Save Your Money—

The chief reason for saving your money is that you will have the MONEY, with INTEREST later on when you may need it. It is also a step toward financial independence and success.

It makes you a better citizen. The person with a bank account is looked upon as one who is thrifty and dependable.

Now is the time to begin saving. Open a bank account here, today.

Deposits in this bank are protected by the Depositors Guarantee Fund of the State of Nebraska

SEE AND TRY A DeLaval Cream Separator

We do not believe that a farmer who knows anything about farm machinery could be induced to buy any separator other than a DeLaval after he had seen the latest improved DeLaval machine and had given it a trial.

It is a fact that 99 per cent of all separator buyers who do SEE AND TRY A DE LAVAL machine before buying purchase the DeLaval and will have no other. The 1 per cent who do not buy the DeLaval are those who allow themselves to be influenced by some other consideration besides real genuine separator merit.

If you are thinking about buying a cream separator we will consider it a favor if you will permit us to set up a DeLaval for you on your own place and have you give it a fair trial.

You will be under no obligation to buy the machine if it does not make good all our claims, and should you decide to keep it and cannot conveniently pay cash, you may do so on such easy terms that it will actually save its costs while you are paying for it.

Editor's Regiment Wins Loving Cup

Last Sunday evening the company went on guard for twenty four hours and "ye writer" had the pleasure of being on the third relief Post No. 6 was assigned to me to walk and it also was my first time of sleeping in our regimental guard house.

On Tuesday morning we went out and drilled at close and extended order drill. We also had target designation. In the afternoon we had to put five rifles on our shoulders and climb up a ladder and stand there while our Lieutenants examined our shoes to see whether our feet fit the same.

The remainder of the week was spent at the same drill as Tuesday morning expect the afternoon. Part of the afternoons were spent at bayonet drill and the balance at problems of Service of Security which were worked out by our Mayor and officers.

On Thursday night the Northern lights were very visible here and everyone in camp turned out to take a view of the same. The lights were of a pink color and were pretty.

On Saturday morning the regiment was to pass in review before the Colonel but owing to a fierce wind and dust storm we stayed in our barracks. We swept and scrubbed our barracks and the rifle inspection after which we had cot inspection by our Mayor and officers. Owing to the fact that we didn't have our field shoes shined up the company will be confined to quarters for four days commencing Monday morning but the sentence don't bother us as we laid in a supply of tobacco and candy on Sunday to last thru those days.

The wind and dust storm was the worst one I have seen here yet as the wind blew down most all of the smoke stacks on the heating plants and it will be a week or more before many of the barracks will be heated again.

On Saturday afternoon the company had to go over to the infirmary where the Lieutenants examined us for marks and scars.

Some time The Denver Post and Kansas City Post put up a loving cup as a prize for the best regimental song and band concert and the 355 regiment which is the best drilled and best in everything else in the military line again went "over the top" and carried off the honors. About every organization here know that we are some regiment.

Chamber of Commerce Held Interesting Meeting

The meeting of the Chamber of Commerce held at their rooms on Monday evening, was well attended and much interest was shown in the various matters brought up for discussion.

The matter of organizing a Clearing Association was taken a committee composed of F. W. Cowden, R. P. Weesner, F. G. Turnure, W. G. Hamilton and H. C. Gallatly was appointed to formulate plans for the organization of the Association. The Fremont plan was read by the secretary and its adoption approved.

The matter of good roads was the next matter discussed and a committee composed of Dr. Nicholson, Paul Pope and S. R. Florance was selected to give this matter the attention it deserves.

R. P. Weesner, J. C. Mitchell and F. G. Turnure were named as a committee to see that the city streets were kept in the best possible shape and to use their influence among our citizens to the end that we have a general clean up of the city this spring.

A labor Bureau was organized and F. W. Cowden selected as chairman. Meetings of the Chamber of Commerce will be held at frequent intervals at which time the various committees will report the progress made in the duties assigned to them.

Chairman A. D. Ranney has issued a call for a citizens' caucus to be held at the court-house Monday evening for the purpose of nominating candidates for city and school district offices.

John Doyle Answers the Final Summons

Another name was stricken from the ever diminishing list of pioneer citizens, when on Saturday, March 9th, John Doyle answered the final summons. His passing has deprived the community of one of its oldest and most highly respected men.

About a year ago Mr. Doyle was taken seriously ill and at that time consulted a specialist in Lincoln, who held out but little hopes for his recovery. Upon returning to this city he was taken to the home of his daughter, Mrs. Joe McClellan, where he remained for several weeks, continuing to improve until he was again able to be about. His request to spend his remaining days with his son, on a farm in Kansas, was granted, he remaining there until the time of his death.

The deceased was born in Wixford, Ireland, in 1839, coming to the states with his parents, when three years of age, and locating in Illinois. He came to Nebraska in 1887 and was one of the first settlers of this community.

On June 18, 1870, he was united in marriage in Marshall county, Illinois, to Mary Riley, who died in this city July 2, 1916. To this union were born nine children, two of whom preceded him to the grave.

He leaves to mourn his demise, five sons, Lawrence, James, John, Miles and Joe and two daughters, Mrs. Frank Stabey and Mrs. Joe McClellan. Funeral services were conducted by Father Fitzgerald from the Catholic church in this city, on Monday morning, at 10:30.

Red Cross Headquarters and Work Room

The lecture room of the Auld public library will be used for chapter headquarters and work room. On Thursday, March 21, the new room will be open for work on hospital garments with Mrs. H. E. Grice, director in charge. Hours 2:00 to 5:00 P. M.

All women of the city who can spare even one hour to help make our soldier boys comfortable are cordially invited to drop in and work. There will be no fees and no assessments at any time. All materials will be furnished by the chapter.

Every bit of work helps. You are needed, won't you come? You will always be welcome and there is a place for you. Help your country in its hour of greatest need.—C. F. CATHER, Chairman.

Library Notes

The library is open every afternoon from 1:00 to 3:30, and from 7:00 to 9:00 every evening and on Sunday afternoons from 2:00 to 5:30.

The Nebraska State Journal and the Omaha World Herald are received daily. You are welcome to come in and read them.

The reading rooms are for free use to the people. Come in any time.

The following magazines are to be found at the library: American, Atlantic, Century, Literary Digest, Life, National Geographic, Outlook, Review of Reviews, Outlook, Scientific American, Scribner, Saturday Evening Post, Woman's Home Companion, and others. For the children there are, The Youth's Companion, American Boy, Bird Lore, Campfire, St. Nicholas, Boy Life and Manual Training Magazines.

The library is for the use of the people living in the country surrounding Red Cloud as well as those living in town. Come in and read the papers and magazines or get a book.

The forty-mile gale, which swept over this vicinity on Saturday played havoc with the smoke stacks on the boilers and oil engine at the city power house. The new steel stack was blown out onto the roadside and it was necessary to cut the same into three pieces in order to repair and erect it again.

There is a Difference in Lenses

Just as there is between a piece of pure gold and that containing alloy. The lenses used by me are the finest that can be had. These come in the rough and are ground until they exactly meet the requirements of your particular eye trouble. One cannot be too careful about the eyes. The matter of a dollar or so should not enter into the calculation. This store refuses to ask for your patronage by price alone—the cure is the thing desired by me or well as yourself. Even so, you will find the charge unusually low, taking into consideration the high quality.

It will be to the interest of your eyes to have them examined here

Come Across or The Kaiser Will

Take your choice! Help Uncle Sam now or pay the kaiser later. We haven't won this war yet, and if we lose it, you can imagine what will happen. If it takes every single spare cent of our money now to win, it's tenfold cheaper than it will be if we lose.

But, investing your money in War Savings Stamps isn't giving—it's only lending your money to Uncle Sam—lending it now when the need is desperate—when the money will hit kultur the hardest.

Buy War Savings Stamps now—for every dollar Uncle Sam can get now is worth ten next year.

You don't want our boys to face Germans with their bare fists like the Russians did.

Money puts guns into our boys' hands—bullets in their rifles—money saves lives, and stamp savers are surely life savers.

Remember, you're giving Uncle Sam only the use of your money for a while. That's letting you off mighty cheap. Others are giving their lives.

You Should Have A Silo

BEWARE YOURSELF OF CHEAP FEED NEXT WINTER
The American Hollow Tile Silo is made from hard vitrified hollow tile, reinforced with half inch steel bars. The dead air chamber resulting from the hollow tile make the only logical wall for a silo. Ensilage will not freeze. It needs no painting or insurance, will not crack, blow down, buckle, burn or rot. It will pay you to investigate this silo for it costs less than any other good silo made.
We are agents for The American Hollow Tile Silo.
