor's attention was unknown in the olden times, and is not properly Italian at all, but imported. The favored groves of orange and lemon, with their golden fruit glistening among the rich and sappy foliage, breathe of the Levant and the dark-skinned Sarcenic invaders from the East. The cactus, with its prickly pear fruit, called the Indian fig, and the aloë came straight from Mexico on the heels of the Spanish adventurers into the unknown in the sixteenth century. So did the American corn or maize. Even the eucalyptus is an importation, a modern one, and the great groves of chestnuts that clothe the shaggy mountain sides so verdantly and give occupation to so many vendors of the hot and pasty boiled nut are believed not to be native.—National Geographic Magazine.

MAY CALL A STRIKE

OFFICIALS SAY SITUATION IS SERIOUS ONE.

IS USELESS TO NAME TERMS

German Papers Claim Peace Terms Have Been Rejected—Senate Endorses President's Note to Belligerents.

Western Newspaper Union News Service Washington.—Paralysis of the nation's railroads through a strike may be near.

"It is more than a possibility," according to official word here, following a conference between Warren S. Stone, head of the engineers, and Attorney Willis, counsel and legislative agent of the big four brotherhoods.

Thursday, the chiefs will meet to consider the situation growing out of the fact that the Adamson eight-hour law is not operating and that its constitutionality has not yet been decided.

Afterward, the leaders may call a strike, it was stated.

While this portentious news was being announced, Representative Adamson introduced a resolution in the house covering President Wilson's program of railroad legislation in what Adamson, formerly a judge, regarded as a court proof fashion.

This resolution called for an out and out eight-hour day as an amendment to the railroad safety act.

Senate Endorses Note

Washington.—The senate adopted the Jones amendment to the Hitchcock resolution, endorsing President Wilson's note to belligerents as follows:

"Resolved, That the senate approves and strongly endorses the request by the president in the diplomatic notes of December 18 to the nations now engaged in war, that the nations state the terms upon which peace might be discussed."

The vote was 48 to 17.

USELESS TO NAME THE TERMS

German Papers Say Peace Terms Have Been Rejected

London.—Publication of German peace conditions would be useless in view of the attitude of the British and French press, according to the Berlin Lokal Anzeiger as quoted in an Amsterdam dispatch to Reuters. The Anzeiger bases its opinion on the resolution in the French senate that France could make no peace with an enemy who occupied French territory.

"Publication of our condition," says this paper, "would now be undignified and moreover would not be the least use. The evacuation of French territory is made a preliminary condition for peace negotiations. Though this condition is not contained in the entente note it still exists and therefore it is the French senate and the French government who render impossible the publication of our peace conditions."

"We must show to the door any neutral who should dare to demand from us that we should regard as an invitation the words of the reply 'a suggestion without conditions of opening negotiations is not peace offer.' We must refer such a neutral to the resolution of the French senate."

Congressman Reavis Lauds Farmers

Washington.—Representative C. F. Reavis enlivened debate on the agricultural appropriation bill by lauding the farmers of the country and answering statements of Representative J. Hampton Moore, of Pennsylvania, belittling agriculturists. Declaring that if Mr. Moore were the farmer's friend, the farmer should be saved from this friend. Mr. Reavis said the farmers kept the world from starvation. "He is in a business that naturally touches more of humanity than all other business in the world," said Mr. Reavis, "and appropriations for the farmers are for the benefit of the race that must be fed."

Hutchinson, Kas.—With the discovery that osage orange hedge tree roots can be utilized in the manufacture of a substitute for dyes of German make, farmers near here are grubbing out their hedge fences and disposing of the roots to buyers of eastern dye manufacturing concerns.
