If men are needed for other work we should be ready to respond. The time needs no knockers on the government, but men who are ready and willing to respond even with their lives if need be.

M. A. ALBRIGHT RED CLOUD

Burlington to Aid U. S.

Stirred by the high sense of the present opportunity to be of the greatest service to our country, officials of the Burlington have launched a campaign to co-operate with Uncle Sam to increase the production of all farm products in the eleven great agricultural states traversed by its lines.

Bulletins are now being sent out by Agricultural Agent Lamson to agents everywhere, calling the attention of farmers to the fact that the success of America in this war depends upon the agricultural production; also that there is no danger of over production, that there is a great danger of under production, that supplies of food stuff on hand are limited and that the demand for all farm products will be great and the prices high. The suggestion is made that farmers begin preparing their seed beds now, plant seed that they know will grow—test it beforehand, and to practice thorough clean cultivation throughout the season to insure the extermination of weeds.

Attention is also directed to the fact that the Agricultural Department of the Burlington Road is prepared to aid farmers along its lines, can help them get good seed, test it and treat it for disease and offers the benefit of its organization and experience.

**DON'T FEED
CREAM
TO THE
CALVES**

If you are skimming your milk by any setting or dilution method or are using an inferior or worn out cream separator you are surely feeding a lot of butter-fat to your calves and pigs that is worth from 25 to 30 cents a pound.

You may think this is too small a loss to amount to much, but when you figure that it happens twice a day, 365 days a year, you will find that a De Laval Separator would save its cost every six months over any kind of "gravity" skimming and every year over any inferior or worn out separator.

**Get a clean skimming
DE LAVAL Cream
Separator**

as soon as you can and get all the money that is coming to you from the product of your cows.

We can make you a liberal allowance for your present separator, if you have one, and, if more convenient for you, can also arrange for a partial payment at time of purchase and balance on easy payments.

If you want to see for yourself just how much more cream you can get with a De Laval let us set up a machine for you and have you try it out for yourself. Just phone or drop us a postal and we will be glad to bring a machine out to your place.
