

Titan 10-20 Kerosene Tractor

THIS tractor is designed and built to operate from start to finish on low-priced kerosene (coal oil), or distillate. It does more than simply run on kerosene—it delivers its full rated horse power or does any kind of work within its capacity on any kind of oil fuel above 39 degrees Baume.

What This Means to You

It means that at the present prices of gasoline and kerosene in this locality you will save fully one-half your fuel costs over a tractor of equal horse power operating on gasoline.

At Drawbar and Belt

A Titan 10-20 will furnish dependable power in all seasons. For field, road, or belt work it can be used day and night if the case demands. It will do this work at the least possible expense because it operates on low grade fuels.

It is worth your while to examine the record of the Titan 10-20. Find out what it is doing for others and then apply that to your own case. Then give us your order—so that you can get delivery of your tractor when you want it.

Advanced to Second Class

As the Red Cloud post office has been advanced to second class all Sunday and Holiday service, except as provided by Sec. 253, must be discontinued. Sec. 253 reads: Post offices of the second class shall not be open on Sundays for the purpose of delivering mail to the general public, but this provision does not prevent the prompt delivery of any special delivery mail. Postmasters of the first and second class shall not require more clerks and carriers to be on duty Sundays than are requisite to prepare mail for dispatch and to make such distribution of incoming mail as is necessary to meet the requirements concerning special delivery mail and all necessary distribution to lock boxes, and to deliver mail of special importance called for and described, while employees are on duty on account of such distribution. The hours which the post office lobby will be open are 8:30 to 10:30 a. m. Sundays and 8:00 a. m. to 7:30 p. m. week days.

Boys' and Girls' Club Work

Miss Mabel E. Kirk, an assistant state leader in boys' and girls' club work spent three days in the county last week with County Boys' and Girls' Leader, J. C. Hagey. The purpose of Miss Kirk's visit was to help organize groups of club members into Standard Clubs that are promoted by the Boys' and Girls' Division of the Department of Agriculture.

Groups of club members at Bladen, District 90, District 3, Guide Rock, Inavale and Red Cloud were either organized or some phase of club activities discussed and demonstrated. At Eckley consolidated school, Dist. 90, judging contests in baking and sewing and a demonstration in making muffins were put on by club members.

Only those places where at least five members were working along the same project were visited as no club can be organized with less than that number. In those communities where there are less than the required number, the work will be taken up with the individual members. However, it is hoped that next year there will be more places where the Standard Club is possible.

The girls in the Canning Club at Red Cloud have completed arrangements, and are now operating the community canning kitchen at that place. This is surely a very practical way for the girls to carry out their club work and the community should be exceedingly proud that they have in their midst a number of girls who have enough of the community spirit to undertake this work. This is simply another example of what club work hopes to accomplish—SERVICE.

It is hoped that from these girls a demonstration team can be picked which can be sent to Lincoln to the State Fair.

The Christian Endeavor and Missionary societies of the Christian church gave a good program before a large audience at the Christian church Sunday evening. Afterwards Rev. Beebe's resignation was taken up and was overwhelmingly rejected. As yet he has not decided what he will do.

A Star in a big Story

Magnificent, magnetic Kitty Gordon, popular favorite comes to the Orpheum theatre on Monday for two days in the sumptuous offering. In "Adele," picturization of the famous romance, "The Nurse's Story," which was written by the well known American author, Adele Blenau, Miss Gordon portrays a role affording splendid opportunity for her talent while the picture is replete with a sumptuousness of detail and richness of production.

The fascinating story of "Adele" reveals in thrilling fashion the great romance of a woman's choice between love and duty and tells with tense human note a Red Cross Nurse's startling adventures in France.

Attention Soldiers!

Posts of the National Organization of the American Legion, made up of soldiers, sailors and marines of the late war, are being organized throughout the country.

The purpose of the organization is to uphold the constitution of the United States, foster a one hundred per cent Americanism, preserve the memories and incidents of our association in the great war, to combat autoeracy of both the classes and the masses, to promote peace and good will on earth and to transmit to posterity the principles of justice, freedom and democracy, to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.

Fifteen or more soldiers may organize a post in any locality.

Early in September Colonel Roosevelt Jr., will be in Nebraska to deliver several addresses to members of the American Legion.

For full particulars, constitution, by-laws, etc., write the undersigned and you will receive the same.

JOHN G. MAHER,
President, American Legion

Ask your local ticket agent to help you plan your trip and furnish you with descriptive booklets of points in which you are interested.

Misses Fannie Miksch and Gertrude Topham spent last week in Denver, visiting their brothers.

Interviews with farmers living in this vicinity and also our sister state to the south (Kansas) have resulted in convincing us that Nebraska and Kansas will harvest a wheat crop this year such as has never before been equalled in this section of the country. They claim that if nature plays fair with them for a few days more the crop will be safe. Some of the farmers have already entered their fields and are now harvesting, while others are busily engaged in preparing for the harvest. They also state that corn is progressing nicely and present indications are that there will be a bountiful crop. Calls for help to harvest the wheat are coming in and preparations are being made for rounding up the business men and city lads to assist their rural neighbors.
