RED CLOUD NEBRASKA

When the Firemen Appear

The insured man's first thought is one of thankfulness that he is so. How about your thoughts if a fireman should appear at your home?

The Day Before the Fire

is the day to insure. As that day may be to-morrow for all you can know or do, it follows that prudence would impel you to stop in our office to-day and have us issue you a policy.

You Are Losing Money

If you don't sell your cream to the Farmers Union Co-operative Company and receive the dividends. 40c

The Ellis shoe store seemed rather lonesome Monday, Mr. Ellis being a new subject for the latest style enforced vacation, and the other members of the family therefore remaining at home. Miss Helen's ukulele was silent and aside from transient customers Miss Vera Waite the only occupant.

Merit, ability, and character are the factors by which the business man chooses help. If your competitors for a position are business-trained, in an Accredited Commercial School, what chance have you of securing the position? The business-trained boy or girl can write better, spell better, compose a letter better, and talk better than you. As a matter of SELF-PROTECTION, you must be trained in business. Send for free catalogue of the Grand Island Business College, Grand Island, Nebraska—over thirty years experience in training young people for Government, Banking and Business Positions.

Among other incidents appropriate to the day annually devoted to giving thanks is a beautiful dinner. This being the case it seems, at first glance, a strange procedure for restaurants to close up for the day. Consider, however, that nearly everybody will assemble in family reunions; that the foot ball team is going to Superior for a game and will take a large percentage of the younger people with them, and that the restaurant folks, who work long days and some nights all the year round, will certainly enjoy a day's rest, it is not unreasonable that doors to the public "eats" should be closed for a few hours. Only a few of the elderly unmarried will suffer any privation, and the old bachelor who has no home will have to stand the "gaff."

The Jesman has lost his job. Old King Coal now heads the procession, and "good old summer time" is only a memory. Nevertheless these frosty, snappy mornings and clear cool days have a charm of their own, and are unquestionably healthful.

The Victory Boys and Girls of Webster county are doing themselves proud in the War Work Campaign, and demonstrating that our country's men and women of the future will be possessed of a spirit of patriotism 100 per cent fine. Some of the schools have pledged as high as 500 per cent on their quota.

Frank Ellinger suffered a fractured ankle Sunday. He was driving cattle and his horse stumbled and fell in such a manner as to catch the rider's limb. His father, J. H. The Independent Telephone Co. Central office is working under difficulties on account of shortage of help. Much assistance to the service may be rendered by subscribers if they will use the phone for business purposes only—refrain from visiting calls and non-essential conversation until the Central girls are able to resume their places and handle the calls efficiently.

Taking note of general health conditions over the county there seems a consensus of opinion that large public assemblies should be deferred for a time. The smaller and more exclusive community assemblies where everyone knows everybody do not present the same menace as do those where strangers from widely separated points come together in a body. It's better to be safe than sorry.

The many friends of M. E. Quigley will be interested in learning that he is improving in health and prospects. He is at present in Chamberlain, S. D., having been moving about along the southern edge of that state ever since his departure from Red Cloud, working part of the time and recuperating between times. Had a pretty serious week in hospital with the "flu" but pulled through safely.

Hostilities have ceased and the Chief suggests that as there is no further danger of enemy aeroplanes sailing over and dropping bombs these dark nights, that lights be turned on sufficiently to permit pedestrians to distinguish the difference between a cross walk and a gutter. It might be added that this suggestion is made with comfort and safety as its motive, not with desire to deprive any lawyer of employment in a damage suit.

"There's a Farm for You in Colorado"

"The Big Horn Basin of Wyoming"

Describe sections with low priced lands that grow large and high-priced crops and should appeal equally to investor and homemaker. If you are searching for a home where wheat and livestock farmers flourish, where their families enjoy modernized farm life and where Burlington lines afford quick service to every market center, visit **SOUTHWESTERN NEBRASKA and NORTHEASTERN COLORADO**; see these great, fertile prairies and locate your son or yourself where you are sure to prosper.

Or, if you prefer irrigated farming, go to the **BIG HORN BASIN OF WYOMING**, where every irrigated acre is sure to reach a high price. Take an irrigated homestead in the Deaver project—one of the best projects the government has developed—20 years to pay for water right—no interest and no profit taken.
