

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never grope or sicken. Adv.

Thirteen Lucky Miles.

Patience—I see that 13 per cent of the line of a railroad being built in Switzerland will be through tunnels. Patience—That is a case where no girl, however superstitious, could possibly think thirteen unlucky.

Alfalfa seed, \$6; Sweet Clover, \$8 J. W. Mulhall, Sioux City, Ia.—Adv.

Amusing.

Bill—The business men of Sacramento, Cal., have formed a Barefoot league for health and amusement objects.

Gill—I fail to see where health is helped, but I can see the amusement part when another brother steps on a tack.

LIFT YOUR CORNS OFF WITH FINGERS

How to loosen a tender corn or callus so it lifts out without pain.

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug dries at once and simply shrivels up the corn or callus without even irritating the surrounding skin.

A small bottle of freezone obtained at any drug store will cost very little but will positively remove every hard or soft corn or callus from one's feet.

If your druggist hasn't stocked this new drug yet, tell him to get a small bottle of freezone for you from his wholesale drug house.—adv.

A gauge has been invented for accurately determining the amount of moisture in lumber.

Every dentist does a wide-open business.

Boschee's German Syrup

We all take cold some time and everybody should have Boschee's German Syrup handy at all times for the treatment of throat and lung troubles, bronchial coughs, etc. It has been on the market 51 years. No better recommendation is possible. It gently soothes inflammation, eases a cough, insures a good night's sleep, with free expectation in the morning. Druggists and dealers everywhere, 25c and 75c bottles. Don't take substitutes.

A STRENUOUS WEEK

CONGRESS WILL BE CONGESTED WITH WORK AT END OF WEEK.

WILL COLONIZE BELGIANS

To Put 30,000 in Lands in Imperial Valley—Explains Note on Prohibition Bill.

Western Newspaper Union News Service. Washington.—With the filibuster in the senate against revenue legislation broken, after one of the most tempestuous sessions of recent years, the sixty-fourth congress Monday entered upon the last week of its official existence still facing extraordinary legislative congestion.

Republican leaders who had threatened to defeat the emergency revenue bill by dilatory tactics agreed to a final vote on the measure when confronted with the democratic determination to hold the senate in continuous session. Danger of further efforts to force an extra session has not disappeared, however, for some of the minority insist that the president should be forced to summon the sixty-fifth congress to be on hand for eventualities in the European crisis.

Would Not Nullify Their Rights

Washington.—Five of the six Nebraska members of the house joined in voting intoxicating liquor an outlaw in interstate commerce, favoring the Reed amendment to the postoffice appropriation bill which forbids the interstate shipment of liquor into dry territory. Representative Sloan of the Fourth district voted against the senate provision, and gave the following statement as a reason for his vote:

"I voted against the Reed amendment, which would prevent shipment for private use of liquors into Nebraska or any other state which has voted dry. In the prohibition campaign of last fall every speech proceeded upon the theory that it was to banish the saloon, but not to prevent individuals obtaining a reasonable amount from outside the state for private use. Moreover, a careful following of the legislative proceedings at our state capital shows that the members are proceeding on that theory. I conceived that my duty was not to vote for national legislation which would nullify their rights."

TO COLONIZE BELGIANS

Will Put 30,000 in Lands in Imperial Valley

San Francisco, Cal.—The purchase of 50,000 acres in California and the settlement thereon of 30,000 Belgian families is the plan that has been entrusted by the Vatican colonization board to James Slevin, papal knight, who lives here and who has made public some details of the plan in connection with which he visited the Imperial valley in Southern California.

Cardinal Mercier of Belgium was the originator, he said, of the plan to establish Belgians in America. Behind the Imperial valley plan, Slevin said is a guarantee of \$5,000,000 which will be enough, the promoters estimate, to buy the land, bring at least 30,000 Belgian families to California, give each family forty acres and provide support for a year and a half.

Slevin said that he had been looking over a large tract of land in the Imperial valley but that in his opinion the owners were asking a prohibitive price.

Chile to Have World's Fair

Valparaiso, Chile.—Plans are fast advanced for an international exposition or "world's fair," to be held here. The site selected is a beautiful stretch of ground near both the Pacific ocean and a fine lake. All the nations of the old and new worlds will be asked to exhibit their products. The Chilean government and the various state governments of Chile will be well represented, it is promised.

Steel Net Guards New York

New York.—A steel net designed to protect the port of New York from hostile submarines and other war craft, has been put in place at the entrance of the harbor here.

British Steamship Sunk

London.—Lloyd's shipping agency has announced that the British steamship Worcestershire of 7,175 tons gross is reported sunk. It also announced that the British ship Valdez of 2,285 tons gross had been torpedoed and sunk without warning. Two members of the vessel's crew were killed and nine are missing. The captain and others of the crew have been landed. Later the sinking of the British steamship Romsdalen of 2,548 tons gross was announced.

Claims Deutschland Captured

Baltimore, Md.—That the merchant submarine Deutschland has been captured and that he saw her in Plymouth harbor with 186 other German submarines, was the statement made here by William Palmer, second engineer of the American transport liner Mongolia. Palmer said that the British had captured 400 enemy submarines and that 187 of them were in Plymouth chained together and in the center of a huge network of chains attached to buoys and wharves.

PLANS FOR COPING WITH SITUATION

BRITISH METHOD OF MEETING PRESENT CONDITIONS

WILL WAR ON SUBMARINES

Number of Armed Ships Has Been Enormously Increased—Americans Are Well Treated in Berlin

Western Newspaper Union News Service. London.—David Lloyd George, the British prime minister, has presented to the house of commons in a speech lasting an hour and a half, his program for coping with the serious situation arising from the shortage of shipping space, depletion of food stocks and the German submarine menace.

The premier advocated the increase of home food production and the curtailment of non-victual imports. To this end he outlined a program for speeding up the farmer by guaranteeing good prices for commodities over a period of years. This he supplemented by the announcement that the land owner would be forced to cultivate his land.

The speeding up of the farm laborer was provided for by the premier by guaranteeing him a minimum wage of 25 shillings per week instead of the present 14 to 18 shillings.

By curtailment of imports Mr. Lloyd George said he expected to reduce the demands on cargo space by several million tons. Foodstuffs of which 16,000,000 tons were imported last year, will be cut nearly a million tons by lopping off certain luxuries. Paper users who already have been considerably curtailed must henceforth get along with only half the supply they are now receiving, this saving 640,000 tons. Certain savings also will be effected in the import of ore, which now amounts to 8,000,000 tons annually, and in lumber which at present is 4,000,000 tons.

Americans Well Treated.

Copenhagen.—All Americans arriving from Berlin have reported the situation in Berlin so far as Americans are concerned as little changed since the departure of Ambassador Gerard. The Lokal Anzeiger, the Deutsche Tages Zeitung and several other newspapers of Berlin, and the provinces have printed unpleasant things about America and Americans, but there appears to be no disposition to make trouble for Americans remaining in Germany. The only inconvenience has been ability to get permission to leave the country.

The American consular officers in Germany who did not accompany James W. Gerard, the American ambassador, when he departed from Berlin are now leaving Germany, most of them by the route to Switzerland. Frederick Achenbach, special commissioner of the American treasury department in Germany and Scandinavia and his brother and clerk, Charles Achenbach, who were to have left with the consular officials, have arrived, have elected to come from Berlin this way on account of their connections with Scandinavia. The same train brought Mr. Luetke, delegate of the American Red Cross of Austin, Tex. As far as is known, however, no arrangements have been completed for the departure of Americans of other than official and newspaper status, tho the general impression in Berlin is that this soon will be permitted.

WAR ON SUBMARINES

British Admiralty Will Tackle a Grave and Serious Menace

London.—In a speech in the house of commons Sir Edward Carson, first lord of the admiralty, stated that the submarine menace recently had grown until its extent had become grave and serious. The menace had not yet been solved, but measures which had been adopted, he said, would mitigate it by degrees. Sir Edward informed the house that an anti-submarine department had been established in the admiralty composed of the most experienced and capable men in the navy. The number of armed merchant ships had been increased 47.5 per cent in the last two months.

Protests German Activity

Rio Janeiro.—Former Deputy Carreira de Freitas in an interview denounces the reported German operations in southern Brazil carried on in connection with the Hamburg colonization company. It is proposed by this company, according to reports, to colonize a section between the states of Santa Catherina and Rio Grande Dousul, only Germans to be permitted. Before the battle of the Marne, De Freitas declares, the Germans were planning to demand the incorporation of southern Brazil with Germany.

Men Replaced by Women

London.—According to the Express, the military authorities are developing a scheme under which women will be substituted for men in a number of non-combatant posts in the army, both in Great Britain and France, such as cooking, canteen work, storekeeping and clerical work, thereby releasing thousands of men. It is said that already 30,000 women are employed in army work as cooks, waitresses, motor drivers and similar occupations but the scheme will open vacancies for many thousands.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of Sunday School Course of Moody Bible Institute.)
(Copyright, 1917, Western Newspaper Union.)

LESSON FOR MARCH 4

JESUS FEEDS FIVE THOUSAND.

LESSON TEXT—John 6:1-14.
GOLDEN TEXT—Give us this day our daily bread.—Matt. 6:11.

This parable marks the high level of the year of our Lord's popularity. It is such an important miracle as to be the only one recorded in all four gospels. Be sure to use a good harmony. The returning twelve (Matt. 11:1) are taken by their master to a desert place that they might find rest (Mk. 6:31) and that he might comfort their hearts over the death of John the Baptist (Matt. 14:1-12). The multitude would not grant them the right use of their leisure, but flocked to this retreat in the desert. They followed that they might listen to his gracious words, and perhaps behold some new wonder (v. 2). Carlisle said he saw in England "forty millions, mostly fools." Jesus saw the multitude, and was moved, not with sarcasm, but with compassion which took a tangible form of service. Mark tells us (6:34) that Jesus was first of all teaching the multitude. It is better to teach a man how to help himself than to help the man. We should not be surprised at Philip's slowness of faith. Moses in a like manner was once nonplussed as to how to feed the multitude in the wilderness. (Num. 11:21-23). It is not so much how great the need nor how little we possess; rather, is that little given over to God? Andrew, who had revealed Jesus unto Peter, discovers as though in desperation a boy whose mother had thoughtfully provided him with a lunch, consisting of five barley biscuits and two small herring (v. 9); at least that much remained. This is a great commentary upon the tide of interest at this time, that the boy should not have eaten his entire lunch, for the boy's hunger is proverbial. It seems as though Jesus emphasizes the helplessness of the disciples in order that he may show his power. His command "Give ye them" (Mk. 6:37) teaches us that we are to give such as we have, and not look to others nor to do our charity by proxy (Prov. 11:24-25). Again the Saviour asks his disciples as though he would teach them the resources of his kingdom. Give what you have, and he will bless and increase it to the supplying of the needs of a multitude. The secret of success was when he took up the loaves, and, "looking up," God also saw that day and blessed it. We need to observe the systematic procedure. The people are seated or reclining upon the ground in ranks or in companies, the master blessing and breaking the boy's cakes, giving first to the disciples. God works miracles through human agencies only. The result of this systematic procedure was that they were all satisfied, "filled" (v. 12). Luke adds that "all did eat" (Lk. 9:17). Not alone, however, was there divine order and lavishness, but there was economy and thrift as well, for Jesus gave careful direction as to the fragments. The lavishness is shown by the fact that the baskets into which the fragments were gathered were each probably large enough in which to sleep. This conservation process was a stinging rebuke to the improvident orientals and to present-day prodigals of that wonderful bounty with which God has blessed our land. God gives to us that we may use for other. Joy dies unless it is shared. Jesus is the living bread (John 6:48), and will satisfy hunger and life even as bread generates in the human body heat, vitality and power; so he would still feed the hungry soul of mankind. We have at hand the word, and it is for lack of it that men die in the deepest, truest sense of that word. The poverty and perplexity of the disciples in his presence and in the presence of this great need are being repeated over and over today, and yet it is absurd. We have not enough to feed the multitude. Our few leaves of amusements, mental activities and social service will not feed them, but when we break unto them the Living Bread, they have enough and to spare. The difficulty with the distribution of material bread for the needs of mankind is not that there is not enough grain, but rather that in the process of distribution certain companies of men can control the fruits of the earth, and withhold them from the consumer for their own profit. Is there not a parable in this for the church in that it is so much concerned with its own joys, pleasures and profits that it is withholding from the mass of mankind, especially in the foreign field, the bread which alone can bring life and immortality to light?

Summary: (1) The hope of the world's salvation is in the wonderful power of God in multiplying the little we give to him in the way of service. (2) If we bring no gift, how can God bless man? Compare this boy's service with the service of the little maid in Naaman's household. (3) Conservation of the fragments, using well or wasting the fragments of time, of opportunity, etc., makes all the difference between success and failure. (4) Let nothing be lost. The refuse of petroleum is today worth more than the oil product.

Every Farmer Needs a Typewriter

Ball Bearing; Long Wearing

Typewritten letters, bills, records, are a sure sign of business-like methods that mean success instead of failure. Carbon copies kept and filed away prevent misunderstandings and even lawsuits.

It does not require an expert to operate an L. C. Smith & Bros. typewriter. It is simple and durable. Mail the coupon and let us tell you more about our proposition.

ACTRESS TELLS SECRET.
A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

When a man is in love for the first time, he thinks he invented it.

What Is Uric Acid?

Everyone has uric acid in the system, but naturally in small quantities. Excessive amount is caused by eating too much meat and foods that ferment in stomach. The kidneys, being the filters of the blood, are supposed to separate and throw the poisons out of the system. Weak, tired and overworked kidneys fail to do this, hence the uric acid accumulates and the urate salts are carried by the blood to the solid tissue structure, causing headache, lumbago, rheumatism, dropsy, drowsiness, and tired feeling. To overcome the trouble is only a matter of toning up the kidneys, and this is best done by a treatment with Anuric, three times a day. Anuric is a recent discovery of Dr. Pierce of Buffalo, N. Y., and can be obtained at any drug store. Experience taught Doctor Pierce that Anuric is a more powerful agent than lithia in dissolving uric acid, and it is then carried out of the system.

Sarcasm of the Rejected.
"Do you write for publication?"
"Oh, no; merely for circulation among the editors."—Boston Transcript.

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcher* In Use for Over 30 Years. Children Cry for Fletcher's Castoria

Translated.
"Maybelle used a lot of make-up on her face."
"Now I shall call it make-out."

THE ONWARD MARCH of Bronchitis, and deep seated Coughs is arrested by Doctor Pierce's Golden Medical Discovery. In those scrofulous conditions of the blood which invite Consumption; in severe, lingering Coughs, and Weak Lungs, which threaten you with this fatal disease, and when other help has failed—this medicine is a proved remedy. As a blood-cleanser, strength-restorer, and tonic it is sure to benefit. In all lingering Bronchial and Throat affections, and in every disease that can be reached through the blood, it never fails to benefit or cure. In tablet or liquid form. The machinery of the body needs to be well oiled, kept in good condition just as the automobile, steam engine or bicycle. Why should the human neglect his own machinery more than that of his horse or his engine? Yet most people do neglect themselves. Clean the system; at least once a week with Dr. Pierce's Pleasant Pellets.
