YES! MAGICALLY! **CORNS LIFT OUT** WITH FINGERS

You say to the drug store man, "Give me a small bottle of freezone." This will cost very little but will positively remove every hard or soft corn or callus from one's feet.

A few drops of this new ether compound applied directly upon a tender. aching corn relieves the soreness instantly, and soon the entire corn or callus, root and all, dries up and can be lifted off with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that freezone dries in a moment, and simply shrivels up the corn or callus without irritating the surrounding skin.

If your druggist hasn't any freezone tell him to order a small bottle from his wholesale drug house for you.-adv.

A Treat for Dad.

One day someone sent me up a box of cigars from the cigar store downstairs. Arthur, my office boy, brought them in and stood near my desk while I unwrapped the package. As I opened the box I said to him jokingly—as he was too young to smoke-"Will you have a cigar, Arthur?" And Arthur replied: "I don't smoke, but my father does." So I said: "All right, take one for your father."

He picked out a cigar and put it away in his inside coat pocket. As he started away I said to him, more out of curiosity than anything else: "What

does your father do, Arthur?" Arthur remained silent and blushed deeply. It made me more curious than

"Come, speak up," I urged. "He k-k-keeps a cigar store," stammered Arthur as he bolted off .- Puck.

Win the War! Feed the Fighters!

Harvest the Crops — Save the Yields On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Marvesters in America WILL Bring the Allied Victory Hearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoms, Kanasa, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been conserved, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

NEWS REVIEW OF THE PAST WEEK

British, French and Italians Crush Teuton Legions at the Same Time.

FIERCEST FIGHTING OF

Russia's Military, Economic and Political Troubles Are Disturbing-Pope's Peace Proposals Discussed -President Wilson Regulates the Prices of Coal

in America. By EDWARD W. PICKARD.

Civilians far from the seat of war wondered why the allies did not deliver their smashing blows at the kaiser at the same time, giving him no opportunity to shift his troops from one front to another, instead of taking turns in hitting him. That is just what they did last week, for British, French and Italians all began offensives that developed into the most furious battles of the war so far. The Anglo-French forces near the Belgian coast vigorously renewed the attacks begun the previous week and pushed forward. The British hurled themselves against the defenses of Lens and forced their way further into the outskirts of that al center, repulsing all tacks. General Petain's men attacked along the Chemin des Dames, and then delivered a series of smashes at the Germans in the Verdun sector, taking the twin summits of Dead Man's hill and other strong positions that the crown prince had held for a year and more. In Alsace there was lively fighting. At the same time the Italians were carrying on a monster offensive against the Austrians along the entire Julian, Isonzo and Carso fronts, from Plava to the sea. The Austrian defenses were leveled by a terrific artillery fire, new crossings of the Isonzo were forced, and Cadrona's troops advanced considerably on their way to Trieste

despite the difficulties of the terrain. Wednesday the British again attacked flercely in the Ypres region and after a bloody combat succeeded in taking important positions along the Ypres-Menin road. A little further north, in the blood-soaked Langemarck-Frezenberg sector, they hit the enemy hard in an effort to take the ridge, known as Hill 35, where the Irish made a gallant but losing fight the week before.

Germans Resist Stoutly.

The Germans have massed immense numbers of troops at the points of attack and are resisting desperately and making almost continuous counter-attacks, but up to the time of writing they had been unable to regain any of the lost ground.

All the allied armies took great numbers of prisoners and guns and inflicted terrible losses on their hard-fighting opponents, and they themselves lost many men, for the attacks were delivered with rather less than the usual regard for life. In Flanders and France the tanks played a large part, and on all fronts the aviators were extraordinarily active and bold. The Italians introduced one novelty. When their assaulting troops moved forward they were preceded by a squadron of airplanes forming the first line and using their machine guns on the Austrians at short range.

General Pershing and other American officers were present at the new battle of Verdun

Disturbing News From Russia. The week's news from Russia was rather disquieting. Petrograd presented to America and the entente allies a statement indicating that Russia would be unable to continue in the war unless immediate, adequate and continuing assistance were given. She has no intention of making separate peace, but says she cannot keep up the fight unless her associates furnish her at once with materials and provisions. The Bussians fear they will be driven | democracy.

out of Moldavia within three weeks, and last Monday the Germans began an offensive in the Riga region that forced the Slavs back toward that city. At the south end of the line the Roumanians still are making valiant efforts to hold back the invaders. There is no longer any doubt of the bravery of the Russians or of their desire to keep on fighting the common enemy of the world, but it seems that they cannot by themselves surmount the great economic obstacles that confront them.

The governmental troubles of Russia also are approaching a crisis. The "extraordinary national council" being about to meet in Moscow, the constitutional Democrats, discontented business men and dismissed generals, gathered there ready to demand radical changes. On the other side stand the cabinet and the Socialist left. In preliminary discussions Prince Troubetskoi, Generals Alexieff and Brussiloff and others attacked the cabinet. excepting only Kerensky, and declared the government had fallen into the hands of corrupt men of Petrograd. who think only of their own interests. The Socialist orders that destroyed discipline in the army were bitterly criticized.

As had been foreseen, the pope's peace proposals were received decently by all the belligerent nations, but with more than an undercurrent of skepticism by the allies. No definite reply to them has been made at this writing by any government, but representative speakers of the different parties in Germany all indorsed in general the Vatican plan, and it is believed Berlin may go so far as to offer autonomy to Alsace-Lorraine, which of course would ot in any degree satisfy France. Aus tria, too, as was expected, approves the proposals, but insists any settlement must include the abandonment of Great Britain's naval bases at Gibraltar, Malta and the Suez canal. Can one imagine Great Britain willingly dismantling these guardian posts of the route to her immense domains in the Orient? The vociferous assertions of the German press that the pope's proposals were not inspired by Germany, and the intimations that they really were due to British suggestions can only be considered as more "bunk" and serve to confirm the suspicion that the plan had its inspiration in Teutonic sources.

German Poison Gas in America. The poison gases emitted by the pro-German press and all the other traitorous agencies in America are not growing noticeably less in amount of virulence, but Uncle Sam is beginning to apply the antidote with considerable vigor. In many cities "soap box" orators are being gathered in by federal agents and several more rabid papers have been denied the use of the mails. The German-American press of the large cities is still too clever to subject itself to that penalty, but if it keeps on its present course doubtless some means will be found to suppress it. Regretfully it must be said that a disgracefully large proportion of the Germans in America—naturalized or not—is proving disloyal to the land of their adoption. This is shown by such instances as the annual picnic of the Schwabenverein in Chicago, where for several days the assembled Germans occupied themselves in denouncing America's entry into the war, abusing the president, sneering at our armed forces and making fun of the draft and the National army. The same thing is going on all over the land, where Teutons get together, but they are preparing to reap a harvest of woe for themselves, for the men of the department of justice are cognizant of their words and acts. It is comforting to believe that the great mass of German-Americans are truly loyal, but thousands of the more ignorant are led into disloyalty by the falsehoods of German secret agents and by the utterances of the La Follettes, the Reeds, the Masons and the William Hale Thompsons for whom all native-born Ameri-

cans blush. Former Ambassador Gerard, Secretary of Commerce Redfield, and other prominent men found opportunity last week to denounce bitterly the cowardly, treacherous pro-Germans and pusilanimous pacifists, who are doing all they can to make the world unsafe for

The threat of the I. W. W. to tle up the industries of the West, including the harvest, if their leaders were not released was met promptly by the arrest of a lot more of the gang, and the great strike fizzled out miserably. No sooner was this trouble passed than the machinists and boilermakers, employed in the Atlantic coast shipyards, were called on to quit. This of course would put a stop to vast amounts of government naval work, and the United States mediators got busy at once. Several thousand men stopped work, but most of them either pledged Secretary Daniels that they would not quit, or delayed action until a vote could be

President Cuts Coal Prices.

Having started Mr. Hoover well on the food conservation campaign, President Wilson last week turned to the almost equally pressing coal problem, which for several weeks had been exercising the wits of various state administrations. Having studied the production cost figures supplied him by the trade commission, the president issued an executive order fixing a tentative scale of prices for bituminous coal at the mines in nearly all coal producing districts of the country. These prices in some instances are more than \$1 a ton below the voluntary prices fixed at the conference last June. The scale is subject to change when a method of administering the fuel supplies of the country has been determined

and put into operation. Later in the week the president named Dr. Harry Garfield fuel administrator, fixed anthracite prices for producers and jobbers and set a limit on profits to be made by bituminous

The senate spent most of the week in consideration of the revenue bill. Among other things it increased the finance committee's income tax provisions by a total return to the treasury of \$73,000,000, adopting unanimously the Gerry amendment, which adds \$40,000,000 to the returns from incomes of half a million and over.

Japan's Mission in Washington.

The imperial Japanese mission was formally received in Washington by Secretary Lansing and other government officials on Wednesday. Its head, Viscount Ishii, made it clear that the mission has come not on a commercial or political errand, but to decide on how the two nations can best co-operate, in both a military and an economic sense, in carrying on the war.

The neutral countries of Europe—socalled, though no country there is any longer really neutral-are still trying to get around the American embargo that is so painful to their pocketbooks and their stomachs; but the indications are that unless they quit supplying Germany with foodstuffs, their suffering will only increase. Switzerland and Holland, which depend on Germany for coal, have contracted to lend the kaiser large sums in return for the privilege of continuing to buy their fuel from his country.

Hungary took a real step toward democratization and freedom from German and Austrian influence in the appointment of Dr. Alexander Wekerle as Hungarian premier, to succeed Esterhazy. The new premier is popular, Democratic, a financial genius and is known to be no friend of Germany. The new nationalist movement in Hungary has attained great strength, and it is said King Charles is in complete harmony with the desires of the nation.

German aviators distinguished themselves last week by another raid on English coast towns in which 11 persons were killed, and by deliberately bombing two French hospitals behind the Verdun lines and then shooting down the doctors and nurses, who were trying to rescue the wounded soldiers from the resulting conflagration. It would seem that the chivalry of aviators is one-sided.

Negro soldiers of the Twenty-fourth United States infantry, stationed at Houston, Tex., as guards during the construction of Camp Logan, started a serious race riot, in which a dozen white civilians, police officers and National Guardsmen, and a number of negrees were killed, and more than a score wounded. Among the dead was Capt. J. W. Mattes, Battery A, Second Illinois field artillery, who was trying to restore order.

NEGRO TROOPS IN OUTBREAK

Twelve Killed and Many Wounded When Blacks Run Amuck-President Fixes Anthracite Coal Prices.

Western Newspaper Union News Service. Lincoln.—Before long several thousand young men will be in the various cantonment camps of the National army, and their relatives and other friends will wish to write to them. In order to expedite the delivery of their mail and give the boys the best service possible, post office officials instruct correspondents, if they know in advance the company and regiment to which the soldier is assigned, to address mail according to this sam-

> PRIVATE JOHN JONES, A Company, First Infantry.

Camp Dodge, Iowa. If the company and regiment are not known, the mail should be addressed thus:

PRIVATE JOHN JONES, of Minnesota,

Camp Dodge, Iowa. When all troops are organized the mail for each man will be distributed direct to his company and regiment? Until then it will be delivered through his state section.

Fixes Prices of Anthracite

Washington-Prices of anthracite coal were fixed in a statement issued by President Wilson and Harry A. Garfield, president of Williams college, was named coal administrator. The anthracite prices, effective September 1, range from \$4 to \$5 per ton (2,240 pounds) f. o.b. mines. Jobbers are allowed to add a profit of not more than 20 cents per ton for deliveries east of Buffalo and of not more than 30 cents west of Buffalo.

Bituminous coal prices, fixed in the president's statement Tuesday, become effective at once, according ot a telegram from Secretary Tumulty to the St. Louis Coal club.

The jobbers' profit on bituminous is limited to 15 cents per ton of 2,000 pounds, wherever delivered.

Producers who incur the expense of rescreening anthracite at Atlantic or lake ports for reshipment by water are permitted to add not more than 5 cents per ton to the price.

NEGRO SOLDIERS IN OUTBREAK

Twelve Killed and Many Wounded When Blacks Run Amuck

Houston, Tex.-Twelve white men, civilians, police officers and national guardsmen were killed and more than score of persons, men, women and children, were wounded in an outbreak here of negro soldiers of the Twenty-fourth United States infantry, stationed here to act as guards durat which the Illinois national guard will train. It is not known how many

negroes are dead. Capt. J. W. Mattes, Battery A. Second Illinois field artillery, was among the dead, being killed when he tried to remonstrate with the negro soldiers who were running rampant. The outbreak is supposed to have originated when two negro soldiers were arrested for disturbing the peace early in the afternoon.

The firing began when an ambulance started through the section occupied by the negro soldiers. They stopped the ambulance and firing a volley, riddled it. It was this volley that wounded a sixteen-year-old white girl standing in her father's store. Police reserves were sent out and were met by volleys from the negroes. Civflians went to the assistance of the police officers and firing continued for an hour and a half.

Tribal Indians Exempt

Washington-Tribal Indians are not subject to army draft because they are not citizens, and may claim exemption on the same ground as aliens. The war department has formally ruled on the question at the request of counsel for some of the tribesmen. Nearly all Indians maintain tribal connections, it is said, and the number who will be exempt under the ruling is estimated at more than

Cuba Offers Mobilization Grounds. Washington.—Cuba's offer to provide a mobilization and training ground for some American forces has been accepted. The number or description of the forces to be sent, cannot be

disclosed for military reasons.

Boston, Mass .- Portland, Ore., was chosen at the 1918 encampment city by the Grand Army of the Republic at the business session of the fiftyfirst encampment here. Atlantic City. N. Y., was a close contender, losing by one vote.

England's Prospects for Food Supply. London.-Premier Lloyd George, speaking in the house of commons said that this time last year the wheat in this country amounted to 6,480,000 quarters and that it now is 8,500,000 quarters. The stock of oats and barley he declared also was higher. Mr. Lloyd George said the acreage under cultivation showed an increase of 1,000,000 acres. If the harvest weather was good, the condition of food supplies would be very satisfac-
