When the Firemen Appear

the insured man's first thought is one of thankfulness that he is so. How about your thoughts if a fireman should appear at your home?

The Day Before the Fire

is the day to insure. As that day may be to-morrow for all you can know or do, it follows that prudence would impel you to stop in our office to-day and have us issue you a policy.

Sheep Best Farm Fertilizers.
Sheep produce the most valuable of all farm fertilizers. Their sharp hoofs work this well into the soil. This quality has earned for sheep the title of "Golden Hoof." In England land which during Queen Elizabeth's reign produced only six bushels of wheat per acre has been made to yield 30 bushels at present, simply by pasturing the land to sheep.

Rain-fall since January 1, 33.78 inches; mean 25.27 inches. Ten year mean rain fall for October 0.79 inches; October 1913 0.67 inches; October 1917, 0.24 inches.

The majority rules—it was a good fight and the figures indicate only winners and losers. Everyone is just as good an American today as before election. We take issue with our contemporary the Advertiser, in which insinuates that Wilson tried to infuse obsolete methods into the campaign, and that the vote reflected a "spirit of disapproval." President Wilson asked no more than was within his rights. Asked no more than Lincoln and McKinley asked. And we are broad enough to believe that our political opponents were not actuated by "a spirit of disapproval." The split on the county ticket shows that voters used their franchise in accordance with their best judgment, not "in a spirit of disapproval." The American idea prevailed. The votes were American, cast by Americans, for America.

Helping to Win the War

Her husband had left her and she'd all the work to do.

Despite the day the plumbing broke and let the water through.

The baby had the chicken pox—she had to go and see.

The doctor on the subject, and she fell and sprained her knee.

A passing neighbor brought her home—she'd fainted out by then.

She was a frightful meal, and then she got her up and pen.

And wrapped a shawl around her, and beneath the evening lamp.

She wrote a letter to her man—a soldier down in camp.

"Dear John: Your loving letter was received today. I hope you're well. I keep so busy that I have no time to write.

The father's cold, but beautiful and spring is on the way.

The baby's got a tooth. I took a trip down town today.

And Mr. Johnson picked me up in his big motor car.

And thought me home—you can't believe how kind the neighbors are!

Baby and I decided we will lead the simple life.

And stay at home for quite a while. With lots of love,

Your Wife."

Her name is Mrs. Legion, and she's quite well known to me.

Her husband is a soldier of his country. So is she.

A woman who writes a letter like the above is helping to win the war.

WOMAN'S STATEMENT WILL HELP RED CLOUD

"I hated cooking because whatever I ate gave me sour stomach and a bloated feeling. I drank hot water and olive oil by the gallon. Nothing helped until I tried simple buckthorn bark, glycerine, etc., as mixed in Adler-ika." Because it flushed the EN-TIRE bowel tract completely Adler-ika relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT action is surprising.—Chas. L. Cotting.
