

PERUNA A Wonderful Remedy

FOR EFFECTS OF LA GRIPPE

Mr. George E. Law, 15 1/2 North Franklin St., Brazil, Indiana, has a word of cheer for sufferers from LaGrippe and its results.

Liquid or Tablet Form Sold Everywhere

Read His Letter

"I have suffered for the last two winters with that terrible disease, LaGrippe. Having often heard of the great value of Peruna I decided to try it. I have only used four bottles and I do not now have any bad effects from the Grippe as it has just about entirely disappeared, and my general health is good. I am satisfied that Peruna is a wonderful remedy, and I do most heartily endorse and recommend it for LaGrippe."

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There is no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Waste Bones Still Required.
The women of Great Britain who responded so nobly to the appeal for munitions may still continue to do service to their country by retaining the habit they have formed of conserving the waste bones and fats. The waste bone provides, among other things, glue which is urgently needed in every kind of reconstruction work, such as building, cabinetmaking, house furnishing, shipbuilding, airplane construction, etc. They also obtain from it fertilizers to enrich the land, besides many articles of domestic utility.—London Mail.

Little Things Cost.
The reason so many Americans have not been thrifty was because they failed to appreciate the power of little things. It is yielding to the little impulses to spend small amounts foolishly that keeps many a family hard up from one year's end to another.

It was the thorough appreciation of the value of little things that made many a man wealthy and powerful.

In these war days, learn to prize highly the little things. To understand their value is to know one of the chief secrets of success and happiness.

WRONG VIEWPOINT OF LIFE

Foolish "Modern Girls" Who Get the Idea That They Know Better Than Their Mothers.

Scene—The dressing room of a Broadway restaurant at the dinner hour. Two of the prettiest girls imaginable, both in frocks that suggested not the city shops, but the careful fashioning of mothers' hands, were smoking and laying on rouge, with lavish hand. And both were excited, for evidently things had been happening at home.

Said Rose and Black: "Those chumps told me that I hadn't been working there for six weeks. There was an awful row at home when she found out."

Her companion sneered complacently: "Well, I never tell my mother anything. My job's my own business. What's the use? They don't seem to understand that times have changed. You can't live in New York like they did in the backwoods when they were young. If they think I'm going to slave in an office at twelve a week and never go out at night and then marry someone who means the Bronx and three rooms they have another guess coming. Not for me."

Two pretty faces, hardened into lines that ill became them, turned toward the corridor and their waiting escorts.—New York Sun.

Dog Teams Saved Many Lives.
Word has recently been received of the heroic efforts made during recent months to check the influenza epidemic in Yukon territory, where remote communities faced grave danger because of limited medical and nursing supplies. To meet the emergency, Indian runners with dog teams were dispatched from Dawson with anti-influenza serum and sent across the snow as far north as Fort McPherson, near the mouth of the Mackenzie river, making the round trip of 1,000 miles in a little less than two months, which is a fair performance in mid-winter. The journey included crossing the Rocky mountains.

Counted 'Em.
Almost by design, it seemed, a health officer placed a card on an Adams street home, directly under the house number.

Two youngsters on their way home from school stopped to try to read the card.

"What does it say?" asked one.

After a close scrutiny the other replied: "It says '3436 Measles.'"

"My sakes!" said the first speaker. "I knew you had to have a card on the house, but I didn't know you had to tell how many spots there were on you."—Chicago Journal.

A French Orphan.
One returned overseas soldier told about his company adopting a French orphan. They were all excited about it and all had in mind a little homeless girl or boy, and when the picture came that the government sends of each one, it was the picture of a woman of about forty years old.

CONQUEST OF THE AIR

Aerial Service for Passengers, Mail and Merchandise.

BIRDMEN MEET NEXT MONTH

Big Convention of Pan-American Aeronauts Will Stimulate Enlistments in the U. S. Air Service.

Washington, April 16.—Atlantic City, N. J., will be the Mecca for a large gathering of American men, and representatives of foreign countries, who will be attracted by the first Pan-American Aeronautics convention, which meets there in May.

Capt. Charles J. Glidden of the United States air service, military aeronautics, now stationed in the administrative department of the United States flying school, Southernfield, Ga., says:

"The Pan-American Aeronautics convention and exhibition to be held at Atlantic City during the month of May will bring to the attention of the American people the wonderful progress of aviation. The work of aircraft during the war establishes its practicability for commercial uses and insures the creation in this country of a complete aerial service, connecting all cities and towns for the transportation of persons, mail and merchandise.

"Before the close of 1920 I confidently predict this service will be in full operation, with extensions to all countries on this hemisphere. In the United States trunk lines will be established across the country which will place every city and town within six hours from some twenty-four distributing points. Once created and in operation our extensive coast line could be put under complete protection from any possible invasion. Thousands of college trained aviators in and out of the service are now waiting to join in the operation of an aerial service.

"The government calls for 15,000 men to enlist in air service for one or three years' term. This is bound to receive a quick response, as here is an opportunity for men to be immediately assigned to duty in the service and of the number who enlist those who pass certain examinations will be given flying and balloon piloting instruction. This liberal offer is equivalent to a one or three years' college course in aeronautics, and one may become expert in all branches of aviation, and if qualified a noncommissioned or even a commissioned officer. In addition to regular pay, clothing, quarters and rations, extra pay begins with instructions to operate the aircraft. As the number of men wanted is limited to 15,000 for the entire country, quick application to the nearest recruiting officer will be necessary before the privilege is withdrawn.

"Everybody directly or indirectly interested in aviation should attend the Atlantic City convention and exhibition in order to keep abreast with the times and become familiar with the development of aircraft for defense and commercial uses and witness the demonstrations of the world's greatest airplane aviators, who will fly, and balloon pilots sail to the Atlantic air port from all over the country."

SECRETARY BAKER IN PARIS

No Draft Men to Stay in Germany—Talks of Disposition of Government Property.

Paris, April 16.—American troops to the number of 275,000 are returning to the United States from Europe during the present month. Newton D. Baker, secretary of war, said on his arrival in Paris from Brest.

In May, he added, the number will fall to 250,000 because of lack of transports, but in June the number probably will rise to 300,000, which will be maintained as the monthly rate until all of the 1,400,000 men still here are returned.

The secretary said that if any agreement should be reached by which American troops would participate in the defense of the Rhine indefinitely, undoubtedly the only soldiers used would be those who volunteered for such service.

Mr. Baker said he was in France to participate in the work of the American liquidation committee. He expects to go to Coblenz and the former fighting front with General Pershing and to return to the United States within ten days.

The secretary of war declared that no decision had yet been reached as to what disposition would be made of the docks, warehouses and other permanent improvements constructed in France by the United States government. He said that large quantities of captured guns and other war material would be taken to the United States as trophies. Much American heavy artillery equipment also will be returned, but no decision has yet been made as to the disposal of automobiles and motortrucks.

Belgium, the secretary said, is to get large quantities of cotton goods and foodstuffs from the American army.

ALLIES DRAW 2 PEACE PACTS?

Delegates Confer on Last Questions Awaiting Settlement, Report.

FIRST CONCERNS HUNS ONLY

Second Part Will Be Signed by Austrian, Bulgarian and Turkish Delegates—Paris Arranges for Arrival of German Envoys.

Paris, April 17.—The peace treaty will be divided into two parts, according to the latest information in the French press.

The first part will concern Germany, and will include a clause by which she will pledge herself to comply with all agreements to be concluded with her former allies. The second part will not concern Germany directly, and will be signed only by the Austrian, Bulgarian and Turkish delegates.

A formal invitation was sent by the council of labor of four to the German government to send representatives to Versailles for the meeting of the peace congress April 25. No reply had been received up to last night, but it is expected the German delegation will reach Versailles about April 24.

The complete German peace mission probably will number about 200 persons. The German delegates while at Versailles will reside in a wing of the prefecture of police, according to arrangements announced by Paul Dutscha, general secretary of the peace conference.

French delegates will occupy the rest of the hotel, once the home of Mme. de Pompadour.

Most of the French and other delegates probably will go to Versailles daily to attend the meetings with the German delegates at the Trianon Palace hotel, where the supreme war council has had its headquarters. The meetings with the Germans, it seems probable, will continue ten or fifteen days.

The treaty will be signed in the famous Hall of Mirrors in the palace at Versailles.

The council of four took up the question of the Adriatic again. Arthur J. Haffour, secretary for foreign affairs, took the place of Premier Lloyd George, who went to London.

A plan for selling surplus stocks of raw materials of the allies to the German government prior to the signing of the peace treaty has been approved by the supreme economic council.

A special committee will perfect the arrangements in conjunction with the blockade and finance sections of the economic council.

REVISED CASUALTY RECORDS

Latest Figures Show 274,860 U. S. Army Casualties—32,884 Men Killed in Action.

Washington, April 17.—Revised army casualty records made public here, show 274,860 major casualties, an increase of 1,755 over the total announced a week ago. The items are: Killed in action, 32,884; died of wounds received in action, 13,485; died of disease, 22,656; died from accident and other causes, 4,248; wounded in action (over 85 per cent returned), 197,574; missing in action (not including prisoners released and returned), 4,563.

ORDERS WOMEN COMMUNIZED

Munich Soviet Includes Wives in Order Issued as Rule of City Totters.

Berlin, April 17.—The communist government in Munich, apparently realizing that its days are numbered, issued Saturday a long list of orders more radical than its previous decrees. One order provided for the communization of women, "including wives." Another order displaced all managers and directors of industrial establishments and gave their places to the workmen.

Berlin, April 17.—In attempting to disperse a crowd of demonstrators at Isertloeh, Westphalia, the civilian guards threw bombs. Eight persons were injured and taken to hospitals and many windows were smashed.

"ASPIRIN" WAS TALCUM POWDER

Heavy Sentence Imposed on Manufacturer of Tablets.

(ASSOCIATED PRESS DISPATCH)
NEW YORK, December 31.—Accused of having manufactured and sold to influenza sufferers thousands of boxes of aspirin tablets, principally composed of talcum powder, Joseph M. Turkey, head of the Verandah Chemical company, of Brooklyn, was found guilty yesterday of violation of the sanitary code and sentenced to three years in prison with a fine of \$500. The sentence was the most severe ever imposed in the country for such an offense.

Pre-War Days.

It is altogether a good sign that we seem to be making so great a catchword of "pre-war" says London Daily News. Whenever it is desired to say that anything is going on well or comfortably, or easily, if an entertainment is brilliant or a sale successful, it is described at once as "quite up to pre-war standard."

And yet are we not suppose to have entered on a new ideal in which post-war will be a much greater thing than pre-war?

Close Calculation.

"I always prefer playing big cities to playing one-night stands," remarked Mr. Stormington Barnes.

"What's the difference?"
"I like to have people stay through the show. In a one-night stand everybody has a home to go to. In a big city a lot of people would rather sit in the theater than go back to the hotel."

Drinking may induce a general good feeling, but the good feeling isn't there the next morning.
