Will Sell Local Ice Plant

Unless some immediate action is taken by some of our enterprising citizens in the matter of securing competent help to operate the ice plant the same will be shut down. Frank Peterson states that he is compelled to do this as the shortage of help has made it necessary for him to spend the most of the 24 hours of each day looking after the plant and this combined with assuming the responsibilities of keepings moving in his other business enterprises has proven to be too much of a burden, mentally and physically, therefore he must heed his health's demands. The Commercial Club has responded to his appeal and will endeavor to either find competent help or secure a buyer for the plant.

Mrs. Wolfe Dead

Ada Elizabeth Hilton Wolfe was born in Beloit, Wisconsin, August 13, 1871 and departed this life at her home in St. Francis, Kansas, June 26, 1919, age 47 years, 10 months, 14 days.

She was united in marriage to John H. Wolfe October 20, 1894. To this union were born three daughters, Mrs. Wm. Zimbelman of St. Francis, Kas., Mrs. J. A. Busch, of Bird City and Miss Lottie, of this place, all of whom were present at the time of her death.

She united with the Brethern church of Red Cloud, Nebr., some years ago. She has been a patient sufferer for sixteen years and during the trials and tribulations of life she closely followed the teachings of her Master, hoping that he was building for her a mansion in the skies where trials and suffering would be no more.

She leaves to mourn her loss, her husband, three daughters, four sisters, two brothers and three grandchildren. Funeral services were conducted by Rev. Knoles at the Christian church of St. Francis, Friday afternoon. The remains were laid to rest in the city cemetery.—St. Francis, Herald.

Such will be New Edison phonographs, now that they're being encased in period cabinets of classic beauty. From now on, with the exception of but two models, all New Edisons, at whatever price, will be offered in cabinets portraying the exquisite art of the famous designers of period furniture's golden age.

The NEW EDISON

"The Phonograph with a Soul"

the only phonograph which meets the searching tone test, cost \$3,000,000 in experimental work. That this instrument should be encased in cabinets which reflect the last word in period furniture design is but fitting. See the beautiful Edison period cabinets we're now exhibiting.

You'll become a member of the Farmers Union--Red Cloud--big family of patrons

Why Not Now?

Here are a few of the REASONS WHY

ONE It's your own organization, composed of the Farmers of this vicinity; controlled by a board of directors composed entirely of men you know.

TWO We buy your cream, eggs, etc., at the highest market price and give you honest tests and weights.

THREE You not only receive cash for what you sell us but in addition to this you receive your pro-rate of the profit derived from the sale of the products to commission houses.

FOUR When you purchase your groceries, etc., from us you pay only the wholesale price plus the percentage that must be charged for handling the same--no exorbitant profits annexed to wholesale prices.

FIVE We are not dictated to by any combine--we follow the dictates of our own conscience when pricing our goods. It is your interests the management has in view not his own, as his future depends on the success of the organization--and it can't succeed unless its members are satisfied.

SIX \$2,217.40 cash business in one day is pretty good evidence that we are prospering.

Kindly bear in mind that we will be in a position to handle your grain when it is ready for the market.
