Our Schuyler Returns

Monday was sort of gala day at the Chief office, due to the return of Schuyler Hayes, who went out of the office last May and became one of Uncle Sam's sailor boys. Since that time he has been half way round the globe and discovered that despite the immense area of Nebraska a large portion of the world lies outside the state boundaries. He arrived from Carolina via the early morning train, having been three days on the road. Except for the jaunty sailor suit and a new, indefinable impression best described by the word "manliness," he is the same Schuyler who went forth to do his part in the world-war so recently terminated. Honorable discharge is among his credentials and having, in much less than a year, seen more of the world than a large majority see in a lifetime, he will hide at home for a while and give relatives and friends the benefit of his experience.

Methodist Church Notes
