#### DEFINITE AGE LIMITS

#### Men Without Dependants Wanted-To Comb Deferred Class for Industry Workers

Washington-The draft age limits are going up as well as down and the government is preparing to increase the army to 5,000,000 or 6,000, 000 men. These additional men will be largely without dependents and everyone of them will be sent to France, if necessary, to vanquish the Hun. The government does not contemplate the invasion of the deferred classifications of the draft for at least two years, if at all.

There will be, however, an increasingly rigorous combing of the deferred classification for men to take places in essential war industries. The work or fight order will be extended to many additional occupations within the next year. The plan for the 5,000,-000 army will be presented to congress within the next six weeks, according to the war department.

Secretary Baker said he would recommend definite age limits, lowering the minimum below twenty-one and raising the maximum above thirty-one. Secretary Baker previously recommended nineteen as the minimum as well as a maximum short of forty-five.

#### Hun Conspiracies Uncovered

New York.-That Teuton conspirators planned, even after this country's entrance into the war, to use German reservists to invade Canada and Mexico, is indicated in the seized correspondence of Dr. Frederick August Richard von Strensch, according to federal officials. Von Strensch when arrested was described as a former protege of Bismarck. Now he is described as a relative of the German emperor. The objects of the proposed invasions, according to the authorities, were to hamper the dispatch of Canadian troops abroad and to join armed Mexicans for the purpose of making an attack upon the United States.

#### Hindenburg Seriously III

London-Field Marshal von Hinden burg, chief of the German general staff, is seriously ill and has taken no part in military operations of the present year, according to information from Berlin, says a Central news, dispatch from Berne recently. At great effort, the message adds, the field marshal was present at a few of the imperial receptions, but went thru the functions without speaking. He is quite incapable of writing, the advices declare.

#### The Danger of Break Is Past

New York-Expressing the hope that President Wilson will declare his sympathy with Finland and his intention, on behalf of the allies, to see that Finland is allowed to retain full independence after the war, H. Montague Donner, president of the Finland constitutional league of America, issued a statement here in which he danger of a break petween the Finnish government and the allies

#### Mystery Surrounds Report

Nantucket-Mystery surrounds the report of a vessel in distress off the island of Nantucket, brought here by an unknown aviator. Coast guard crews were unable to find trace of the vessel. Marines were inclined to doubt the story, as many unfounded rumors had been current since the sudden appearance of an enemy submarine off Cape Cod. The aviator did not state whether the vessel has been wrecked or attacked by a submarine.

#### Prices that Govern Flour Sales

Washington.-Fair prices to govern the sale of flour and milling products throughout the United States are announced by the food administration. The prices which generally will govern throughout the crop year of 1918-19 were made on a basic price for seaboard points. Jobbers' prices are required to be not more than 25 to 50 cents a barrel over the delivered cost and retailers' prices not more than \$1.20 a barrel over his cost price.

#### Spruce Output Growing

Portland-Output of spruce for airplanes is rapidly approaching the 30,-000,000 feet monthly average set for the spruce division of the signal corps. Forty-one cars containing 900,000 feet dressed and kiln-dried spruce, sufficient for 500 to 1,000 airplanes-according to type-were shipped from Vancouver in one day.

#### 11,533 Trainmen In Service

Cleveland-President of Brotherhood of Trainmen, has announced that up to July 1, 11,533 members of the organization are serving in the army and navy. During the past month more than 2,200 members of the organiza tion entered the service.

#### Five Children Die in Fire

Grand Rapids.-Five children ranging in age from 2 to 12 years, were burned to death, one other received fatal injuries and seven were less seriously hurt in a fire which destroyed the Kent county juvenile home here.

#### Nebraska Still In the Lead Washington-Sales of war savings and thrift stamps have increased rapidly during the month of July with the result that the total value of these securities placed to date have reached \$447,820,970. Detailed figures showing

the sales by states on June 29 shows total sales of \$368,151,175 for the entire country, including Hawaii. Nebraska, according to the detailed figures, is leading in per capita sales with an average of \$16.64. The District of Columbia was second with per cap-\$10 mm of \$7.52.

## Concerning School Frocks for Fall

from kindergarten tot to college girl, to the belt again. Any of the dark will be fittingly clad this fall in sim- colors in wool dress goods will look ple and substantial clothes. Whether | well made in this way. it is because of the war or for other reasons, the new frocks for children either wool or cotton. It is pictured are unusually plain and they are the made of plain chambray with bandings forerunners of fall styles. It is unlikely that anything very different will features appear in the band on one follow them for they are tastefully de- sleeve in the management of the colsigned. School outfits may be got underway now with success assured since all straws that show which way the winds of fashion blow, point toward simplicity of design as a dominant fea-

ture of coming styles. Furthermore, it is the part of patriotism to make over and use again all woolen clothes. Dresses that canserve in place of naw goods for making children's frocks and this conservation of woolen materials is something to be proud of. At the right of the picture above there is a dark serge frock for a girl of eight years or more which has every requirement of a successful school dress and suggests a model for a made-over dress. It has a plain bodice and plaited skirt. It its soldierly touches in the shoulder straps and narrow strap that extends cold water.

All the long procession of malds, from the belt over the right shoulder

The frock at the left is successful in and collar of white pique. Its new lar and in the slit pocket at the right side of the skirt.

#### Serge and Georgette.

Very effective are dresses of a combination of navy blue serge and georgette. A brand-new model in this combination is made with a narrow skirt and a sleeveless jacket of the not be remodeled for grown people will serge, having a full-length panel in the back. Georgette makes the sleeves and fills in the front in a sort of apron effect, and this section is beaded in brilliant colors, a fringe of beads across the front of the apron, which reaches to the knees, repeating the color of the embroidery motif.

#### In Dyeing Anything.

Remember, in dyeing anything, that, is brightened with white braid and to get the best results the things that has two very practical pockets. But you dye must be free from dirt. Boll. what will delight its wearer more are them clean in a boiler of water and

## BREAD MADE WITHOUT SUGAR ASK YOUR WIFE ABOUT THIS Ford Owners Attention

Two Processes Said to Have Been Worked Out by Milling Company of Kansas City.

A method of making bread with neither sugar nor malt has been worked out by a milling company of Kansas City, according to the Baker's Helper. This process uses germ midditngs, which are ordinarily sold for live stock food. Seven pounds of germ middlings are weighed out for use with 100 pounds of flour, placed in a vessel and scalded with water. After it has stood for a short thie. the residium is strained out, and the water is used in making up the dough, adding as much water as is necessary. Sponge made in this way without the use of sugar or malt shows an increased expansion, with a loaf of fine texture and exceptional flavor, a trifle whiter than when sugar is used in baking. The process has been perfected in the milling company's laboratory, and is now being applied commercially. Another process consists in taking 5 per cent of the flour to be used in the bread batch and let it stand for several hours in five times its volume of water, at a uniform temperature of 150 degrees. This makes sugar unnecessary, but does not dispense with the desirability of using malt.

Army Makes Record Meat Purchase. Chlcago.-The largest single order for bacon and canned meats in the history of the world-99,560,000 pounds of bacon and 134,000,000 pounds of canned ment-has just been placed by the Quartermaster's Department, U. S. A., for the American Army over-

Louis F. Swift, in commenting on this today, said the order will take the bacon from approximately 1,900,-000 hogs, and if other work were dropped to produce it, would be equivalent to the total bacon production of the five largest Chicago packers for pearly five weeks. However, six months Vill elapse before delivery is to be completed. Mr. Swift said:

"At the current prices on the day, last week, when the purchase was made, the packers would pa; the live stock producers about \$\$0,000,000 for the necessary hogs and over \$50,000,000 for about 900,000 cattle required. The cattle will cost us twice as much, and the hogs two and one-half times as much as in the pre-war period.

The whole order will be made up before the first of the year, despite the fact that, even before this purchase, one-fourth of the packers' facilities have been devoted to filling military demands. In order to get out the canned goods the packers will find it necessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being rushed forward thus hurriedly, not a single complaint has been received on ments delivered to the armies abroad.

The five packers are now killing about 360,000 hogs weekly to keep

#### Categorical Denial. "But, madam, if you don't want this

set of Shakespeare's works, maybe your husband there would like to have the books."

"Umph!" replied the strong-minded female, with a sniff. "Maybe he'd like to have an automobile and a big roll of money and a night off occasionally to run around with the chickens, but a fat chance he has to see his dreams come true! Good day."

When a man tells a woman a joke he usually has to follow it up with an explanation.

Some men can't screw their courage up without a corkscrew.

She Is Very Likely to Tell You That Little Sammy Squiffins Was Pretty Nearly Correct.

"Now, children," said the teacher of the class in mental arithmetic, "work this problem: A man enters a grocery store and purchases, at the prices which I have marked here on the blackboard, one peck of potatoes, three and a half pounds of butter, one and three-quarters pounds of sugar, 48 eggs, a pound and a quarter of cheese, three quarts of strawberries, five pounds of beans and two dozen oranges. He orders them delivered to his home and tenders the clerk a twenty-dollar bill. What has he left?" (Pause of one-eighth of a second until Sammy Squiffins, the brightest lit-

tle lightning calculator of the class. can raise his hand.)

"Well, Sammy, you may answer, What does the man have left?"

"Car fare," says Sammy, who has heard father discuss the high cost of
