Steward and Hamilton Win Prizes in Denver

The big National Western Live Stock Show is the leading event on the calendar in the city of Denver, the dates of same being January 20th to 27th, inclusive. A reader of the Chief who is in attendance there informs us by special message that it is all that can be desired in the way of an exhibit of live stock, the entries being more numerous than in any previous year. He states that our State is well represented and that the showing made by our farmers and stockmen is the envy of our mountain states competitors and that herds of stock from all over the United States are on exhibition.

It is with much pleasure that we note in his communication that two of our near neighbors who made a shipment of stock from here last week were successful in landing some of the honors.

J. M. Steward and Son were awarded four prizes, their roan senior yearling Shorthorn bull drawing fourth prize out of an unusually large number of entries in this class. In the hog department their two-year-old Poland China sow won the first prize in her class, senior championship and Grand Championship for the best Poland China sow in the entire show, which is indeed quite an honor. Their junior yearling sow took third place in the race of that class.

He further informs us that Mr. John Hamilton of Guide Rock is wearing a smile that even surpasses the one worn by this gentleman on his wedding day, for when it came to taking home the bacon he is scheduled to arrive in this vicinity in the near future with a few liberal slices of the same. This esteemed gentleman took the fourth prize with his aged Shorthorn bull. He also scored heavy in the Poland China hog class, winning third on his two-year-old sow and first on Junior yearling sow. John also holds the first on senior boar and this animal was also reserve champion, altogether winning four first prizes and five third prizes, one reserve champion, a senior and Grand Championship in the Poland China section.

With such a large number of entries at this show we think that these two stock raisers received a very liberal amount of the honors that are being distributed among the nation's stock men, and the Chief joins hands with the many friends of these gentlemen in congratulating them. Let us hope that more of our farmers in this vicinity will join the ranks of stockmen and that when the time arrives for the next grand stock exhibition that many more of the names of our neighbors will be found in the "book of Honors".

An Evening of Pleasure

The much desired and long sought opportunity, of being assembled with the dearly beloved and esteemed C. W.'s, realized once again, for the members of the O. F. O., when on last Friday evening the members assembled en masse at the home of their worthy friend Miss Margaret Miner, and for five long pleasant hours we forgot our trials and worldly tribulations and devoted our time to the pleasantries of life.

Miss Aivena Renfro, the C. W.'s, esteemed president, acted as toastmistress and we hugely enjoyed toasts from Tracey Drulliner, Geo. Overleese, Ralph Newhouse and others of equal renown. However the members of the fair sex were not what could be considered enthusiastic over toasts and could not be persuaded to respond. Miss Mildred Mercer indeed deserves much praise for the manner in which she arranged and presided over the entertainment for this eventful evening, and the very fact that every O. F. O. had the time of his life is sufficient evidence that the whole program was carried out without a hitch.

The final spasm of the event was the manner in which the O. F. O.'s, voiced their opinion of the C. W.'s, by giving them "Three Raahs" as we'll admit that we were delighted to have an opportunity to relieve the tension and also voice our feelings for our fair friends. With the hour of one (A. M.) drawing near, and not wishing to alter the habit formed in the days of youth, that of getting in early, we parted from the scene of merriment and turned our footsteps homeward, Jupiter twinkled benignly down upon us from his lofty position. ONE WHO WAS THERE.

Will Have New Band

Not being contented with the fine work that he has accomplished in Red Cloud's musical circles, our able band master and musician, Prof. A. A. LeRoy has decided to form another musical organization to be known as the Junior Red Cloud Concert Band. Unknown to most of our citizens this esteemed gentleman has been quietly laying his plans, selecting youths of promising musical talent and instructing them, until recently the professor's secret "leaked out." When approached on the subject he gave us the names of the members of the organization and informed us that the were a promising lot of young musicians.

The members are as follows: Albert Keagle, Saxophone; Glen Keagle, Saxophone; Ernest Barrett, Alto; Millard Alles, Piccolo; Bernard Burden, Clarinet; Marshal McConkey, Clarinet; Horace Frisbie, Clarinet; Francis Lippenott, Saxophone; Schuyler Hayes, Bass. A few of the members of the old band will be used in the new band on special occasions.

Our citizens should indeed feel proud that we have such a fine musical instructor in our midst, who is devoting so much time and energy toward the advancement of our young musical talent, and when the occasion may arise should loosen their purse strings, in order to enable him to carry on this splendid work.

David M. Francis, who resided in this city several years ago but who removed to New Raymer, Colorado, passed away at the hospital in Sterling, after a short illness, on January 12th. He was born in Greene County, New York August 28, 1837, and fought for the cause of the Union, in the Civil War and was a member of the Red Cloud G. A. R. for several years. He is survived by a wife and seven children.

The following committee on legislation has been appointed by the Executive Committee of the Nebraska Chiropractic Association: Dr. Lee W. Edwards, chairman; Dr. Lyle D. Smith, Grand Island; Dr. J. T. Gallamore, Fairbury. The committee is instructed to work for a fair division of representation on state and local boards of health for the science of spinal adjustments; and also, to oppose any legislation intended to subjugate the Chiropractors to the will of the medical doctors.
