Naval Academy Scene of Gala June Event

The following taken from the Evening Capital, of one week ago today, which is published at Annapolis, Maryland, in connection with the Maryland Gazette, bears on the graduation exercises of the Naval Academy, of which Alvin Blackledge, son of Attorney and Mrs. L. B. Blackledge, of this city, was a member of the class. Attorney and Mrs. Blackledge witnessed their son's graduation and will visit for a short time, in the east, before returning home.

"Circumstances combine to make 'June Week,' which opened officially here this morning, notable among the gala periods which have been held in the past to mark the presence of the official Board of Visitors and the graduation of another class of Midshipmen.

"The biggest class of graduates and the biggest regiment of midshipmen which has ever been at the institution; the first June week in three years; the presence of a squadron of great battleships on the offing; a particularly good feeling in the Navy on account of its recent triumph in the cross-Atlantic flight and at the Naval Academy on account of its notable athletic victories; an unprecedented number of visitors, and the kind of weather which naturally belongs to the occasion and contributes to its beauty and interest, are some of the circumstances which make this June week stand out among those which have preceded it.

"The formal part of June week started this morning, a little after eleven to be precise, and though the Board of Visitors was represented by only two members, Representative Charles R. Crisp, of Georgia, on the part of Congress, and Dr. Arthur Newell Talbot, of the University of Illinois, on the part of the civilians, June week got under way just as well, for the real June week, though officially existing on account of the visit of those appointed by Congress and the President to inspect and report upon it, is coming more and more to center around the graduation of the class—in fact, is becoming a real commencement season with features which only could be presented by the unique institution which prepares American youths for commissions in the Navy.

"Indeed, the atmosphere began to form last week with the arrival of hundreds and hundreds of the relatives and friends of the graduates and others, from every portion of the nation. Bearing a direct relation to the size of the graduating class and the regiment, the crowd is larger than ever before, while the break in the observation of June week during the war, caused a greater general interest in it upon its renewal. Then the arrival of the battleships which will carry the midshipmen on their summer cruise, brought many naval officers here, and these attracted another lot of relatives and friends, so that it is, indeed, a crowded Annapolis which is presented."

June week opened officially with the formal reception to the representatives of the Board, Representative Crisp and Dr. Talbot doing the honors, though other members are expected during the day and tomorrow. In fact, it is understood that most of the civilian members and a majority of the Congressional members will be here for part of the week at least.

Dr. Edwin A. Alderman, president of the University of Virginia, and chairman of the Board, will be unable to attend this year, and the Secretary of the Navy has designated Dr. Henry B. Fine in his place. Commander Walter N. Vernon, head of the department of navigation, will represent the Academic Board with the Board of Visitors, and Lieut. Commander Rivers J. Carstarphen will act as its secretary. The members will be entertained at the homes of different officers of the Academy.

Band Concert

The Band Concert which was announced for last Friday night was deferred because of the High School Play. The program published last week will be given Friday, June 13th, at 8 p. m.

Will Topham's Ford Stolen

At 10 o'clock, the property of Will Topham disappeared last Saturday night. Diligent search combined with an offer of \$500 reward for the return of the car and the conviction of the thief, have failed to bring any information concerning its whereabouts. Mr. Topham had the car parked on the thoroughfare in the usual manner and upon returning from looking after business matters found it missing. A ladies coat and three children's coats were in the car.

Will Act on Paving Tonite

Petitions have been filed with the city clerk for the paving of Cedar and Walnut streets and two more are now being circulated for the paving of Seward street and Fourth avenue west from Webster street. In all probability definite action will be taken on these paving problems at a meeting of the city council this evening. With these streets paved, with what has already been laid on our principal thoroughfares, a beautiful library building and a spacious auditorium Red Cloud will take on the appearance of a real up to date little city.

Held Interesting Meeting

A regular meeting of the Chamber of Commerce was held at their quarters Tuesday evening and many important present day topics were discussed. A number of bills were read and ordered paid.

Attorney H. S. Foe was appointed to solicit more funds for the purpose of defraying the expense of maintaining our band and paying the salary of the leader, Prof. Miller.

F. W. Cowden reported that the officials of the Golden Rod Highway would soon send out men to mark the same.

The Community Welfare Committee was instructed to obtain an athletic field, the same to be used as a ball diamond and also by the High School for football and other games.

The matter of the repairing of the Kansas road was brought before the meeting. This report indicates that this road is badly in need of repair and immediate action should be taken to put it in a condition that will enable our Kansas neighbors to reach our city. Messrs. F. J. Munday, F. E. Maurer, F. W. Cowden, F. G. Turnure and W. D. Edison were appointed a committee to interview the county commissioners and see if this much needed improvement cannot be made.

The proposed Home Coming Day for returned soldiers and sailors was the next topic discussed. C. J. Platt made a motion—which was carried—that the president be given power to appoint a committee of five to arrange a program for the event, also to appoint any sub-committees that may be necessary. The only request made of the Soldiers is that they are to appear in uniform and take part in the parade. As soon as the program is arranged the same will be submitted, at a special meeting of the Chamber of Commerce, for their inspection. The committee is composed of C. J. Platt, W. A. Sherwood, F. W. Cowden, B. McNeny and Frank Starr.

Secretary R. P. Weesner was present and gave a glowing account of the State Convention of Commercial Clubs, held at Broken Bow, to which he had gone as a delegate. Much benefit was derived and data received that will be referred to from day to day.

Raymond Turnure left Monday for West Point, New York, where he will enter the Military College, of which he obtained an appointment to attend some months ago.

Lee McArthur spent the first of the week in St. Joe.

Thank Thos. A. Edison for these Period Cabinets

It was Mr. Edison himself who remarked some months ago "If period cabinets are desired by people who are willing to pay several thousand dollars for an Edison Phonograph, why not put all Edison Phonographs into period cases and let everyone have the best there is in cabinet design?"

The word went forth. From (excepting two models for special purposes) each New Edison instrument, no matter what its price, will be encased in an exquisite period cabinet. Sheraton, Heppelwhite, William & Mary, Chippendale, Jacobean, Eighteenth Century English; cabinets in these periods, the last word in lines of classic furniture beauty, are now on display at our store. They are duplicates of those shown this month to New York furniture lovers at the Hotel Commodore.

For a wedding or anniversary gift what could be more appreciated.
