Let's show the Prussians that America is not bluffing; that every man and every dollar of the nation is united in one purpose—"to make the World Safe for Democracy."

Your Government asks you to support the Fourth Liberty Loan—not at any real sacrifice—such sacrifice as it demands of the men in uniform—but to support it with every dollar at your command.

Your government asks you to invest your savings with it in the great enterprise of making you, your family and your income safe against the tribute exactions of autocracy. There's everything to gain.
