

THE EVERYDAY BATTLE

Battles are not all fought with cannon and shell. The most vital are the everyday battles against the debilitating tendencies that invite weakness. For nearly five decades

SCOTT'S EMULSION

has been a definite help to millions in the trying battles against weakness. Scott's is as rich in blood-forming properties and as powerful in strength-supporting qualities now as of yore. Let Scott's Emulsion help you win your battles.

Sumptuous Dinner

Twenty-five members of the Relief Corps and the G. A. R. met at the home of Mr. and Mrs. S. R. Boyce Saturday and enjoyed a real old time social day. The soldier boys of the sixties do not assemble often now and to them it was an especially enjoyable event.
The festivities had been planned for a much earlier date but on account of health conditions were postponed until now.
The visitors came amply provided with good things in the line of eatables and when these, under the artistic supervision of the hostess, were spread upon tables there was a feast to tempt both eye and appetite.
Not to be overlooked was the fact that a majority of those present live in the state of single blessedness and despite the fact that a number of years have passed to their credit, they enjoyed the occasion as boys and girls at a picnic.
When the sun was getting low in the west all departed for their homes affirming that the day would be long remembered with pleasure.

Revival Campaign Continues AT Christian Church

A Full Gospel will be preached. This is not a denominational effort. All anxious to extend the Kingdom are urged to cooperate.

J. L. BEEBE, Pastor.

Real Riches.
Do you know what real riches are? Real riches consist not in having, but in giving. Some of the people who are envied as wealthy, are in reality poor starved souls to whom the joy of sacrifice is an unknown luxury. Not until you master the art of giving up for others are you really rich.—Exchange.

Grandmother in Eighteen Days.
A lady green bug becomes a grandmother in 18 days. One can imagine, then, notes a naturalist, the multitudinous armies of these insects that may develop in the course of a season. Their worst foe is a tiny black four-winged fly that deposits an egg in each bug it comes across, its larva consuming the bug's inside works and using its shell for a house.
