

## What Are You Losing?

**BECAUSE** you have not yet bought a tractor, we think you must have been doing a little quiet figuring to see just what you are losing in time, labor and money by not having a tractor especially built to operate on low-priced, low-grade fuels. Remember that the

### Titan 10-20 Tractor

is designed and built with but one purpose in view—delivering its full rated horse power and doing good serviceable drawbar and belt work at all loads within its capacity, on kerosene or any oil fuel down to 39 degrees Baume.

You know what kerosene costs compared to gasoline. The difference in the present prices of these fuels represents a saving of from fifty to sixty per cent in the cost of fuel to a Titan owner.

What higher recommendation can a tractor have than demonstrated ability to deliver at all times, in all seasons, low-cost, dependable power at drawbar and belt?

You know the Titan does that. You know why it does. Let us remind you again that Titan tractors are worth owning and that you cannot place your order too soon.

## The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

Swift & Company, U. S. A.
