NUMBER 4

Buy Stamps and Save a Soldier

Refuse to Buy Them and Let Brave Men Die

While you are at home tonight beside the warm fire American boys over there in France will be out in the cold in the trenches.

Tonight while you are in your warm, snug bed your own son or your neighbor's son 'over there' may be dodging death from shrapnel.

The boys in the trenches have loaned their lives for you; won't you loan your money for them—loan it at 4 per cent compound interest, the highest rate the government has ever paid.

Buy U. S. War Savings Stamps and you save the lives of American soldiers; refuse to buy and you let brave men die.

The government must have money now. The decision is soon to be made for or against America. Which way, depend upon you.

The more money loaned the government the sooner the war will end and the less American blood will be shed.

You can buy War Savings Stamps in 25 cent sizes, known as "Thrill Stamps" and \$5 sizes, known as "War Savings Certificate Stamps."

A Mid-night Fire At Camp Funston

Tuesday morning Major Fisher inspected the Fourth platoon of this company and stated that it was the best in the second battalion of this regiment. Since that time the platoon has been drilling and studying preparing to drill against two other platoons of this regiment for first honors at Camp Funston. At present the regiment holds the record of being the best in this camp.

It has been too cold too drill and the Lieutenants have been giving us lectures every day.

On Thursday Captain D. M. Beard took charge of the company as Captain Fisher, who had been in command of the company since it was organized, took up his duties as Major of the Second battalion of this regiment. The company were sorry to lose Captain Fisher but were glad to see him advance. The new Captain has had considerable military experience and appears to thoroughly understand the duties of his present office.

It became the duty of the company to water the mules one day this week.

At eleven o'clock Friday night we had fire drill. Every soldier was obliged to pack up his underwear, mess kit and shoes and put them in the barrack bag. Also tie up his poncho and bedding and carry them with his rifle out of the building when the alarm was turned in. The rations for two days were taken out of the kitchen and hauled around the block by the men of the supply train. There were two men on each wagon who drove the two span of mules. Each company had a runner who had to report at the headquarters building and one who ordered the wagon. At twelve o'clock the recall was sounded. Then we returned to our barracks and retired for the night. Before the fire we retired in our uniforms and overalls.

Saturday morning the company went out northwest of camp where we spent the morning digging trenches. The ground contained much rock and we were compelled to use picks and crowbars much of the time.

This week each one of us received a helmet and sleeveless sweater from the Red Cross.

Considerable Interest Shown At Conservation Meeting

Red Cloud's first food conservation meeting was held at the Morhart opera house Tuesday evening. The attendance was not as large as was expected. The object of the meeting was to have the people become more familiar with the federal laws governing the sale and purchase of food.

County Superintendent Gertrude L. Coon acted as chairman and addresses were delivered by Father Fitzgerald, Rev. Bates, J. E. Hutchins, F. J. Munday, Rev. Schall, E. J. Overing, Rev. Beebe and County Food Administrator McBride. Mr. McBride also answered many questions but to him by those in attendance. The Betz orchestra furnished the music for the occasion.

Mr. McBride states that many persons in the community are not observing the food laws but thinks that this is due to the fact that they do not thoroughly understand the food laws and called this meeting for the purpose of enlightening them. It would be well for every one to remember that if they do not comply with these food laws that they can and will be prosecuted.

An extra session of district court is being held at the court house this week, Judge Dorsey of Bloomington, presiding. The first case on the docket will be the Property Owners of Paving District No. 1 vs. the City of Red Cloud. Friday morning is the date set for the same. It will be followed by the case of Fountain Fincher vs. The Elkhorn Construction Company.

Thrilling War Film Illustrates Lecture

Sergeant G. V. Hanley, one of the thirteen survivors of the Princess Pat, famous Canadian regiment, who spent 23 months in the trenches in France and Belgium, will give a vivid portrayal of his experiences on the western front in a lecture at the Orpheum theater Tuesday evening Jan. 29.

His lecture includes descriptions of many thrilling and terrific battles in the early days of the war, life in the trenches, conditions on the western front, conditions which existed in 1914 and throughout the war up to the present time and by means of comparisons will show why the allies will win.

A noteworthy feature in connection with Sergeant Hanley's lecture is 5,000 feet of thrilling war pictures taken along the western front by dare-devil camera men, which show every phase of the great European conflict, each scene being described and explained in detail by Sergeant Hanley as it is flashed on the screen. The film depicts conditions along the entire western front. Once beautiful and now battle-scarred France is shown with the important cities of Verdun and Ypres, where the most important battles of the war are now being fought. The film shows every phase of the great war from the front line trenches, with battles in progress, to the hospitals behind the lines.

Life in the Trenches Vividly Portrayed.

The film shows the German and French front line trenches 40 feet apart, with a terrific battle in progress. This scene shows the vast importance of bombs and hand grenades which are used effectively when battles are fought at close range. Gas and liquid fire bombs are seen bursting on both the German and French trenches.

A thrilling battle in the air is shown between the German taube and three French aeroplanes which was taken 10,000 feet in the air, in which the French pilot forced the German machine to the ground.

An artillery duel in shown between the allied big guns and the batteries in which the big guns are seen blasting forth death-dealing projectiles. In this battle high explosives, and shrapnel is seen bursting on the German trenches.

The film is not without humorous moments as the method of cutting the buttons off the pants of the German prisoners to keep them from running away, is shown.

There are many other thrilling scenes showing pontoon bridges which are constructed in a very few minutes by the engineers, observation towers, balloon and aeroplane observers in action, submarine chasers and hydro aeroplane in action, showing the method of hunting down submarines, a deadly gas attack, showing the use of respirators and numerous other thrilling scenes.

At the conclusion of the film showing, the sergeant will make a summary of conditions during the three years of the war in such a manner that his hearers will have no difficulty in determining that there can be only one ultimatum—complete victory for humanity and justice.—Adv.

About ten days ago, Glen Walker, Chas Kaley, John Hazel and two gentlemen from Blue Hill attempted to drive five Dodge cars from Detroit, Michigan, to this city. The heavy fall of snow compelled them to abandon the cars at Paxton, Illinois, where they were stored in a garage. Wednesday morning, A. T. Walker and Chas. Kaley left for Paxton. They will bring the cars to Peoria, Illinois, where they will be met by Glen Walker and two others who will drive them to this city.

English Ev. Lutheran services at the Grace Episcopal church Sunday, Jan. 27, beginning at 11:00 a. m. sharp. Sunday school at 10:30 sharp. Senior class will meet Friday at 2:30 p. m.; Junior class Saturday at 2:30 p. m.—A. Schaal, pastor.

To Accomplish Good Work

You Must Have Proper Equipment

The Parker Lucky Curve Self Filling Fountain Pen

is unequalled. Our new stock contains **THE PEN YOU NEED** at **\$2.50 to \$6.00**

Lower Priced Self Filling Pens at **\$1.25, \$1.50 and \$2.00**

Make Sure Your Childs EYES ARE RIGHT and Able to Sustain the Strain Imposed by School Work We Make EXAMINATIONS FREE

SEE AND TRY A DeLaval Cream Separator

We do not believe that a farmer who knows anything about farm machinery could be induced to buy any separator other than a DeLaval after he had seen the latest improved DeLaval machine and had given it a trial.

It is a fact that 99 per cent of all separator buyers who do SEE AND TRY A DELAVAL machine before buying purchase the DeLaval and will have no other. The 1 per cent who do not buy the DeLaval are those who allow themselves to be influenced by some other consideration besides real genuine separator merit.

If you are thinking about buying a cream separator we will consider it a favor if you will permit us to set up a DeLaval for you on your own place and have you give it a fair trial.

You will be under no obligation to buy the machine if it does not make good all our claims, and should you decide to keep it and cannot conveniently pay cash, you may do so on such easy terms that it will actually save its costs while you are paying for it.
