Wearing Her Out.

"Mrs. Dulwaite has been under a great nervous strain for about six months."

"That's too bad. What's troubling her?"

"Some people moved in next door who are evidently well to do, but to save her life she can't find out where they get their money."

FOR PIMPLY FACES

Cuticura is Best—Samples Free by Mail to Anyone Anywhere.

An easy, speedy way to remove pimples and blackheads. Smear the affected surfaces with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water, bathing some minutes. Repeat night and morning. No better toilet preparations exist.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Conquest Brings Delight.

Bondy and mind crave the delights of conquest. That is why we like to overcome difficulties.

Iron ore is found in almost every Chinese province, but it is mined extensively in only a few.

Recently invented stuffed animals for children have skins that can be removed and washed.

Good Health Makes a Happy Home

Good health makes housework easy. Bad health takes all happiness out of it. Hosts of women drag along in daily misery, back aching, worried, "blue," tired, because they don't know what ails them.

These same troubles come with weak kidneys, and, if the kidney action is distressingly disordered, there should be no doubt that the kidneys need help. Get a box of Doan's Kidney Pills. They have helped thousands of discouraged women.

A Nebraska Case

Mrs. Luther King, 1412 12th St., North Platte, Neb., says: "My back pained me intensely and I went around all bent over. Sharp pains of fire in the loins and I could hardly straighten. Nothing ever did me so much good as Doan's Kidney Pills. Since I used them, I have had no cause for complaint."

BOYS COMING HOME

FIFTH NEBRASKA AMONG THOSE NAMED IN ORDER.

DRAFT OF REVENUE BILL

Administration Measure as Outlined to Go Before Congress—Farm Products for 1916 Break All Records.

Western Newspaper Union News Service. Washington.—More than 25,000 national guardsmen now on the Mexican border, among them the Fifth Nebraska, have been designated by Major Funston for return home and muster out of the federal service. All these organizations will be started homeward as soon as transportation facilities can be provided. Their departure will leave between 45,000 and 50,000 men of the guard still in the federal service doing border patrol.

War department officials continue to withhold comment on reports that the movement of General Pershing's regulars out of Mexico soon will be under way and the statement announcing the guardsmen designated for relief does not connect these orders with the withdrawal plans in any way. The understanding has been, however, that with the return of the expedition in Mexico and readjustment of the border patrol all of the state troops gradually would be sent home.

Value of Farm Products

Washington.—American farm products attained a gross value of \$13,449,000,000 in 1916, making that year the greatest in point of value of any in the nation's existence. That estimate of the year's gross value of farm crops and animal products, announced by the department of agriculture, exceeds by \$2,674,000,000 the total of 1915, the previous record, and by more than three and a half billion dollars, the value in 1914. Crop production for the year was comparatively low and did not reach record figures, except in a few minor instances, but high prices sent total values up. Crops were valued at \$9,111,000,000 and animal products at \$4,338,000,000. The crop value exceeded that of 1915 by \$2,204,000,000 and of 1914 by \$2,299,000,000. Crops alone in 1916 were worth more than crops and animal products combined in any year prior to 1912.

DRAFT OF REVENUE BILL

Administration Measures as Outlined to Go Before Caucus

Washington.—A tentative draft of the administration revenue bill was completed by a house ways and means subcommittee will be laid before democratic members of the full committee and a caucus of the house democrats may be called to approve it as a party measure. The bill proposes to raise \$236,000,000 from a tax on inheritances, and \$286,000,000 from a bond issue. A provision may be incorporated later to increase to \$300,000,000 the maximum amount of certificates of indebtedness which may be issued to tide over the treasury until the new taxes come in.

The treasury now has authority to issue certificates limited to a year and to a 3 per cent interest. In levying the excess profit tax of 8 per cent upon all profits of corporations and co-partnerships in excess of 8 per cent of capitalization, the bill defines capitalization as including actual money paid in, actual property used or owned, and all surplus and undivided profits. Concerns having annual profits of \$5,000 or less would be exempt as would profits derived from agriculture or from solely personal services such as the income of professional men.

Washington.—Senator Hitchcock has made the following recommendations for appointment to the annapolis naval academy: Principal, James V. Carney, O'Neill; first alternate, Howard H. Lanet, Alliance; second alternate, Henry Jones, Tecumseh; third alternate, Myron L. Scott, Kearney.

Chicago.—All railroads entering Chicago have arranged to give coal shipments preference over all other commodities except perishable goods in order to relieve a threatened scarcity of coal.

Wants to Avoid Extra Session

Washington, D. C.—Speeding up of consideration of the legislative program was urged by President Wilson during a visit to the capitol. The president, it was learned, is very desirous of avoiding an extra session of congress. Therefore he would like to see early action on the railroad bills, a revenue bill, the Porto Rican bill, the Webb bill to allow American exporters to utilize foreign selling agencies abroad, the appropriation bills, and if possible, on several other measures.

Think Raider is the Moewe

Rio Janeiro.—It is considered almost certain here that the German sea raider, which had been creating havoc among entente shipping in the south Atlantic, is the Moewe, the German armed raider which captured the Apam and sank numerous entente ships in Atlantic waters a year ago. The American consul at Pernambuco cabled the embassy here confirming the landing of several Americans from vessels which fell victim to the raider.

In Woman's Realm

Success of One-Piece Dress Well Established, and Now Begins Exercise of Ingenuity in Designing Variations So That This Frock Won't Become Monotonous—Chat on Sports Clothes, When to Wear and What Materials Should Go into Garments.

The success of the one-piece dress goes without saying—it is already a thing of history. And now begins the exercise of ingenuity in ringing changes on this one predominant theme, so that the one-piece dress may run no risk of becoming monotonous. This has already been done with so much cleverness that the one-piece

WELL-TAILORED ONE-PIECE DRESS.

dress is farther away from simplicity than any other and we are looking for further surprises.

Here is a frock of serge, trimmed with silk braid, that scorns all intricacies in construction or decoration. It presents its straight lines, almost unbroken from shoulder to hem, and its even rows of braid, sure of compelling admiration. The devotee of the tailored suit will be easily reconciled to this aspirant for favors, in place of the skirt and coat that have held first place so long.

The usual order of things is reversed in this skirt, for it is fulled into the waist at the front and back, while the panels at the sides are plain. The short bodice follows the lines of the natural figure, and a belt is simulated by parallel rows of braid stitched at the waistline. It fastens at the left side with snap fasteners and has an open throat that accommodates a plain white collar which may be of organdie or crepe. The sleeves are plain and are not narrowed or widened at the wrist. This is in keeping with their finish of clean-cut rows of braid. Large, flat pockets at each side of the skirt are covered

is not measured by the richness of material used.

It seems that the term "sports clothes" is destined to cover attire for all outdoor life—or at least that sports clothes will hardly be considered out of place anywhere out of doors. They appear to have made for themselves a permanent place.

One of the new fabrics used for sports suits is shown above. It has a silky repellic surface, substantial weight and durability. It is one of several new fabrics, each with a name of its own, that have made a place for themselves which promises to be enduring.

In the suit pictured, the skirt is made of a cross-barred pattern in the material in which bright colors are defined against a plain ground. The sweater coat has a wide shawl collar of the cross-bar. Very large pearl buttons fasten the overlapping ends of the belt. Just now suits of this kind are worn with plain blouses of crepe de chine or of linen or fine cotton. The vogue of sports clothes have given colors a wonderful impetus. On plain grounds, broad stripes, cross-bars, disks and checks appear in bold

SPORTS SUITS IN SPECIAL WEAVES.

with braid and bound with it, in the best manner of the tailor. "Well-tailored" is written on this straightforward, businesslike dress, in its line adjustment to the figure, and in the precision and faultlessness of workmanship which commend it.

Sports clothes are a new dispensation and they have brought about a new order of things. Special goods are

but enchanting colors. This season stripes are broken with figures in contrasting colors and the introduction of Chinese and Japanese motifs has proved a valuable acquisition in working out color schemes.

Julie Bottomley

THE BASIS OF CANADA'S RICHES

A Theme Discussed by the Wall Street Journal.

In speaking of Canada a short time ago the Wall Street Journal made the statement that "The basis of Canada's riches is the fertility of the soil, and no freak of warfare can injure that while her grain will increase in demand as the population of the world grows. As an investment field Canada is worthy of consideration." These words are well worthy of attention, especially coming from such a source as this eminent financial journal. With a land area exceeding that of the United States and with illimitable areas coming under cultivation, the wealth of Canada's future can scarcely be estimated, while the wealth today is such as to bring her most prominently before the world.

During the past year thousands of farmers in Western Canada sold their crops for more than the total cost of their land. Lands at from \$15 to \$30 an acre produced crops worth \$40 to \$75 an acre. Stock raising and dairying were equally profitable.

The year 1915 saw most wonderful crops and magnificent yields over the entire country, and many farmers wiped out indebtedness that had hung over them long before they came to the country, and the year 1916 put them in a condition of absolute independence. A report to hand verified by a high official might seem marvelous, were the particulars not well known, and where are not other cases that would seem almost as phenomenal. This is a southern Alberta story: A farmer wished to rent an adjoining farm on which a loan company held a mortgage. The applicant said he wanted the first ten bushels of wheat, after which he would divide, giving the loan company one-third. After threshing he paid into the bank at Calgary \$16 per acre for every acre cultivated, to the credit of the loan company, as their share or their third of the crop. Sixteen dollars per acre rent. His two-thirds was \$32 and in addition the first ten bushels of wheat. Land on this same security can be purchased for from \$16 to \$30 per acre. Wonderful yields are reported from all parts of this district. Recently 4,040 acres of a ranch were sold to an Illinois farmer; 300 acres of wheat in 1916 produced a yield that averaged 42½ bushels of wheat per acre. George Richard, formerly of Providence, R. I., on a southern Alberta farm got 2,052 bushels of wheat from a 50-acre field, or over 40 bushels per acre, and from a 50-acre field of oats got a return of 70 bushels per acre and still had some sheaves left over for feeding.

A report just issued by the Alberta government gives the yield of wheat in the showing of 1916 as 28 bushels per acre; 45 bushels of oats and 30 bushels of barley.

Travelers through Alberta's wheat belt have had revealed to them scenes of agricultural productiveness unapproached in any other part of the world.

Alberta farms, selected with even moderate discretion, have raised men to independence and affluence with records of wonderful development unsurpassed amongst the phenomenal industrial success of which Canada well may boast.

Many almost incredible yields have been reported by reliable authorities, wheat exceeding 70 bushels per acre and oats 145 bushels.

Numerous records show that the cost of farms has been more than repaid by this year's crop. In one instance, land purchased for \$3,200 produced wheat which was sold for a little over \$10,000.

During the year 1917 there will be an immense amount of labor required to take care of the crop in Manitoba, Saskatchewan and Alberta.

One of the problems which Western Canada has to face every year is the securing of an adequate supply of labor to handle the harvesting and threshing of its big crops. This problem, indeed, is always present in any country that has a big agricultural production; in the case of Western Canada it is enhanced by the comparative sparsity of population and the long distance from industrial districts, which can be expected to offer a surplus of labor.

In Western Canada the present difficulties are increased by the war. A very large number of Western Canada's small population have enlisted for service with the Canadian forces in Europe, and at the present time there is generally speaking no surplus of labor for the ordinary channels of industry, to say nothing of the abnormal demands of harvest time. The situation, however, has to some extent been met by the action of the Canadian militia department, who have released all such men who are still in training in the western military camps and who desire to engage in harvest work for a period of generally one month.

The actual number of men engaged in 1916 in harvest work was between forty and fifty thousand. Wages were higher than usual, running from \$2.50 to \$4.00 a day with board, and from \$35 to \$60 a month.—Advertisement.

Well to Remember.

Brain used in getting ready for a task saves brawn afterward.

An oil workers' trade council has been formed in the oil fields of Oklahoma.

ENDS DYSPEPSIA, INDIGESTION, GAS

"Pape's Diapepsin" cures sick, sour stomachs in five minutes—Time It!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adv.

Overowed.

"Take this grocery bill around to Mrs. Grabsco, see her in person, and say that we must have a check at once."

"If it's all the same to you, boss, would you mind sending somebody else?"

"What for?"

"When that woman stares at me through her lorgnette I can't talk business."

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Wm. D. Galt* In Use for Over 30 Years. Children Cry for Fletcher's Castoria

Immensely Flattered.

"I went to town with Mrs. Twobble this morning," said Mrs. Dulwaite. "I thought you said you would never speak to that woman again," replied Mr. Dulwaite, with a superior smile. "Well, she asked me to go along and advise her about some new draperies for her living room and of course no woman could resist a compliment like that."

What the Doctor Knows

KIDNEYS MUST BE RIGHT TO INSURE HEALTH.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's Disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in one year, in the State of New York alone. Therefore, it is particularly necessary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Bladder-Root, the great kidney, liver and bladder remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

When your kidneys require attention, get Swamp-Root at once from any pharmacy. It is sold by every druggist in bottles of two sizes—50c and \$1.00.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper. Adv.

Making an Early Start.

"I don't want my hair curled," said Bobbie, aged three, and then added with a stamp of his foot: "I won't have my hair curled like a girl."

"Why, what objection have you to girls?" asked his mother, in surprise. "Ah, they make me tired," said the man in miniature, disdaining to be more explicit.

ACTRESS TELLS SECRET.

A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

Clothes to Burn.

"These musical comedy queens lend joyous lives."

"Oh, they are not always as happy as they look on the stage."

"Shucks! What woman would fail to be happy who would appear every fifteen minutes in a different gown?"

Force of Business Habit.

"That man has such a pushing manner."

"It is not surprising when you stop to think he manufactured electric buttons."
