By DR. ARTHUR N. DAVIS Dentist to the German Ruler From 1904 to 1918

STERVINE THE PROPERTY OF THE P

R. DAVIS, a young American, born at Piqua, O., and graduate of a Chicago dental college, went to Berlin in 1904 to work with a famous dental surgeon who for years had been practitioner to the kaiser and other members of the German court. Within a short time Dr. Davis' associate committed suicide and the young American was established as the court dentist. In that capacity he became intimately acquainted with the kaiser, and the latter. in the course of dozens of friendly talks, revealed himself and his ambitions as he probably did to no other person outside his immediate circle.

Dr. Davis has written the story of his relations and interviews with the kaiser and we have arranged to print his remarkable narrative in serial form. The first installment will appear in an carly issue.

This true narrative lays bare the mind of the despot who has deluged the world with blood. It shows by the emperor's own words how he has approved every act of cruelty and barbarity that the German armies have perpetrated during the war. It shows how the kaiser grew to hate and despise Americans and how he gave warning that the United States should be punished.
