U. S. FLYERS FOUND

LIEUTS, ROBERTSON AND BISHOP RESCUED IN MEXICO BY SEARCHING PARTY.

ONE TOO WEAK TO TRAVEL

Army Aviators, Who Have Been Missing for Nine Days, Were Within Thirty Miles of the Border When Searching Party Arrived.

Wellton, Ariz., Jan. 22.-After a tramp of nine days across the Sonora desert, Lieutenant Robertson and Lieutenant Colonel Bishop, the missing United States army aviators who have been lost since Wednesday a week ago, were found by a searching party of the New Cornella Copper company about thirty miles south of the Mexican border and about sixty miles south of here. Lieutenant Robertson was brought here in the afternoon by auto, but Lieutenant Colonel Bishop was so weak that he could not be moved from where the pair were found.

Lieutenant Robertson said that he and Lieutenant Colonel Bishop landed about 12:30 o'clock Wednesday at a point in Mexico about 200 miles south of the Arizona border. Taking the water out of the radiator of the airplane the two army officers started to tramp northward across the desert. They husbanded their water as best they could. They had reached a point 30 miles south of the international line when they encountered the searching party from the copper company.

Lieutenant Robertson said that when he and Lieutenant Colonel Bishop left San Diego he set his course for Calexico by the compass. There seemed to have been a deviation of the instrument and also a drift of air

The two aviators were found in the Ajo mountains, 60 miles south of Wellton, at ten o'clock Thursday morning by a searching party composed of Winfield Paxton, G. A. Gamble and R. S. Hovattor. Robertson, when discovered, was staggering along all but dead and unable to talk much. He said that he and Colonel Bishop had landed at 12:30 o'clock in the afternoon of the day they left San Diego. They deserted their machine in a barren waste of country and started to wander in the direction which seemed to them would the sooner bring them to civilization.

Day after day and night after night the two army aviators traveled, subsisting on the food they carried with them, which was so scant it lasted but a little time.

On last Wednesday Bishop became so weak he could walk no further. He told Robertson he had better go on and save himself if he could. Robertson bade his comrade good-by and left sent out from Yuma by Colonel Wilson of the Fourteenth infantry. It will be necessary to carry Bishop 12 miles from the mountain fastness where he is located to a conveyance.

Fees Go to Road Fund

An automobile license is not a tax in the sense that a county treasurer problem cannot be solved by consumis entitled to a fee for its collection, according to an opinion by Attorney General Reed, requested by State Auditor Smith. Treasurers are entitled to fees on a certain percentage of money collected, but not in this case, Mr. Reed says.

He holds that under the law the en tire amount of the motor vehicle registration fee is credited to the road dragging fund of the county or transmitted to the state treasurer. If there diction, including the blue sky conthe county general fund.

Mr. Reed expressed the opinion that except for the administration of the license bureau of the state, every cent should be conserved for actual road work. The total amount for the state Wilson would have the companies is now about \$250,000, and may be \$500,000 before the close of the present legislative session.

Compton Case in Supreme Court

Attorney General Reed has started quo warranto proceedings in the su preme court in the case of County county. The attorney general acted on request of Republic County Chairman appearing for E. L. Platz, John Brandt and M. P. Gould, taxpayers, who complain that Compton disqualified himself for the office by violation of the corrupt practices act. Information filed by Mr. Howell alleged that Compton had admitted, in a sworn state ment of his expenses, that he had spent more than the limit permitted by law; that this statement, even so, was not complete; further, that he had violated the law by treating voters to cigars, drinks and refreshments.

For Eight-Hour Day

Day laborers will be limited to eight hours of work a day if a bill introduced by McAllister of Dakota is passed. The measure provides that "eight hours of labor between the rising and setting of the sun in all mechanical trades, arts and emplo 4 ments and other cases of labor and service by the day except in farm em ployments shall constitute a legal day's work when there is no especial contract or agreement to the contrary."

The 1915 session ran twenty-eight less legislative days than did the 1913 session. The former session lasted ninety-nine days and the latter seventy-one days. Is it possible for the present session to shatter the 1915 record? That is what more than one lawmaker is asking at Lincoln and that is what more than one lawmaker has agreed to help bring about, if it

is possible to do so. Governor Neville will ask the legislature for an appropriation to repair the governor's mansion, paint it and put it in proper shape for the next ineumbent.

STUDENTS AGAINST IT

Start Fight Against Compulsory Drill at University

A merry battle against compulsory drill at the university is promised in the organization of a group of pacifist students, who are determined to secure from the legislature a law making drill entirely voluntary, or to submit the question to a vote of the people by the initiative and referendum.

C. A. Sorenson, secretary of the legislative reference bureau, an alumnus, and Anton H. Jensen, a senior student from Blair, are the principal agitators, braska state board of agriculture, for Jensen being president of the organization. Manfred Lilliefors and Wahlre-election at the meeting of the board fred Jacobsen, both from Omaha, are at the state farm Wednesday morn-important members. They declare that the university has no right to force mi'itary conscription upon students, and they declare the only purpose of the drill is to make military propagandists.

To Amend Corrupt Practices Act

Representative Lloyd C. Thomas. who looks after the interests of the people of Box Butte and Sheridan counties, and who is a newspaper man, tion of Danielson, the secretary was has an amendment to the corrupt practices act that he will push. Under the present law a candidate need not reincluding newspaper and periodical rayel and personal expenses, but he must include all other expenditures. ncloding newspaper and periodical advertising. The exception in the present law reads: "Provided that money expended by any candidate for his necessary personal expenses incurred for himself a one, for travel and subsistence, for stationery and postage, for writing or printing and distributing letters, circulars and posters, and for telegraph and telephone service shall not be regarded as an expenditure within the meaning of this section and shall not be considered as any part of the sum herein fixed as the limit of expenses and need not be shown in the statement herein required to be filed."

Mr. Thomas cannot see why no restrictions should be placed on the printing bills of a candidate and yet the amount of his advertising be limited. For a candidate for a state office the limitation is around \$1,100. To secure insertion of a five-inch advertisement one time in all the newspapers of the state would cost between and \$500.

Must Be Co-operation.

In his address on "Some Marketing Problems for the Nebraska Farmer." before the three hundred and fifty farmers attending the Wednesday morning session of the Corn Improvers' association at the state farm, Prof. C. W. Pugsley of the extension service said that the problem of distribution was the problem demanding the attention of the Nebraska farmer today. His solution for the problem was the individual support of the farmer and the community. The distribution ers and producers individually, but must be done in the spirit of co-op eration.

Wants Roads to Foot the Bills.

Victor Wilson, a member of the state board of railway commisisoners, is the author of a bill introduced Wednesday by Senator Albert, requiring all of the companies and businesses over which the commission has jurisis a collection fee, it must come from cerns, to pay all of the costs of any investigation necessary. Under prestent conditions when a company's property must be valued or its books gone over by representatives of the commission, the state foots the bills. Mr. stand the expense.

Dedicate New Dairy Building.

The modern dairy building on the university farm campus, just completed at a cost of \$200,000, was for mally dedicated Wednesday night when regents of the university, Chanellor Avery and members of the faculty received several hundred Nebraskans in attendance at the sessions of organized agriculture.

Sheridan County Farmers in Lincoln Sheridan county farmers and business men, 170 strong, arrived in Lincoln on a Northwestern special train Monday evening, while a crowd of Lincoln people cheered and welcomed them to the city. The big delegation who were here to attend the sessions of organized agriculture, occupied half dozen coaches, with a carload of baggage, and made the long trip from the far northwestern corner of the state in about twenty-two hours' time, leav ing Rushville at 8 o'clock Sunday night.

The Dry Federation Bill. The amended dry federation bill,

drafted by W. H. Thompson's committee, was introduced in the senate Wednesday morning under the names of Beal, Chappell and Sandall. This was for the purpose of getting it before Senator Beal's prohibition committee along with other proposed dry measures, to be disposed of as the committee sees fit. The amended bill allows the consumption of liquor in the home within limits, and relieves some of the responsibilities from the druggists of the state.
