Keep Yourself Fit

You can't afford to be laid up with sore, aching kidneys in these days of high prices. Some occupations bring kidney troubles; almost any work makes weak kidneys worse. If you feel tired all the time, and suffer with lame back, sharp pains, dirry spells, head-aches and disorderd kidney action, use Doan's Kidney Pills. It may save an attack of rheumatism, dropsy, or Bright's disease. Doan's have helped thousands back to health.

A Nebraska Case

A Nebraska Case J. U. Metcalf, 515 Pa-clific St., Omaha, Neb., says: "My kidneys were badly disordered, and the secretions were re-tarded and painful. I was laid up in bed for six months and kept getting worse until I was a wreck. One of my legs became powerless and the pains in my hips were awful. Finally I used Doan's Kidney Pills and they drove away the pains and re-stored me to good health."

LESSON FOR FEBRUARY 17

JESUS TEACHING FIVE PARABLES -FOUR KINDS OF GROUND.

LESSON TEXT-Mark 4:1-20. GOLDEN TEXT-Take heed therefore how ye hear.-Luke 8:18. ADDITIONAL MATERIAL FOR TEACHERS-Matt 13:1-30; 36-43. PRIMARY TOPIC-Jesus telling a story

about sowing seed. PRIMARY MEMORY VERSE-Be ye doers of the word -James 1:22.

Jesus tells us plainly why he taught so much by means of parables (Matt. 13:10-13). The truth had to be taught ; hence the parable, that those to whom it was given to know the messages of the kingdom, those who sought it, might know and understand, and that to the others it might be hidden (Mark 4:11, 12). Like all his parables, Jesus draws his pictures from the common experiences of life-the field, the home, etc. Paul draws his illustrations chiefly from the city, the army, the market. In studying this lesson we must turn to the parallel account as given by Luke and Matthew to get the full and complete picture.

What is the seed? Luke says that Jesus told his disciples that the seed was the Word of God (Luke 18:11). We get the same thought in verse fourteen of the lesson. A great deal is being made today of seed selection. Some wonderful results have been obtained. How much more important for those of us who deal with immortal souls that we select the best seed, I. e., the Word of God.

The second consideration is the sower (v. 4). Notice he went forth not to "soar," not is it recorded that he was "sore" because the people did not all receive the seed alike. He did not have a grouch; he did not enter into his work that he might receive the adulation of men (Matt. 6:2). It is, however, the "soil" that seems to be most emphasized in both the direct teaching and also the explanation of the parable. There are four kinds of soil. The manner by which the seed came into contact with each kind of soll is significant. Some fell "by" the wayside; the path was well trodden; the ground was preoccupied; e. g., it was used for other purposes than to yield a harvest; it was hard to be broken, and bence it was an easy matter for the birds of the air (v. 15) to come and pluck it away. We need to remember that if men receive with meekness the implanted word, there will, of course, be no such opportunity for the evil one. The trouble in this case was that the Word was not implanted. Thus it is that one-fourth of the seed is lost. The result is a deplorable one as we see from Heb. 2:1-4. Is the soil of our life so hard that God must drive the plowshare clean through it ere there is a chance for the

seed to take root? (Ps. 129:8). next tell "on" the rocky The first is a picture of the hardened. and this is a picture of the superficial hearer. For a time they did run well. They even received the Word with gladness (v. 16), but they had no stability because they had no root. They were superficial. There was no chance for the seed to get a real grip on their lives. The earth yields its increase though we do not understand. So God will add his 95 per cent to our 5 per cent. The oak tree comes from small seed. In the third place Jesus speaks of the seed that fell "among" the thorns. Here is the worldly sell. It is not so much the character of the soil, it is the character of that which already occupied the soil ere the sower sowed the seed. The cares of this world, the deceitfulness of riches and "other things" had so entered in that the good seed never had a chance in the soil of the human heart. It was choked and yielded no fruit. There was no real grip of the will, no whole-hearted surrender. The cares of life that keep the housewife or the business man; the deceitfulness of riches that snare men and choke the word which at one time gave such promise in their lives; the lusts and other things which the evil one knows so well how to use keep us from the Word, for Satan knows that by it we are to be saved (Luke 18:12). Are we impulsive? Do we make vows soon forgotten, ties that soon fade away or fall beneath the temptations for lack of root? May God blast and turn up the subsoil of our hearts by strong convictions of sin, and so occupy the soil that there is no

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LINERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contributes Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man powes is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushelss the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a son we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interest.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

Joseph H. Igleheart, an attorney of Evansville, was in Indianapolis a few daws ago and when he reached Terre Haute en route home and got on a passenger train on the Chicago & Eastern Illinois railroad, he decided he would take a sleeper. He looked up the porter and told him he wished a berth. He was due in Evansville at

11 o'clock that night and the porter remonstrated, saying that it was a three hours' ride and that no one needed a sleeper for that short distance. "I don't care," shouted Igleheart. "I

want a berth if it's only a three minutes' ride." The porter said he would have to see the conductor and later returned and told Mr. Iglebart that he could have a berth.

Owing to a heavy snowstorm and bad weather conditions the train arrived at six o'clock the next morning at Evansville, being seven hours late. When Igleheart got up he greeted the porter who was standing in the aisie. The porter was angry and after Igleheart had spoken to him the second time he said : "Don't you speak to me, white man. The maximum retail gross margins, per ton, for coal and coke, delivered at the yards, to consumers in Nebraska outside of Douglas and Lancaster countles, were established by State Fuel Administrator Kennedy as follows: Domestic coal, not yard screened, \$1.40; steam coal, 90c; coke, \$1.25. This is the first time margins on the sale of coal have been made uniform all over the state. The order compels all retail coal dealtheir places of business, accessible to the maximum retail gross margin allowed, and the retail price at the yard; also drayage and delivery charges.

Nebraska will spend \$417,000 on road improvements in the state during 1918. This sum includes both federal and state appropriations. Plans of the state good roads department are to use the money on 1,600 miles of highway, averaging approximately \$260 to the mile.

Figures compiled by the Omaha Chamber of Commerce show that there are 148,100 automobiles in Nebraska, or one for every 8.7 persons in the state. Duel county has the Colorado to supply its members in most autos per population, 514. One for every 4.8 persons.

The national food administration has called upon Nebraska farmers through State Food Administrator Wattles to market every available bushel of wheat in the state, 1 The allies must have it and we must meet their needs, says the appeal. The Nebraska administrator is requested to use every possible resource to get wheat marketed immediately.

A plan is under way by the Nebraska branch of the American Soclety of Equity to buy a coal mine in the western part of the state with

opportunity for other things. We have thus seen three-fourths of the seed lost. Of the remaining fourth, that which fell "into" (R. V.) the good soil, not all yielded the same return. It all brought forth (v. 7); it all yielded; it all sprang up, but not all in the same ratio.

There are three distinguishing features of this last kind of hearers: (1) They hear the Word. These are the ones who appreciate its value and give good heed to its precepts. (2) They accept it e. g. they understand its teachings. They take it into good and honest hearts. (8) They hold it fast (Luke 8:15 R. V.) These are the ones of which martyrs are made.
