So The People May Know

In answer to my comment on the action of the Bell Telephone, which I had published in last week's issue of the Chief, Local Manager Warren states in Friday's issue of the Commercial Advertiser that my statement relative to the Bell switchboard operator refusing one of our citizens service when he used a neighbor's telephone to summon a physician that this statement was not true. In reply will request Manager Warren to carefully read the following statement of Mr. H. L. Rogester. This statement was voluntarily made and signed by Mr. Rogester, and is as follows: The following statement is the one referred to in an article in last week's Chief: On September 25, 1917, my wife became suddenly ill in the night. Not having a phone of my own, I went over to a neighbor's and asked permission to use their Bell phone, which was granted. I put in a call for Dr. Creighton, and I think Central rang him once. Not receiving any response I went up to the Doctor's house but could not arouse him. I then went back to my neighbor's and rang Central again, with a request to call Dr. Cook. Central said, "What do you mean by disturbing us in the night. You haven't any phone. If you want a doctor, go get him." I then went up to Dr. Cook's residence and called him. It is absolutely untrue that Central suggested calling another doctor, as no other doctor was even mentioned. H. L. Rogester. If this one statement is not sufficient to convince Manager Warren that what I published concerning the so-called service of the Bell in the past are facts, I will submit other statements. I am surprised to think Manager Warren did not also deny the statement I made concerning a certain politician using the Bell phone to deceive the voters. If he would like to have me furnish a signed statement on this or any other "service" I will gladly do so. In conclusion will say that I am ready and willing to back up any statement I make with evidence. PLEASE LET US HEAR FROM YOU. (Signed) Geo. Trine. BLADEN Mrs. Oley Iverson was in Red Cloud Friday. It Cost Just 20 Cents More To Produce the Big One than it did the Runt

THE BIG ONE WAS FED AVALON FARMS HOG-TONE

THEY both started life at the same time and weight. They were given the same feed under the same conditions - with one exception. The big one got his regular dose of AVALON FARMS HOG-TONE—the Liquid Hog Tonic, Conditioner and Fattener—and the runt didn't. The big one is the kind that tops market and brings big profits to the pockets of the hog raiser. The runt cost more to raise than he will ever bring in the market. And the difference was brought about by 20 cents worth of AVALON FARMS HOG-TONE. HOG-TONE puts new life into hogs—makes them eat more and grow fat at an amazing rate. It helps them to combat disease and eliminate the worms that are the hog raiser's greatest foe to profits. Splendid for pregnant sows—helps to produce healthier, sturdier pigs. Come in the store—tell us the number of your herd—and we will give you enough HOG-TONE to treat all your hogs 60 days. You don't give a penny now. If the results of the HOG-TONE treatment fail to satisfy you, it will cost you nothing.

Service has never at any time, or under any circumstances, been refused anyone during our many years experience in Red Cloud.
