EMPEROR OF RUSSIA ABDICATES THRONE

GRAND DUKE MICHAEL NAMED AS REGENT

DUKE NICHOLAS RUSSIAN IDOL

Heir to the Throne is But an Infant—Personnel of the New National Cabinet is Announced—Casualties Not Large

Western Newspaper Union News Service. Petrograd.—The emperor of Russia has abdicated and Grand Duke Michael Alexandrovitch, his younger brother, has been named as regent.

A new national cabinet is announced with Prince Lvoff as president of the council and premier and the other offices held by men close to the Russian people.

New Russian Cabinet. Petrograd.—The members of the new national cabinet are announced as follows:

Premier, president of the council and minister of the interior, Prince George E. Lvoff.

Foreign minister, Prof. Paul W. Milukoff.

Minister of public instruction, Prof. Manuiloff of Moscow university.

Minister of war and navy, ad interim, A. J. Guchkoff, formerly president of the duma.

Minister of agriculture, M. Ichingaroff, deputy from Petrograd.

Minister of finance, M. Tereschtenko, deputy from Kiev.

Minister of communications, N. V. Nekrasoff, vice president of the duma.

Controller of state, M. Godneff, deputy from Kazanu.

For several days Petrograd has been the scene of one of the most remarkable risings in history.

Duke Nicholas a Military Figure. Grand Duke Nicholas, idol of the Russian army and ranked as Russia's master strategist, looms up as the big military figure of the hour in the empire which has just witnessed a successful and almost bloodless revolution and the abdication of its emperor.

The relinquishment of the throne by Nicholas II automatically deprived him of his rank as commander-in-chief of the Russian army.

Thus the nation, the Petrograd dispatches indicate, is turning to its most tried and trusted military leader.

Of the complete success of the revolutionary movement, in which the lead was taken by the duma, there seems no doubt.

Means Overthrow of Bureaucracy. Washington.—Strong possibility of complete overthrow of the old Russian bureaucracy, a great step toward real democracy, and a closer allegiance to the entente allies, were the three conclusions drawn by government officials from the Russian political revolution reported by Berlin wireless dispatches.

The news was no great surprise here. Indeed, some officials, while making no admissions, indicated that they expected just what happened.

Were Not Many Casualties. Although considerable fighting took place, it is not believed that the casualties are large.

The uprising bore the character rather of a mock revolution staged by an immense audience.

Change Made Swiftly. The most phenomenal feature of the revolution was the swift and orderly transition whereby the control of the city passed from the regime of the old government into the hands of its opponents.

ANY CORN LIFTS OUT, DOESN'T HURT A BIT!

No foolishness! Lift your corns and calluses off with fingers—it's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

END UP TO AMERICA

FRANCE AWAITING DECISION OF UNITED STATES

AMERICAN SHIP TORPEDOED

Sunk by German Submarine Without Warning—Carried 2,000 Tons of Cargo

Western Newspaper Union News Service. Paris.—France believes a speedy decision in the war rests with Washington.

If the United States today at the last line before war with Germany, crosses that line, and joins forces with the allies against Germany, it means a swift decision for the entente.

The ultimate victory of which France is confident, will be hastened. For this reason the French government—after report of the sinking of another American steamer—is most anxiously waiting for Washington's word.

These views may be regarded as those of the French government. The United Press was authorized to state them as the opinion of high officials.

Names of these personages cannot be given, for obvious reasons. But the unanimity of their views reflects the attitude of the French government itself.

These officials have not altered in the least their complete confidence in ultimate victory for France and her allies. The French people are prepared cheerfully to endure every sacrifice in achieving this victory.

ALGONQUIN TORPEDOED

Ship With Valuable Cargo Sunk by German U-Boat

New York.—The Algonquin, owned by the American Star line of this city, with eight Americans in her crew, was torpedoed and sunk on March 12, according to a cablegram received here by the owners.

Officers of the American Star line said the vessel was worth approximately \$450,000 and that the cargo, consisting mostly of foodstuffs, was worth more than \$1,250,000.

There were ten Americans, including the captain, on the Algonquin, according to the owners.

Prior to sailing the Algonquin's captain said he had no fear that his vessel would be torpedoed.

The Algonquin, a freighter, was one of the first American vessels to sail from the United States after Germany announced her submarine campaign of unrestricted warfare.

She carried about 2,000 tons of cargo and was commanded by Captain A. Nordberg, a naturalized American of Norwegian birth.

Washington.—The circumstances that the Algonquin carried foodstuffs which are contraband and that she recently was transferred from British to American registry, a transaction Germany might plead she would not recognize, are not taken to outweigh the fact that the ship was reported destroyed without warning.

The real issue of peace or war is expected to come when an American armed ship has a clash with a German submarine.
